Benefits and unintended consequences

9. LME Clear and the LME acknowledge that there may be costs for Members in complying, or otherwise in connection, with the proposals set out in this Consultation. However, the current views of LME Clear and the LME are that the proposals are justified and in the interests of the wider Membership and to strengthen LME / LME Clear markets. LME Clear and the LME have not identified any unintended consequences as a result of any of the proposals. However, LME Clear and the LME are interested in the views of respondents to the Consultation in this regard.

A. LME Clear's Proposals

10. The proposed Rule Changes can be summarised as follows:

- (1) change to the minimum Net Capital requirement (Membership Procedure Part B4.4);
- (2) introduction of Default Fund Mutualisation Limit (Default Procedure Part B1.2(c));
- (3) introduction of Default Fund anti-procyclicality measure (Default Procedure Part B2.2(f)); and
- (4) minor, technical and administrative changes.

11. There are a few additional minor, administrative and technical changes proposed to the LME Clear Rules that are not subject to consultation but which are included here for completeness (other than where they are purely typographical in nature). A full redline of the proposed changes is included at Appendix 1.

Defined Terms

12. Terms not otherwise defined in this Consultation shall have the meanings ascribed to them in the LME Clear Rules.

Background

13. As part of the Action Plan LME Clear has been engaging with Members to explore ways to further reassure the market of the resilience of LME Clear and its membership. This has resulted in the improvements relating to credit risk management processes, margining and the Default Fund calculation proposed in this Consultation. These proposals have been considered by internal governance committees and are subject to regulatory approval. They have also been discussed with Members' risk representatives at the Risk Advisory Group and User Committee and with Members' and Clients' representatives at LME Clear's EMIR Risk Committee.
14. This Consultation sets out the rationale for the proposals, along with the text of the proposed LME Clear Rules and LME Rules that are needed to give effect to them, as applicable, and seeks market participant feedback on the same.

Proposed LME Clear Rule Changes

Increase in the Minimum Capital requirement (Membership Procedure Part B4.4)

15. Capital held by Members provides a cushion for absorbing losses during a crisis and under different market conditions. Higher capital contributes to stability by improving each Member's ability to handle stress.
16. LME Clear has reviewed its membership requirements and proposes to enhance credit-related Membership Requirements by increasing the minimum Net Capital Requirement from US\$10 million to US\$30 million. This is intended to increase confidence in Members' ability to respond to stresses and therefore enhance the resilience of the LME's market and its membership.

Default Fund Mutualisation Limit (Default Procedure Part B1.2)

17. LME Clear has reviewed its Default Fund methodology as part of the Action Plan in order to ensure that the proportion of risk that is mutualised within the Default Fund is fairly and stably correlated with unmutualised risk which is calculated by LME Clear as initial margin or additional margin.
18. In times of extreme market volatility, the Default Fund requirements can be driven by outsized stress losses which are often centralised to a small number of market participants. This significantly increases the size of Default Fund Contributions from all Members.
19. LME Clear therefore proposes to move more towards a ‘defaulter-pays’ model and introduce a mutualisation limit for the Default Fund (a “**Default Fund Mutualisation Limit**” as further specified in the Default Fund overview document) in Default Procedure Part B:1.2(c)(ii). This will limit the size of the mutualised component of the pre-funded resources available to manage a default and therefore limit the Default Fund Contributions of Members.
20. Any stress losses that are in excess of the Default Fund Additional Margin Threshold will be called as additional Collateral from the relevant Member in respect of which the losses are generated under existing Default Procedure Part B2.1(b).
21. In line with the Default Fund minimum size, the Default Fund Mutualisation Limit will be calculated in accordance with the methodology described in the Default Fund overview document published on the Website and annexed to this Consultation in Appendix 2. This calculation has been taken through appropriate governance at LME Clear, and is subject to calibration and periodic review. Any approved changes to the methodology will be notified to Members by Circular.
22. A definition of Default Fund Mutualisation Limit has also been added to the definitions in Rule 1.

Default Fund Procyclicality Control (Default Procedure Part B2.2(f))

23. Where historical data falls out of the date range covered by the Default Fund methodology, the removal of such data can result in a recalculation of the Default Fund that would cause significant reductions in the calculated size of the Default Fund. LME Clear proposes to improve the stability of the Default Fund by introducing a Default Fund procyclicality control that limits the percentage by which the Default Fund can fall in any one re-calculation.
24. This control will prevent each Member’s Default Fund Contributions from fluctuating significantly and is intended to increase predictability for Members as well as promoting the stability of the Default Fund and sound risk management.
25. LME Clear proposes to add a new condition to Default Procedure Part B2.2(f)) to reflect this. The percentage is subject to calibration and will be set out in the Default Fund overview document available on the Website.

Minor Technical & Administrative Changes

26. The sub-title for “LME Aluminium Premium Duty Unpaid US Midwest” in paragraph 2.3(b) is being corrected to “LME Aluminium Premium Duty Paid US Midwest”. This change is to properly reflect the contract specifications in LMEmercury and on the Website and is shown in the mark-up annexed to this Consultation.
27. The term “Open Positions” is not defined. LME Clear has therefore amended stray references to “open Positions”.

B. LME's Proposals

Overview

28. The LME is consulting on refining the Category 5 Membership model. Specifically, the LME proposes removing the automatic ability of Category 5 Members to submit brand listing applications on behalf of producers and instead, introducing a new status of Brand Listing Consultant for Category 5 Members and non-LME Members wishing to perform this role.
29. The LME believes that this proposal will make it easier for prospective producers who wish to become an LME brand to identify the pool of specialised service providers able to support and submit their application.
30. The proposal will also enable the LME to maintain the annual Membership Fee for Category 5 Membership at its current level for the time being. This is achieved through rationalising the due diligence requirements the LME performs on Category 5 Members (on application and on a risk-informed basis thereafter) by removing the Brand Listing Consultant component of these requirements.
31. Under this proposal, prospective Brand Listing Consultants would have to meet all of the following requirements in order to become a Brand Listing Consultant (unless the grandfathering arrangements apply - see below):
 - (a) Application form – Prospective Brand Listing Consultants would submit an application form to the LME in the prescribed format (and made available on the LME website). They would provide all information requested by the LME in connection with their application.
 - (b) Eligibility criteria – In relation to the “onboarding” process to become a Brand Listing Consultant, applicants would have to meet the eligibility criteria. The LME proposes that Brand Listing Consultants would be subject to the same eligibility criteria as those applicable to Category 5 Members (available on the LME website at: <https://www.lme.com/-/media/Files/Trading/Access-the-market/Become-a-member/LME-Base-Membership-Structure-Criteria-and-Capabilities-April-2024.pdf>)
 - (c) Due diligence – Brand Listing Consultants would need to meet the applicable due diligence requirements. These requirements would replicate those that currently apply to Category 5 Members and that are specific to Brand Listing Consultant activities.
 - (d) Brand Listing Consultant agreement – A prospective Brand Listing Consultant would execute the standard, non-negotiable Brand Listing Consultant agreement, as described further below.
 - (e) Annual Fee – Brand Listing Consultants would pay the annual Membership Fee.
 - (f) Acceptance as a Brand Listing Consultant – Any application to become a Brand Listing Consultant would need to be accepted by the LME at its discretion.
32. Category 1, 2, 3 and 4 Members would maintain their ability to process brand applications. The LME does not propose to make any changes in this regard given that higher due diligence requirements already apply to these Membership categories (and this is reflected in the corresponding Membership application, and annual Fee). Furthermore, these Members are subject to more extensive obligations under the LME Rules than Category 5 Members.

Brand Listing Consultant Agreement

33. The LME envisages that the key contractual provisions that Brand Listing Consultants would be subject to under an English law-governed Brand Listing Consultant agreement would include the following:
 - (a) ensuring that Brand Listing Consultants comply with the requirements of Part 7 of the LME Rules, and all related brand listing guidance (and more generally all applicable laws);
 - (b) making reasonable efforts to verify that the information included within brand listing applications to be made by the Brand Listing Consultant is accurate and comprehensive; and
 - (c) making payment of the applicable Fees when due.

34. The Brand Listing Consultant agreement would permit the LME to terminate a Brand Listing Consultant's status on reasonable notice, and with immediate effect on the occurrence of certain events that would be defined in the agreement. The LME proposes that this would include repeated breaches of key contractual provisions of the agreement such as, for instance, repeated non-compliance with LME brand listing guidance. For the purposes of clarity, where a Category 5 Member is also a Brand Listing Consultant, the termination of the Brand Listing Consultant agreement would not give rise to an automatic termination of its LME Category 5 Membership. Depending on the circumstances, however, the LME may also consider taking action under its Rules in relation to the Category 5 Member for breach of the Rules if applicable.
35. As described in more detail below, Category 5 Members wishing to continue to submit brand listing applications would, if the proposal is implemented, be required to enter into a Brand Listing Consultant agreement with the LME. For the avoidance of doubt, the LME's powers relating to, and the obligations of, Category 5 Members under the LME Rulebook (whether or not such members have opted to become Brand Listing Consultants) would remain separate from the Brand Listing Consultant agreement and unchanged.

LME Rulebook Changes

36. The implementation of this proposal would require the LME to amend Part 7 of the LME Rules to remove the ability of Category 5 Members to submit brand listing applications.
37. It would also require the LME to amend Part 1 of the LME Rules to introduce a new definition of "Brand Listing Consultant". These changes are shown in redline in Appendix 3.

Brand Listing Consultant Fees

38. The LME proposes 2 types of Fees:
 - (a) One non-refundable Fee which would be due on application ("Application Fee"). The LME proposes to set the Application Fee at USD 5,750 (the same as the Application Fee for Category 5 currently); and
 - (b) If the application is successful, one on-going Fee to be paid each year ("Annual Fee"). The LME proposes to set this Annual Fee at USD 1,000.
39. Grandfathered Category 5 Members would not be required to pay the Application Fee. They would be required to pay the Annual Fee upon execution of the Brand Listing Consultant agreement (see below).
40. To be clear, existing Category 5 Members who are not grandfathered (either because they were not eligible for grandfathering arrangements or they were eligible but failed to act) and who successfully apply to become Brand Listing Consultants would be subject to both types of Fees *in addition* to their annual Category 5 Membership Fee.
41. The LME proposes to maintain the Category 5 Membership Fees unchanged for the time being.

Grandfathering Arrangements

42. If the proposal were to be adopted by the LME, grandfathering arrangements would exclusively be open to:
 - (a) Category 5 Members who have successfully listed at least one brand in the 5 years prior to a specific date (the "**Effective Date**") which the LME will set and communicate at a later point; and
 - (b) Category 5 Members who are producers of an LME listed brand on the Effective Date.
43. Those Category 5 Members eligible for grandfathering arrangements would have the following options available to them:
 - (a) Maintain their Category 5 Membership only – Category 5 Members who take no action would automatically have their ability to submit brand listing applications withdrawn from them six months after the Effective Date;
 - (b) Resign their Category 5 Membership – Category 5 Members may elect to resign from their Category 5 Membership pursuant to Regulation 10 of Part 2 of the LME Rules. Should they elect to do so, they

may take up Brand Listing Consultant status either through the proposed grandfathering arrangements or by applying for Brand Listing Consultant status at a later date; or

- (c) Maintain their Category 5 Membership and be grandfathered as a Brand Listing Consultant. Category 5 Members would need to notify the LME within six months of the Effective Date. Details on how to submit such a notification would be provided beforehand. Category 5 Members who submit a notification by the Effective Date would be grandfathered as a Brand Listing Consultant without being subject to any additional due diligence. They would then have three months from the date of their notification to execute the Brand Listing Consultant agreement and pay the annual Fee of USD 1,000.

44. For example, if the Effective Date were 1 January, Category 5 Members who are eligible for the grandfathering arrangements would have until 30 June to notify the LME in writing of their intention to become a Brand Listing Consultant. If they notify the LME on 30 June, they would then have 3 months (so until 30 September) to enter into a Brand Listing Consultant agreement with the LME and pay the Annual Fee of USD 1,000 upon execution.

45. Any person who is not a Category 5 Member or any Category 5 Member not eligible for grandfathering arrangements wishing to become a Brand Listing Consultant, would be required to submit an application form (which would be made available on the LME website) and satisfy the requirements set out in paragraph 32.

Brand Listing Consultant List

46. If this proposal were to be adopted, a list of approved Brand Listing Consultants would be maintained by the LME and made available on the LME website.

Defined Terms

47. Terms not otherwise defined in this Consultation shall have the meanings ascribed to them in the LME Rules.

- (c) In an Indirect Net Omnibus Segregated Client Account:
 - (i) the Positions of the Member in respect of each Indirect Client allocated to the Account may be subject to netting or aggregation at the Account-level in accordance with the position management provisions in Clearing Procedure B:4 and B:5; and
 - (ii) Margin Requirements shall be calculated at an Account-level.

Individual Segregated Client Accounts

4.2.4 Each Direct Individual Segregated Client Account may only be used to record the Respective Entitlements arising in respect of Transactions effected or cleared by a General Clearing Member on behalf of a single Client.

Rule 4

- 4.2.5** Each Indirect Individual Segregated Client Account may only be used to record the Respective Entitlements arising in respect of Transactions effected or cleared by a General Clearing Member on behalf of a single Clearing Client which relate to a single Indirect Client.
- 4.2.6** Each Indirect Gross Omnibus Segregated Client Account may only be used to record the Respective Entitlements arising in respect of Transactions effected or cleared by a General Clearing Member on behalf of a single Clearing Client which relate to one or more Indirect Clients. In an Indirect Gross Omnibus Segregated Client Account:
- (a) the Positions of the Member in respect of each Indirect Client allocated to the Account shall be separately identifiable and shall be subject to netting or aggregation at a per-Indirect Client level (as defined by Allocation IDs) in accordance with the position management provisions in Clearing Procedure B:4 and B:5; and

Additional Requirements and Restrictions

- 4.2.7** Client Accounts are subject to certain restrictions on the use of Collateral set out in Rules 8 (*Margin Requirement and Collateral*) and 10 (*Default*).
- 4.2.8** Client Accounts are subject to certain additional provisions set out in Rule 5 (*Client Business and Portability Arrangements*).
- 4.2.9** A Member shall remain liable for all obligations owed to LME Clear in respect of each Account established by that Member.

Administrative Accounts

- 4.2.10** LME Clear may establish in respect of a Member one or more Administrative Accounts, each such Account designated either as a House Account or a Client Account, depending on its usage:
- (a) in order to facilitate Give-Ups;
 - (b) in order to allocate Contracts resulting from Transactions effected or cleared by a General Clearing Member on behalf of a Client, where LME Clear considers that it has not received the correct information to allocate the Contract to a specific Client Account; or
 - (c) for such other administrative purposes as LME Clear considers appropriate.

Administrative Accounts shall be treated in the same manner as other Accounts and shall be subject to the application of Margin Requirements.

Rule 4

4.3 ACCOUNT SEGREGATION

4.3.1 LME Clear shall treat each Account maintained for a Member separately from each other Account maintained for that Member for the purposes of:

- (a) recording the Respective Entitlements referable to each Account;
- (b) recording and accounting for any Excess Collateral referable to that Account;
- (c) where applicable, the netting of positions referable to Transactions or Contracts allocated to that Account;
- (d) the exercise of any right by LME Clear under the Rules to combine or consolidate balances on Accounts or any set-off rights;
- (e) the allocation or discharge of Losses, including Default Losses; and
- (f) the exercise of rights or obligations pursuant to Rule 10.7 (*Portability of Client Accounts*).

4.3.2 Each Account established by a Member shall be segregated in the books and records of LME Clear from each other Account, so that: (a) the Respective Entitlements arising in respect of Contracts allocated to any one Account and (b) any Excess Collateral allocated to any one Account, shall be segregated and distinguished from the Respective Entitlements and Excess Collateral allocated to any other Account established by that Member.

4.3.3 Where a Member has one or more Accounts, the arrangements under Rule 8 (*Margin Requirement and Collateral*) for the calculation of the Member's Margin Requirement shall be applied separately to each such Account.

4.3.4 Rules 4.3.1, 4.3.2 and 4.3.3 shall be subject to any right of LME Clear to combine any two or more Accounts for the purpose of, and pursuant to, Rule 10 (*Default*).

4.4 POSITION MANAGEMENT

4.4.1 Contracts recorded to each Account shall be subject to position management in accordance with requirements specific to the Eligible Products held within such Account. Clearing Procedure B4 and B5 specify further the basis on which different types of Eligible Product will be subject to position management.

4.5 LEGALLY COMPLIANT ACCOUNT STRUCTURES

4.5.1 Subject to Rule 4.5.2 below, it is the sole responsibility of each Member to determine and establish the appropriate number and types of Accounts with LME Clear in order to enable the Member to satisfy its legal and regulatory obligations and its obligations under the Rules. This includes:

- (a) any obligation of a Member to record Respective Entitlements to a Client Account, or to establish separate Omnibus Segregated Client Accounts or Individual Segregated Client Accounts, in order to comply with any client money requirements under Applicable Law applying to the Member;
- (b) any obligation of a Member to record Respective Entitlements arising from Transactions or Contracts effected or cleared for a Client or any Indirect Client, to an Omnibus Segregated Client Accounts or Individual Segregated Client Account, in order to comply with the provisions of the EMIR Level 1 Regulation and / or the

Rule 4

EMIR Level 2 (Indirect Clearing) Regulation and/or MiFID II applying to the Member;
or

- (c) any obligation of a Member to ensure that Collateral provided by Clients is recorded or segregated in such a manner as enables the Member to be able to identify the person to whom such Collateral (or equivalent assets) is returnable upon release from any charge created over it by the Member in favour of LME Clear (pursuant to Rule 8.5).

4.5.2 Each General Clearing Member must offer, at least, a choice of one Client Account providing individual client segregation and one Client Account providing omnibus client segregation (in the manner set out in Articles 39 and 48 of the EMIR Level 1 Regulation) to each Client and potential Client. Where a General Clearing Member is subject to a non-EU insolvency regime which could interfere with the provision of individual client segregation or omnibus client segregation, it may meet this obligation by offering Client Accounts to be established by another General Clearing Member, subject to the establishment of any operational and technical procedures and contractual terms that LME Clear may determine are necessary in order to ensure that such clearing arrangement can be operated in accordance with these Rules.

4.5.3 LME Clear has no obligation, under the Rules or otherwise, to verify, confirm or otherwise ensure that a Member has adopted an appropriate account structure.

Rule 5

RULE 5 - CLIENT BUSINESS AND PORTABILITY ARRANGEMENTS**Background**

The provisions set out below describe the basis on which a Member may establish and maintain Client Accounts in respect of its Clients and the arrangements to be established in respect of such Client Accounts in order to support the application of the Porting Process. Further provisions specifying the basis on which LME Clear shall implement the Porting Process are set out in:

- (i) Rule 10.7 (*Portability of Client Accounts*); and
- (ii) Default Procedure D (*Porting Procedure*).

5.1 AVAILABILITY OF PORTING TO CLIENT ACCOUNTS

5.1.1 The Porting Process may be applied in respect of any Client Account where:

- (a) LME Clear is in receipt of all relevant documentation and information to enable LME Clear to determine that all Clients allocated to the account, and their nominated Member Transferee, each agree to the application of the Porting Process including:
 - (i) in relation to a Client Account to which the Automatic Porting Process applies, the Automatic Porting Designation Documents; and
 - (ii) in relation to any other Client Account, a Porting Request Notice issued in accordance with Rule 10.7;
- (b) the conditions and requirements set out in this Rule 5, Rule 10.7 (*Portability of Client Accounts*) and Default Procedure D (*Porting Procedure*) are satisfied; and
- (c) all Clients allocated to such Client Account are either:
 - (i) Identified Clients; or
 - (ii) otherwise identified by LME Clear in accordance with Rule 10.7.8.

5.1.2 Where:

- (a) a Client Account is maintained by a Member in respect of Identified Clients; and
- (b) prior to LME Clear issuing a Default Notice in respect of such Member, all the Clients allocated to that Client Account have lodged with LME Clear Automatic Porting Designation Documents in respect of that Client Account in accordance with the requirements specified in Section 1 of Default Procedure D (*Porting Procedure*),

then LME Clear will apply the Automatic Porting Process in respect of such Client Account.

5.1.3 For the avoidance of doubt LME Clear will permit the Transfer of positions and assets from a Client Account only to a single Member Transferee that consents to receive such assets and positions during the Porting Election Period, in accordance with Rule 10.7 (*Portability of Client Accounts*) and Default Procedure D (*Porting Procedure*).

5.1.4 Notwithstanding that this Rule 5, Rule 10.7 and Default Procedure D (*Porting Procedure*) specify conditions and requirements for the application of the Porting Process, LME Clear may apply the Porting Process where such conditions and requirements are not fully satisfied, in accordance with and subject to its general discretion pursuant to Rule 10.7.9.

Rule 5

Identified Clients and Non-Identified Clients

5.1.5 A Client allocated to a Client Account shall be an "**Identified Client**" in respect of that Client Account where the Member or the Client has provided to LME Clear such up to date and accurate information regarding:

- (a) the identity of such Client; and
- (b) such other details regarding the authorised representatives of such Client as may be specified by LME Clear from time to time,

such that LME Clear considers, acting reasonably, that it has sufficient information to enable LME Clear to determine the true identity of such Client.

5.1.6 Any Client that is allocated to a Client Account that is not an Identified Client shall be a "**Non-Identified Client**".

5.1.7 In the event that, at the time that LME Clear issues a Default Notice in respect of the Member responsible for a Client Account, one or more Non-Identified Clients are allocated to such Client Account, LME Clear shall, acting reasonably, determine whether it can apply the Porting Process in relation to such Client Account in accordance with the requirements specified in Rule 10.7.8. In the event that LME Clear determines that it has insufficient information regarding all the Clients allocated to the Client Account to enable it to apply the Porting Process in accordance with Rule 10.7.8, LME Clear shall be under no obligation under these Rules to apply the Porting Process in respect of such Client Account or to otherwise act upon any Porting Request Notice received by LME Clear in respect of such Client Account.

5.1.8 Each Member acknowledges that the inclusion within a Client Account of a Non-Identified Client will, subject to Rule 10.7.8, impair the ability of all Clients allocated to such Account to apply the Porting Process in the event that such Member becomes a Defaulting Member. Accordingly,

- (a) where the Clients allocated to a Client Account include Non-Identified Clients, the Member must notify all such Clients that the Porting Process may not be available to such Clients unless they become Identified Clients or LME Clear determines otherwise in the circumstances described in Rule 5.1.7 above; and
- (b) where both Identified Clients and Non-Identified Clients are allocated to a Client Account, the Member must notify the Identified Clients that:
 - (i) the Porting Process may not be available to such Clients, notwithstanding that they may have submitted Automatic Porting Designation Documents to LME Clear, unless and until all Clients in that Client Account become Identified Clients or LME Clear determines otherwise in the circumstances described in Rule 5.1.7 above; and
 - (ii) an alternative means of enabling the Porting Process to apply in respect of each such Identified Client would be to establish an Individually Segregated Client Account in order to record the Positions and Collateral in respect of Client Business cleared for such Client.

5.1.9 Where a Member receives notice from all Clients allocated to an Omnibus Segregated Client Account maintained by that Member that such Clients wish to be Identified Clients, the Member must provide to LME Clear the information specified in Rule 5.1.5 in respect of all Clients allocated to that Account.

Rule 5

5.1.10 Any Client allocated to an Individual Segregated Client Account must be an Identified Client. A Member may not establish an Individual Segregated Client Account in respect of a Non-Identified Client.

5.2 ESTABLISHMENT OF APPROPRIATE CONTRACT TERMS WITH CLIENTS

5.2.1 A Member must not conduct any Client Business in respect of a Client (or an Indirect Client) unless:

- (a) the Member has executed with such Client binding contractual terms recording the basis on which the Member will provide clearing services for that Client or (where applicable) any Indirect Client;
- (b) the Member has:
 - (i) executed or has in place with such Client or Indirect Client either:
 - (1) a Client Acknowledgement Form in the form specified in Part A of Annex 6 (*Client Business Terms*); or
 - (2) contractual terms which incorporate the Mandatory CCP Provisions as specified in Part B of Annex 6 (*Client Business Terms*) (which may, for the avoidance of doubt, be incorporated by reference) or which are equivalent to the Mandatory CCP Provisions in all material respects (and LME Clear will regard as compliant with this paragraph (2) any contractual terms that have the effect of providing that transactions between the Member and the Client are subject to the rules of the clearing house through which transactions may be cleared by the Member for or on behalf of such Client); or
 - (ii) provided written notification to its Client:
 - (1) that LME Clear will be acting as the clearing house for Transactions effected on or matched via the systems of the Exchange;
 - (2) directing such Client to the sections of the Website on which LME Clear has published the Mandatory CCP Provisions; and
 - (3) making it clear that the Client's receipt of clearing services from the Member is subject to the application of those Mandatory CCP Provisions;
- (c) the Member has notified the Client, and required the Client to notify any Indirect Client, of the basis on which the Rules applicable to Client Contracts and Client Accounts shall be applied in respect of the Client (and, where applicable, the Indirect Client) and the Positions and Collateral allocated to such Client Accounts;
- (d) the Member complies with any additional documentary requirements that LME Clear may specify from time to time in relation to General Clearing Members. Any such requirements shall be set out in an Annex; and
- (e) the Member has established such contractual arrangements with its Client that are specified in the LME Rules to enable the formation of Underlying Client Trades at the Acceptance Time and to ensure compliance with such other requirements as may be specified in the LME Rules.

Rule 5

5.2.2 Without prejudice to Rule 5.2.1, each Member must ensure that:

- (a) each Client allocated to an Omnibus Segregated Client Account;
- (b) the Client allocated to a Direct Individual Segregated Client Account; or
- (c) the Client and each Indirect Client allocated to an Indirect Individual Segregated Client Account; or
- (d) the Client allocated to an Indirect Net Omnibus Segregated Account or an Indirect Gross Omnibus Segregated Account,

is aware and understands that:

- (i) in the event that a Default Event occurs in respect of the Member, LME Clear shall be entitled, upon receipt of a Porting Request Notice from such Client or Clients, to apply the Porting Process in respect of such Account in accordance with Rule 10.7; and
- (ii) where all Clients allocated to the relevant Client Account have lodged with LME Clear Automatic Porting Designation Documents in accordance with Rule 5.4.1 and Part 1 of Default Procedure D (*Porting Procedure*), LME Clear shall be entitled, without any requirement to seek any further consent from the Client (or, where relevant, any Indirect Client) to implement the Automatic Porting Process on behalf of such Client, in accordance with Rule 10.7; and
- (iii) LME Clear shall, subject to and in accordance with Rule 2.1.5, not have any obligations or liability under these Rules to any person who is not a Member; and
- (e) each Client allocated to an Indirect Net Omnibus Segregated Account or an Indirect Gross Omnibus Segregated Account is aware of the necessity of ensuring that each Indirect Client allocated to such Account is aware of, and understands, the matters described in (i), (ii) and (iii) above; and
- (f) each Client allocated to an Indirect Individual Segregated Client Account or Indirect Gross Omnibus Segregated Client Account: (i) is aware and understands that in the event of a Client Termination Event in respect of the Client allocated to such Account(s), any transfer or re-allocation of the Positions and Collateral recorded to such Account(s) shall be effected subject to, and in accordance with, Rule 10.12 (*Indirect Client Porting*); and (ii) is aware of the necessity of ensuring that each Indirect Client allocated to such Account is aware of, and understands, the matters described in (i).

5.2.3 LME Clear will consider a Member to have complied with its obligations under Rules 5.2.1(c) and Rule 5.2.2 if a Member has directed its Clients to the relevant sections of the Website on which LME Clear publishes its Rulebook, the Mandatory CCP Provisions and the disclosure document published by LME Clear pursuant to its obligations under EMIR, including by making reference to such Website in the disclosure document that such Member is required to prepare pursuant to Article 39(7) of EMIR.

5.2.4 Where a Member intends to facilitate an Indirect Clearing Arrangement:

- (a) it shall comply with the requirements set out in Rule 5.2.1 and in the LME Rules; and

Rule 5

- (b) the Member shall be responsible for ensuring that, where any such Indirect Clearing Arrangement involves a "second indirect client" and/or a "third indirect client" within the meaning of the Indirect Clearing Regulations, the Client and each Indirect Client is aware and understands that the matters set out in Rule 5.2.1 and 5.2.2 must be communicated to, and understood by, each other person in the chain of cleared contracts and agrees to do so; and
- (c) LME Clear shall be under no obligation to verify, to any extent, whether such Indirect Clearing Arrangement, or any documentation, account structure(s) or procedures established by the Member and/or any other party to such Indirect Clearing Arrangement is appropriate or compliant with the Indirect Clearing Regulations.

5.2.5 A Client shall only be permitted to post LME Warrant Collateral held by it to LME Clear directly as Collateral in respect of a Designated Client Account pursuant to the Client Direct Posting Structure if:

- (a) such Client has entered into all required Client Direct Posting Documentation identifying the relevant Designated Client Account with LME Clear and the Member; and
- (b) such Client is the Client of a Category 1 or Category 2 Member of the LME. For the avoidance of doubt, no Indirect Clients may become a Posting Client.

5.3 MEMBER OBLIGATIONS IN SUPPORT OF CLIENT ACCOUNTS

5.3.1 A Member in respect of whom LME Clear has established a Client Account shall:

- (a) not submit to LME Clear any Transaction in respect of a Client or any Indirect Client(s) (being client(s) of a single Client) allocated to a Client Account unless and until the Member has established contractual terms that comply with the requirements specified in Rule 5.2 and only for so long as such terms remain in force;
- (b) at all times ensure that:
 - (i) any Transactions submitted to LME Clear; and
 - (ii) any Collateral provided to LME Clear

in respect of Client Business conducted by the Member for a Client shall be accurately and separately identified and allocated to the relevant Client Account maintained by the Member for such Client;

- (c) provide to, and maintain with, LME Clear at all times an accurate, current and complete list of all Identified Clients in respect of which Transactions are executed that result in Contracts and Positions being recorded on such Client Account;
- (d) use its best endeavours to ensure that LME Clear has at all times up to date details of the representatives of the Identified Clients allocated to a Client Account who are authorised to make binding decisions and instructions on behalf of such Identified Client (including the contact details for such representatives);
- (e) maintain accurate and up-to-date records of the Contracts, Positions and Collateral relating to each Client in respect of which Transactions or their corresponding Contracts are recorded on such Client Account and the Collateral it has provided,

Rule 5

or in the case of a Posting Client, the LME Warrant Collateral such Posting Client has provided, to LME Clear in respect of such Contracts;

- (f) promptly provide such information as LME Clear may reasonably request in respect of such Client Account and the Clients to which it relates (including the Transactions in respect of which Contracts are recorded and Collateral provided, including LME Warrant Collateral posted by a Posting Client pursuant to the Client Direct Posting Structure);
- (g) use its best endeavours to ensure that each such Client provides to LME Clear such information about itself and its Transactions as LME Clear may reasonably request. For the avoidance of doubt, it shall be reasonable for LME Clear to request information directly from a Client in the event that LME Clear requires such information in order to discharge any obligation or perform any function under these Rules and the Member is unable or unwilling to provide such information to LME Clear within a timescale acceptable to LME Clear;
- (h) at all times be in compliance with the requirements of Rule 5.2.1;
- (i) provide to or, where applicable, execute with, each Client allocated to such Client Account any notice or documentation specified by LME Clear in accordance with any Annex, together with any updates to such notices or documentation specified by LME Clear from time to time.

5.3.2 LME Clear shall not be under any obligation to facilitate the application of the Porting Process in respect of a Client Account in the event that LME Clear has any reason to doubt that:

- (a) all Clients allocated to such Client Account are Identified Clients; or
- (b) it has accurate, current and up-to-date records of the Clients, Contracts, Positions and Collateral allocated to a Client Account.

This Rule 5.3.2 shall at all times be subject to the Rule 10.7.8 and the general discretion of LME Clear thereunder.

5.3.3 Without prejudice to the Member's obligations under Rule 5.3.1, each Member that has established a Client Account must provide LME Clear with such updated details regarding:

- (a) its Clients; and
- (b) any other matters specified in Rule 5.3.1,

as may reasonably be requested by LME Clear as part of its annual due diligence processes in respect of the Member and its Accounts.

Allocation IDs

5.3.4 A Member in respect of whom LME Clear has established a Gross Omnibus Segregated Client Account must, in respect of each Contract allocated to such Account (and its associated Positions and Collateral), notify LME Clear of the Allocation ID against which such Contract should be recorded by LME Clear. Such notification must be made in within the timescales, and using the format, specified by LME Clear in the DSS. It shall be the sole responsibility of the Member to notify LME Clear of the correct Allocation ID for each Contract and LME Clear shall have no responsibility, or liability to any person for, recording

Rule 5

any Contract (or its associated Position or Collateral), in a Gross Omnibus Segregated Client Account in accordance with the Allocation ID notified to LME Clear by the Member.

- 5.3.5** In the event that a Contract is allocated to a Gross Omnibus Segregated Client Account and has not yet been assigned to an Allocation ID, it shall be held as an unallocated Contract until the Member has provided details of the Allocation ID against which the Contract should be recorded. Following a Default Event, the Member may request that such unallocated Contracts be allocated to an Allocation ID, and LME Clear in its sole discretion shall have the right but not the obligation to assign the unallocated Contract to the Allocation ID that has been notified to LME Clear by the Member.

5.4 AUTOMATIC PORTING PROCESS

Submission of Automatic Porting Designation Documents

- 5.4.1** In the event that an Identified Client allocated to a Client Account wishes to participate in the Automatic Porting Process, such Client must ensure that it submits to LME Clear Automatic Porting Designation Documents, in accordance with Section 1 of Default Procedure D (*Porting Procedure*), that are completed, executed and submitted to LME Clear by:

- (a) the Client itself; and
- (b) (where the Client Account is an Omnibus Segregated Client Account) each other Client allocated to the Client Account; and
- (c) the Designated Member Transferee for such Client or Clients.

- 5.4.2** Where requested by the Client or Clients allocated to a Client Account maintained by a Member, the Member shall facilitate the completion and execution of the Automatic Porting Designation Documents by each Client allocated to the Client Account and their Designated Member Transferee and shall submit to LME Clear the completed Automatic Porting Designation Document on such Client or Clients' behalf.

- 5.4.3** Each Member acknowledges that, in the event that the Client or Clients allocated to a Client Account maintained by that Member submit to LME Clear Automatic Porting Designation Documents in accordance with this Rule 5.4 and Section 1 of Default Procedure D (*Porting Procedure*), LME Clear shall be entitled to implement the Automatic Porting Process upon such Member becoming a Defaulting Member.

Obligations of Designated Member Transferee

- 5.4.4** Each Member that has agreed to be identified as a Designated Member Transferee for any Client(s) in the Automatic Porting Designation Documents lodged with LME Clear must ensure that it has established, and maintains in place, appropriate contractual arrangements with such Client(s) to enable such Designated Member Transferee to commence the provision of clearing services to such Client(s) immediately upon completion of any Transfer. For the avoidance of doubt, such contractual arrangements must be in compliance with the requirements set out in Rule 5.2 (*Establishment of Appropriate Contract Terms with Clients*).

- 5.4.5** Each Member that has agreed to be identified as a Designated Member Transferee for any Posting Client(s) in the Automatic Porting Designation Documents lodged with LME Clear must ensure that it has entered into the relevant Client Direct Posting Documentation with LME Clear and such Posting Client(s) in order to enable such Designated Member Transferee to support the Client Direct Posting Structure in respect of such Posting Client.

Rule 5

Any Contracts, Positions and Collateral relating to a Posting Client may be temporarily transferred to an Omnibus Segregated Client Account held by the Designated Member Transferee, provided that LME Clear, the Posting Client and the Designated Member Transferee agree to such transfer. The Designated Member Transferee must have transferred the Posting Client's assets and Positions, including the LME Warrant Collateral provided to it, to the Individual Segregated Client Account within ten (10) business days of the relevant Default Event. Nothing in this part shall prevent LME Clear from requiring the Designated Member Transferee to replace the LME Warrant Collateral with other Eligible Collateral at any time.

Termination or Change of Arrangements Supporting Automatic Porting Designation Document

5.4.6 A Designated Member Transferee shall notify LME Clear immediately in the event that the Designated Member Transferee or any Client allocated to a Client Account gives notice to terminate the terms on which the Designated Member Transferee is appointed by the Client to act as its Designated Member Transferee for that Client Account.

5.4.7 In the event that LME Clear receives written notice from:

- (a) a Client allocated to a Client Account indicating that it no longer wishes to participate in the arrangements specified in the latest Automatic Porting Designation Document received by LME Clear in respect of that Client Account; or
- (b) the Designated Member Transferee identified in the latest Automatic Porting Designation Document received by LME Clear in respect of a Client Account indicating that it no longer wishes to act as Designated Member Transferee for such Client Account or that notice has been given by itself or any Client to terminate the terms on which it is appointed by the Client to act as its Designated Member Transferee for that Client Account,

then such Client Account shall, subject to Rule 5.4.8 below, immediately cease to be treated as eligible for the application of the Automatic Porting Process until such time as LME Clear receives updated Automatic Porting Designation Documents in respect of such Client Account in accordance with Rules 5.4.1 and Section 1 of Default Procedure D (*Porting Procedure*).

5.4.8 Subject to Default Procedure D1.3, LME Clear shall be entitled not to treat as valid any notice made under Rule 5.4.6 or 5.4.7 that is received less than one (1) Business Day prior to the Member that has established the relevant Client Account becoming a Defaulting Member.

5.5 CLIENT MONEY

5.5.1 Where a Member holds cash in respect of a Client as client money in accordance with the Client Assets chapter of the UK Financial Conduct Authority's Handbook (the "**CASS Rules**"), it shall be the responsibility of the Member to provide to LME Clear such notifications as may be required pursuant to the CASS Rules.

5.5.2 It shall be the responsibility of any such Member to ensure that where a Client Account is to be treated as a "client transaction account" under the CASS Rules, the Member must only record to such Client Account, Contracts and Collateral that are required and/or permitted under the CASS Rules to be allocated to such Client Account. Clause 7 of the Membership Agreement shall apply in respect of any such Client Account.

Rule 6

RULE 6 - ACCEPTANCE**6.1 INTRODUCTION**

6.1.1 This Rule 6 sets out the basis on which LME Clear will accept Transactions into the Clearing System and create Contracts with Members in respect of such Transactions.

6.1.2 The Clearing Procedures set out further detail on the arrangements for the acceptance of Transactions and the clearing of Contracts.

6.1.3 Without prejudice to the specific provisions set out below and in the Clearing Procedures:

- (a) Transactions that meet the Acceptance Criteria shall be Accepted into the Clearing System and shall form Contracts, in accordance with Rule 6.5;
- (b) Contracts shall be subject to the application of the clearing processes specified in this Rule 6 and the Clearing Procedures, including the application of netting to Accounts reflecting Members' Positions in respect of such Contracts and, where applicable, the daily marking-to-market or settlement to market of such Contracts;
- (c) Contracts shall only be transferred, modified, cancelled or otherwise amended where, and to the extent permitted by the Rules or the Clearing Procedures; and
- (d) Contracts shall be subject to settlement or delivery in accordance with the provisions of Rule 7 (*Settlement and Contract Performance*).

6.2 APPROVED TRANSACTION PLATFORMS

6.2.1 LME Clear will clear such Transactions in accordance with Transaction Data submitted to LME Clear by the Approved Transaction Platform.

6.3 TRANSMISSION AND PROCESSING OF TRANSACTION DATA

6.3.1 Transaction Data shall be submitted to LME Clear by an Approved Transaction Platform in such format and containing such identifying details and additional information as LME Clear may specify from time to time in relation to the type of Transaction. LME Clear shall not be obliged to accept any Transaction Data that does not meet such requirements.

6.3.2 Clearing Procedure B2 specifies the processes that LME Clear shall apply to determine how it shall deal with Transaction Data that does not meet its requirements.

6.4 OPEN OFFER AND ACCEPTANCE CRITERIA

6.4.1 LME Clear shall assume rights and obligations in respect of each Transaction as provided in Rule 6.5 at the time when the Transaction is deemed to be Accepted (pursuant to Rule 6.4.3 below) by LME Clear.

6.4.2 LME Clear makes an open offer to Members to enter into Contracts in respect of a Transaction. Such offer is conditional only upon the satisfaction of the Acceptance Criteria.

6.4.3 Upon satisfaction of the Acceptance Criteria, at the time specified in Clearing Procedure B3.2:

- (a) a Transaction shall be deemed to be accepted into the Clearing System ("**Acceptance**"); and

Rule 6

- (b) Contracts shall automatically and immediately come into effect between LME Clear and each Member responsible for the Transaction, in accordance with Rule 6.5,

and the time at which Acceptance occurs shall be the "**Acceptance Time**".

6.5 FORMATION OF CONTRACTS

Upon Acceptance of a Transaction:

- (a) Subject to (b) below:
- (i) where a Member is (or is clearing the transaction for a Client which is) the seller, it shall (acting as principal) acquire as seller rights against, and assume obligations towards, LME Clear as buyer on the terms of the Relevant Rights and Obligations, and a Contract shall be deemed to come into effect between LME Clear and the Member reflecting such terms; and/or
 - (ii) where a Member is (or is clearing the transaction for a Client which is) the buyer, it shall (acting as principal) acquire as buyer rights against, and assume obligations towards, LME Clear as seller on the terms of the Relevant Rights and Obligations, and a Contract shall be deemed to come into effect between LME Clear and the Member reflecting such terms; or

Any such determination shall be notified to Members by LME Clear pursuant to the issue of a Circular, specifying:

- (a) the date from which such contract shall be treated as an Eligible Contract; and

- (b) the Member can demonstrate that, under the same LME Warrant allocation and delivery process, it has a Receive Entitlement in respect of the same Underlying Asset as is required to be delivered under the At Risk Delivery Obligation (a "**Corresponding Receive Entitlement**"),

7.11.2 If the Member wishes to make a request pursuant to 7.11.1 above, it must do so as soon as it becomes aware of the situation and in any event by no later than 10:30am on the date that the At Risk Delivery Obligation is due under the LME Rules and/or these Rules (as applicable). The Member must provide such information, representations and confirmations as LME Clear may require in writing in order for LME Clear to consider and act upon the request.

10.1.4 The exercise by LME Clear of its powers under this Rule 10 shall be subject to any directions given by the Regulator pursuant to section 166 of the Companies Act 1989 or other Applicable Clearing Regulations.

10.1.5 Where LME Clear determines that a Default Event has occurred with respect to a Member, such Default Event shall be treated as applying in respect of all Services in which the Member participates, and such Member shall be a Defaulting-Member in respect of all such Services.

10.2 DEFAULT EVENTS

A "**Default Event**" means the occurrence, in relation to a Member, of any of the following events:

- (d) any regulatory body takes or threatens to take action against or in respect of the Member under any law or regulation;
- (e) LME Clear determines that the financial condition of the Member is such that, in the reasonable opinion of LME Clear the Member no longer satisfies the Membership Criteria or the continuing use of LME Clear by the Member would result in an increased level of risk or uncertainty for LME Clear and/or its other Members (in respect of the exposures of such other Members to the Clearing System);

Rule 10

- (f) LME Clear has reasonable grounds to believe that the Member is in or is approaching significant financial or operational difficulty or otherwise will be unable to perform its obligations to LME Clear;

- (h) circumstances have arisen which LME Clear has reasonable grounds to believe make it appropriate to suspend or terminate the Member's participation in order to avoid the risk of a failed or rejected delivery, or which could be prejudicial to LME Clear or represent a threat to the orderly operation, security, integrity or reputation of the Clearing System or which could lead to LME Clear becoming involved in legal proceedings with any third party;
- (i) the Member is dissolved pursuant to a consolidation, amalgamation or merger (except on terms previously approved by LME Clear);

- (o) LME Clear has reasonable grounds to believe that the suspension or termination of the Member's Membership is necessary either for the protection of LME Clear or for any of the other Members or to ensure the orderly operation, security, integrity and/or reputation of the Clearing System;
- (p) LME Clear has determined that suspension or termination of the Member's Membership is appropriate following a review of the suitability of the Member pursuant to Membership Procedure B7.2 or 7.3 (*Changes of Ownership*);
- (q) the Member admits in writing its inability to pay any debt, or it appears to LME Clear that the Member is unable to pay its debts as they fall due or that the value of its assets is less than the amount of its liabilities, taking into account its contingent and prospective liabilities;

10.3 DEFAULT NOTICE AND OTHER ACTION

10.3.1 The Member shall, immediately on becoming aware of the occurrence of any Default Event, give a Notice to LME Clear of such event. The Member will not (except with the prior consent of LME Clear which shall not be unreasonably withheld or delayed) take any steps which could result in any further Transactions being submitted to LME Clear.

10.3.2 If LME Clear considers that a Member will not be able to meet its future obligations to LME Clear, LME Clear shall inform the Bank of England to that effect before issuing a Default Notice.

10.3.3 LME Clear will, as soon as reasonably practicable after it has decided to exercise any of its powers under Rule 10.4.1 below in relation to a Member:

A reference to the Defaulting Member shall include (where the context permits) a reference to any Office-Holder appointed in relation to the Defaulting Member.

10.3.5 Without prejudice to the preceding provisions of this Rule 10, a Member shall notify LME Clear, the Regulator and (if different) the Member's regulator immediately of its passing of a creditors' voluntary winding up resolution, or a trust deed granted by it becoming a protected trust deed.

10.3.6 On LME Clear issuing a Default Notice, each non-defaulting Member shall co-operate with LME Clear and shall in particular (to the extent that it is reasonably able to do so):

- (f) subject to, and in accordance with Rule 10.7 (*Portability of Client Accounts*) and Default Procedure D (*Porting Procedure*), transfer an Open Contract of the Defaulting Member to the account of another Member, or terminate and close out such Contract and re-establish a Contract on the same terms with another Member, being in each case a Member entitled and willing to have such position transferred to it;

- (o) subject to the segregation provisions in Rule 4.3 (*Account Segregation*), debit any Account of the Member (including any such Account in which Cash Collateral is recorded) with any amount owed by the Defaulting Member to LME Clear including, to the extent permitted by Applicable Clearing Regulations, debiting the Defaulting Member's House Account with all amounts owing in respect of Fees and any expenses incurred by LME Clear with regard to or in consequence of the circumstances referred to in Rule 10.2 or the steps which are or may be taken under this Rule 10.4.1 or the Default Procedures (as the case may be);

- (q) appoint any person as its agent for the purpose of hedging, financing, selling or otherwise disposing of any Collateral of the Defaulting Member, its Posting Affiliate or its Posting Client at any time after the powers conferred by this Rule 10.4 have become exercisable;
- (r) (subject always to Rule 10.4.7) cash settle any Delivery Obligation or LME Premium Warrant Payment Obligation that LME Clear may owe to a non-defaulting Member in circumstances where the failure by the Defaulting Member to discharge a Delivery Obligation or LME Premium Warrant Payment Obligation to LME Clear results in LME Clear being unable to deliver the relevant Underlying Asset to the non-defaulting Member;

Rule 10

 - (1) an LME Warrant is due to be delivered to LME Clear;

 - (ii) upon Acceptance of such Give-Up Acceptance, cancel the Give-Up Contract allocated to the Defaulting Member's Administrative Account; and
- (w) in circumstances where LME Clear has a Delivery Obligation to a non-defaulting Member in respect of an Underlying Asset that LME Clear considers will or will likely be adversely affected by the failure by the Defaulting Member to perform its own Delivery Obligation to LME Clear in respect of the same Underlying Asset:
 - (i) (subject always to Rule 10.4.7) effect an Invoice Back in accordance with Rule 7.8; and/or
 - (ii) either:
 - (1) request that the Approved Transaction Platform take such steps as may be available under the rules of that platform; or
 - (2) take such other steps as LME Clear considers necessary or appropriate,

to delay any physical delivery of an Underlying Asset where LME Clear has a Delivery Obligation under an Open Contract with a non-defaulting Member; and/or
- (x) to the extent not otherwise specified in this Rule 10.4.1 above, take any other step or apply any other process required or permitted pursuant to the Default Procedures.

Rule 10

The powers exercisable under this Rule 10.4.1 shall be applied in respect of the Defaulting Member and shall not be construed so as to enable LME Clear to take action in respect of any non-defaulting Member, unless and except to the extent, specifically stated in the relevant paragraph of this Rule 10.4.1.

10.4.2 Where LME Clear exercises its rights under Rule 10.4.1, and subject to Rule 10.5:

- (a) LME Clear may take such action as it may determine to be necessary or expedient, subject to Applicable Clearing Regulations, to close out or otherwise discharge and/or net the rights, obligations and positions of the Defaulting Member referred to in Rule 10.4.1(c), including by:
 - (i) buying in or selling out the Underlying Asset deliverable by or to the Defaulting Member or (if LME Clear considers this impractical or inexpedient) to effect a cash settlement of an Open Contract and/or taking such other action as LME Clear may determine to be necessary or expedient to close out the Delivery Obligations or Payment Obligations (including, without limitation, any LME Premium Warrant Payment Obligation) and Failed Settlement Positions of the Defaulting Member; and/or
 - (ii) effecting corresponding contracts in relation to Open Contracts to which the Defaulting Member is a party;
- (b) LME Clear may take such action notwithstanding the fact that the Contracts concerned have different scheduled Settlement Dates;
- (c) LME Clear may bring into account for the purpose of such close out, discharge and/or netting all liabilities incurred by LME Clear in consequence of exercising its powers under the Default Rules (for which the Defaulting Member shall be liable to indemnify LME Clear), including all reasonable expenses of responding to the default and enforcing its rights hereunder;
- (d) LME Clear may collect and retain or bring into account for the purpose of such close out, discharge and/or netting, all dividends, interest and other income receivable under any Collateral provided by the Defaulting Member;
- (e) amounts payable by or to a Defaulting Member on such close out, discharge, cash settlement and/or netting of its rights, obligations or positions shall be determined by LME Clear (whose determination will be conclusive); and
- (f) LME Clear may take such action as it may determine to be necessary in order to delay any physical delivery of an Underlying Asset that may be required pursuant to a Delivery Obligation of LME Clear under an Open Contract, including by:
 - (i) effecting a corresponding contract with the Defaulting Member that has the same Settlement Date as the Open Contract (such that the Defaulting Member has a Delivery Obligation corresponding to the Delivery Obligation of LME Clear under the Open Contract); and
 - (ii) effecting another Contract between the Defaulting Member and LME Clear that is identical to the original Open Contract except that the Settlement Date under which LME Clear shall be required to perform the Delivery Obligation shall be scheduled for a later date.

Rule 10

For the purposes of this Rule 10.4.2, a "**corresponding contract**" means a contract on the same terms (except as to price, premium or date of performance) as the Contract to which the Defaulting Member is a party but under which the person who is the Buyer under the Contract agrees to sell and the person who is the Seller under the Contract agrees to buy.

- 10.4.3** If a Defaulting Member has an open Position for the purchase of an Underlying Asset and the same or another Defaulting Member has an open Position for the sale of the same Underlying Asset, then LME Clear may, if it chooses and subject to any requirements of Applicable Clearing Regulations, close out or hedge such Positions wholly or partly by effecting (i) a sale under which the Defaulting Member acting as Buyer agrees to sell to LME Clear at Market Value all or such part of the relevant Underlying Asset as LME Clear may select and (ii) a simultaneous purchase under which the Defaulting Member acting as Seller agrees to buy from LME Clear at Market Value a corresponding amount of the same Underlying Asset. This power may be exercised in respect of open Positions on different Accounts where the same Defaulting Member is involved in both transactions.
- 10.4.4** To the extent that the ability of LME Clear to perform its obligations to deliver Underlying Assets to any Member other than a Defaulting Member is adversely affected by the operation of the procedures set out in Rule 10.4.1 to 10.4.3, LME Clear may take such action as it considers appropriate and reasonable in the circumstances known to it to protect its position.
- 10.4.5** The procedure applicable under Rules 10.4.2 and 10.4.3 shall be completed by LME Clear as promptly as practicable after LME Clear has served a Default Notice. However, if it appears appropriate to LME Clear in the circumstances known to it, LME Clear may exercise the procedure in such stages and at such times as LME Clear considers best calculated to minimise any Loss to the Members of LME Clear and to avoid the creation of a disorderly market in any Underlying Asset that could otherwise arise from such close-out procedure.
- 10.4.6** When taking action under this Rule 10.4, LME Clear will ensure that such action does not adversely affect in any material way any Client's ability to effect a Transfer in respect of any Client Account in accordance with Rule 10.7 (*Portability of Client Accounts*).
- 10.4.7** LME Clear may not exercise any of its powers under Rule 10.4 to cash settle or Invoice Back any Contract with a non-defaulting Member unless and except to the extent explicitly specified in this Rule 10.4. Prior to exercising any power to cash settle or Invoice Back any Contract with a non-defaulting Member, LME Clear shall first consult with the Board Risk Committee and obtain the approval of the Board. For the avoidance of doubt, but without prejudice to the specific wording in any Rule, in the event that LME Clear exercises any right under this Rule 10 to cash settle or invoice back any Contract with a non-defaulting Member, the price for such cash settlement or Invoice Back shall be determined at the Closing Price for such Open Contracts as applies on the relevant Business Day or, if such Closing Price is not available, the price shall be such price as the Board determines is reasonably appropriate in the circumstances in consultation with the Board Risk Committee.
- 10.4.8** The Defaulting Member shall indemnify LME Clear in respect of all costs incurred by LME Clear in implementing its powers pursuant to this Rule 10 in relation to any Account(s) of the Defaulting Member (including any expenses, hedging costs, staff costs and legal fees), such costs being for the account of the Defaulting Member, and allocable to the Account in respect of which such costs are incurred.

Rule 10

10.4.9 Any amount that is to be brought into account as a sum payable under Rule 10.6.1, 10.6.4 or 10.8.1:

- (a) shall be an amount that is due and payable under these Rules, and shall, if it is not already due, become immediately due from the time of occurrence of a Default Event or (where such amount is incurred subsequent to the occurrence of the Default Event) from the time the relevant party incurs the relevant cost that corresponds to such amount; and
- (b) subject that any amount so payable shall be subject to the application of the netting provisions in Rules 10.6 and 10.8 and any liability of LME Clear to make any such payment to the Defaulting Member shall be subject to such netting provisions and the satisfaction of the requirements in Rule 10.9.

10.5 TREATMENT OF DIFFERENT TYPES OF ACCOUNT

10.5.1 Where the Defaulting Member has one or more Client Accounts and one or more House Accounts with LME Clear, the process set out in Rule 10.6 will be separately completed in respect of each such House Account and the process set out in Rule 10.8 will be separately completed in respect of each such Client Account. Each sum finally payable shall be separately certified under Rule 10.9.1. For this purpose:

- (a) an Account which is a House Account may be combined for the purpose of such process with another House Account of the same Defaulting Member;
- (b) no Omnibus Segregated Client Account or Individual Segregated Client Account may be combined with any other Account of the Defaulting Member with LME Clear except to the extent permitted by Applicable Clearing Regulations;
- (c) LME Clear will as soon as practicable deliver any surplus amount or Collateral owing to the Defaulting Member, or in the case of the Client Direct Posting Structure, to the Posting Client, in respect of an Individual Segregated Client Account or an Omnibus Segregated Client Account (after completion of final net settlement under Rule 10.8 and satisfaction of the Default Rules and Default Procedures) to the Client to which such Individual Segregated Client Account relates or to the Clients entitled to share in such Omnibus Segregated Client Account (as the case may be) or, if such Clients are not known to LME Clear or if it has insufficient information to determine how an amount is to be apportioned between them or to permit it to make a payment, to the Defaulting Member for the account of the relevant Client or Clients save that LME Clear shall only return any surplus amount or Collateral to a Client under this paragraph (c) if it is permissible under Applicable Law and LME Clear is not prevented from effecting such return by any court order or legal restriction applying to LME Clear, the amount or the Collateral, or by any claim or right of the Defaulting Member or any other person which may take precedence during any insolvency procedure affecting the Defaulting Member;

Proviso: LME Clear shall not return any such surplus amount or Collateral to a Client where any condition or requirement that reflects a condition or requirement to such return under Article 48(7) of the EMIR Level 1 Regulation is not satisfied;

- (d) LME Clear may (to the extent permitted by Applicable Clearing Regulations) allocate all or any part of a positive net balance on a House Account of a Defaulting Member (including any surplus of Collateral provided by the Defaulting Member

Rule 10

or its Posting Affiliate in respect of the House Account) to meet a deficiency on one or more Client Accounts of the Defaulting Member (but not vice versa);

- (e) LME Clear shall allocate the Defaulting Member's Default Fund Contribution in or towards the discharge of Default Loss on a Client Account and a House Account on such basis as it deems appropriate; and
- (f) LME Clear shall deliver any surplus amount of Default Fund Contribution to the Defaulting Member after: (i) the application of such Default Fund Contribution in accordance with this Rule 10; (ii) the completion of the final net settlement under Rule 10.6; and (iii) satisfaction of the Default Rules and Default Procedures, subject to and in accordance with Rule 10.9.

10.6 FINAL NET SETTLEMENT ON HOUSE ACCOUNT

10.6.1 For the purpose of discharging the Defaulting Member's rights and liabilities under or in respect of all Contracts to which it is party and which are recorded on its House Account(s), LME Clear shall:

- (a) bring into account:
 - (i) all sums payable by or to the Defaulting Member in respect of such Contracts;
 - (ii) (to the extent permitted by the Default Requirements) all other sums payable by or to the Defaulting Member under the Rules (otherwise than on Client Account); and
 - (iii) all costs incurred by LME Clear in implementing its powers pursuant to this Rule 10 in relation to any Account(s) of the Defaulting Member (including any expenses, hedging costs, staff costs and legal fees), such costs being for the account of the Defaulting Member;
- (b) the sums so payable shall be aggregated or set off so as to produce a net sum; and
- (c) if payable by the Defaulting Member to LME Clear, such net sum shall be set off against:
 - (i) any sum due by LME Clear to the Defaulting Member and/or any Collateral (following enforcement and liquidation if necessary pursuant to the terms of the relevant Security Document or of the relevant Affiliate Security Document) provided by or on behalf of the Defaulting Member; and
Defaulting Member in respect of its House Account(s);
 - (ii) such amount (if any) of the outstanding Default Fund Contribution of the Defaulting Member as LME Clear may determine under Rule 10.5.1(d) (after the application of such Default Fund Contribution for any other purpose permitted under the Rules),

(or, in either case, the proceeds of realisation of such amounts) so as to produce a further net sum; or

Rule 10

- (d) if payable by LME Clear to the Defaulting Member such net sum on its House Account(s) shall be aggregated with the amounts referred to in paragraph (c)(i) and (ii) (or the proceeds of realisation of such amounts), or shall be set off against any other sum payable by the Defaulting Member to LME Clear (otherwise than on Client Account) as LME Clear may select so as to produce a further net sum.

10.6.2 For the purposes of this Rule, LME Clear may assess the sum payable by or to the Defaulting Member in respect of any breach of the Rules in such reasonable manner as it thinks fit.

10.6.3 Where the net sum determined under Rule 10.6.1 above is payable to the Defaulting Member, the amount payable shall be subject to the further application of Rule 10.8.1(c)(ii) (*Final Net Settlement of Unported Client Accounts*) and Rule 10.6.4 below.

10.6.3A The process in Rule 10.6.1 to 10.6.3 shall be applied separately in respect of each Service, such that a separate net sum shall be calculated for the House Account in respect of each Service, subject that:

- (a) this shall be without prejudice to LME Clear's rights pursuant to Rule 10.5.1(d); and
- (b) where the net sum for the House Account for one Service indicates a positive balance, such that an amount may be due to the Defaulting Member, and the net sum for the House Account for another Service indicates a negative balance, such that an amount may be payable to LME Clear, LME Clear may set-off such positive and negative amounts in order to reduce the negative balance, and the net sums for each House Account shall be adjusted accordingly;
- (c) LME Clear shall apportion the relevant costs in accordance with Rule 10.6.1(a)(iii) between the respective net sum calculations for the House Account in respect of each Service in such manner as LME Clear shall determine in its sole discretion.

Counterparty Losses

10.6.4 In the event that the Defaulting Member is also a Treasury Counterparty and LME Clear has incurred Counterparty Losses pursuant to the default of such Treasury Counterparty, and where LME Clear has:

- (a) completed the application of its powers under Rule 10.4 (*Powers of LME Clear after a Default Notice*) and Rule 10.10.1 (*Default Waterfall and Allocation of any Excess Loss – During the Default Period*);
- (b) calculated the net sum payable under Rule 10.6.1 above; and
- (c) (where applicable) deducted from such net sum any amount set off in accordance with Rule 10.8.1(c)(ii),

then, in the event that (after the application of (a) to (c) above) there remains a positive net balance on any House Account of the Defaulting Member:

- (d) LME Clear may elect to set such positive net balance off against any such Counterparty Losses, **provided that** the maximum amount of such Counterparty Losses that may be so set off shall be limited to the amount of the remaining positive net balance on the House Account. For the avoidance of doubt, LME Clear shall not apply its rights of set off under this Rule 10.6.4 so as to cause the House Account to have a negative net balance; and

Rule 10

- (e) in the event that LME Clear exercises its rights under this Rule 10.6.4, the final net sum certified by LME Clear in respect of the Defaulting Member's House Account, pursuant to Rule 10.9 below shall be the sum resulting from the application of (d) above.

10.7 PORTABILITY OF CLIENT ACCOUNTS

10.7.1 Where assets and positions are recorded on an Individual Segregated Client Account or an Omnibus Segregated Client Account of a Defaulting Member, LME Clear shall, during the Porting Period, apply the provisions of this Rule 10.7 and Default Procedure D, with the objective of transferring the assets and Positions recorded to such Client Account from the relevant Individual Segregated Client Account or the Omnibus Segregated Client Account with the Defaulting Member (the "**Member Transferor**") to a new Client Account of a non-defaulting Member (the "**Member Transferee**") that:

- (a) (in the case of a Client Account to which the Automatic Porting Process applies) has been identified in the Automatic Porting Designation Documents lodged in respect of the Client or Clients allocated to such Client Account; or
- (b) (in the case of any other Client Account) has agreed to accept such assets and Positions and that has been identified in a Porting Request Notice issued to LME Clear by such Client or Clients in accordance with the requirements set out in Default Procedure D,

(each such transfer being a "**Transfer**").

10.7.2 Where the Automatic Porting Process applies to a Client Account, the Automatic Porting Designation Documents lodged by a Member in respect of a Client (or any Indirect Client) shall constitute a request by such Clients (for themselves and in respect of any Indirect Clients) to LME Clear to execute a Transfer to any Member Transferee specified in the Automatic Porting Designation Documents in the event that the Member becomes a Defaulting Member.

10.7.3 Where the Automatic Porting Process does not apply to a Client Account, LME Clear must be in receipt of a validly executed Porting Request Notice from each Client allocated to that Client Account in order for LME Clear to apply the Porting Process.

10.7.4 If the relevant Client Account of a Defaulting Member records the assets and/or positions of two or more Clients, any Transfer shall be:

- (a) requested and exercised jointly in respect of all such Clients; and
- (b) to the same Member Transferee,

unless LME Clear agrees otherwise.

10.7.5 LME Clear shall seek to transfer the assets and Positions (which shall include the Contracts and Collateral, including, where applicable, any LME Warrant Collateral posted by a Posting Client pursuant to the Client Direct Posting Structure) allocated to a Client Account of a Defaulting Member only if:

- (a) in the case of a Client Account to which the Automatic Porting Process applies:
- (i) the Automatic Porting Designation Documents held by LME Clear in respect of such Client Account identify a potential Member Transferee that has been

Rule 10

designated by all Clients allocated to such Client Account as a Designated Member Transferee;

- (ii) such Member Transferee is a non-defaulting Member which has agreed in writing to accept such Transfer within the Porting Election Period; and
 - (iii) the requirements set out in Default Procedure D2.2 are satisfied;
- (b) in the case of a Client Account to which the Automatic Porting Process does not apply:
- (i) LME Clear must have received, within the Porting Election Period, in respect of each Client allocated to the Client Account, a Porting Request Notice that has been:
 - (1) validly made under Rule 10.7.1 and Rule 10.7.3; and
 - (2) duly completed by the Member Transferee and each such Client allocated to the Client Account;

(subject that separate Porting Request Notices may be submitted by each Client, provided that each Porting Request Notice is accepted by the same Member Transferee);
 - (ii) the requirements set out in Default Procedure D2.3 are satisfied;
- (c) LME Clear has the information required to enable it to calculate the amounts to be transferred and is satisfied as to its accuracy, whether provided by the Defaulting Member or the relevant Client or otherwise; and
- (d) LME Clear is satisfied that sufficient additional Collateral (if any) will, on the transfer being effected or, if necessary, in advance, be provided to it by the Member Transferee in accordance with the Rules including, without limitation, as a result of the operation of Rule 10.7.11 below;
- (e) LME Clear is satisfied that all Clients allocated to the Client Account are Identified Clients; and
- (f) such transfer is permissible under Applicable Law and LME Clear is not prevented from effecting such transfer by any court order or legal restriction applying to LME Clear, the Collateral or the Open Contracts, or by any claim or right of the Member Transferor or any other person which may take precedence during any insolvency procedure affecting the Member Transferor.

The transfer of assets (including Collateral) pursuant to this Rule 10.7.5 is subject to Rule 10.7.10.

10.7.6 Partial Porting

- (a) Notwithstanding any other provision set out in Rule 5 (*Client Business and Portability Arrangements*), this Rule 10.7 and Default Procedure D (*Porting Procedure*), LME Clear may effect a Transfer of the Positions relating to some but not all of the Open Contracts recorded to an Omnibus Segregated Client Account of a Defaulting Member (a “**Partial Transfer**”) in accordance with the provisions of this Rule 10.7.6.

Rule 10

- (b) If at any time during a Default Period LME Clear determines, in its absolute discretion and in consultation with the Default Management Committee, that it is unlikely that the condition set out in Rule 10.7.3 will be satisfied with respect to one or more Omnibus Segregated Client Accounts to which the Automatic Porting Process does not apply (each a “**Relevant Account**”), LME Clear may decide to facilitate Partial Transfers out of the Relevant Accounts. In such circumstances LME Clear shall, in consultation with the Default Management Committee, designate one or more indicative Partial Transfer Windows. When determining the duration and aggregate number of Partial Transfer Windows, LME Clear shall, in its sole discretion, seek to identify the most favourable risk management solution, having regard to:
- (i) the number of Clients allocated to the Relevant Accounts;
 - (ii) the number, size and Market Value of the Open Contracts allocated to the Relevant Accounts; and
 - (iii) the direction, size of the Position and overall risk profile of each Relevant Account.
- (c) LME Clear shall, as soon as practicable after determination, publish such indicative Partial Transfer Windows on its Website. Throughout the Default Period LME Clear shall have the right, having as its primary objective effective risk management, to vary the number and/or duration of the Partial Transfer Windows without prior notification. LME Clear shall publish on its Website any decision to shorten any previously publicised Partial Transfer Window as soon as practicable following the implementation of such decision.
- (d) At the end of each Partial Transfer Window LME Clear shall, in respect of each Relevant Account, consider all Porting Request Notices received from one or more Clients allocated to the Relevant Account (each a “**Requesting Client**”) during or prior to that Partial Transfer Window, together with any Porting Request Notices received but not actioned in prior Partial Transfer Windows. LME Clear will, subject to the proviso below, transfer from the Relevant Account the Open Contracts (but not the Collateral) of all Requesting Clients to the Member Transferee(s) nominated in the relevant Porting Request Notices if:
- (i) by effecting such Partial Transfers, the risk to LME Clear would not significantly increase taking into account:
 - 1. any increase or decrease in the Margin Requirement that would apply to the Relevant Account going forward; and
 - 2. if applicable to the Relevant Account, any increase or decrease in any contingent margin credit that would offset the Margin Requirements of that Relevant Account going forward;
 - (ii) LME Clear is satisfied that sufficient additional Collateral (if any) will, on the transfer being effected or, if necessary, in advance, be provided to it by the Member Transferee in accordance with the Rules including, without limitation, due to the operation of Rule 10.7.11 below;
 - (iii) LME Clear has the information required to enable it to calculate the amounts to be transferred (including, for the avoidance of doubt,

Rule 10

contingent margin credits) and is satisfied as to its accuracy, whether provided by the Defaulting Member or the relevant Requesting Clients or otherwise;

- (iv) the requirements set out in Default Procedure D2.4 are satisfied;
- (v) LME Clear is satisfied that all Requesting Clients allocated to the Relevant Account are Identified Clients;
- (vi) it is practicable to determine the specific Positions allocable to each Requesting Client; and
- (vii) such Partial Transfers are permissible under Applicable Law and LME Clear is not prevented from effecting such Partial Transfers by any court order or legal restriction applying to LME Clear or the Open Contracts, or by any claim or right of the Member Transferor or any other person which may take precedence during any insolvency procedure affecting the Member Transferor.

Proviso: Nothing in this Rule 10.7.6(d) shall oblige LME Clear to effect a Partial Transfer which either: (x) if effected would change the direction and/or size of the Positions of the Open Contracts remaining in the Relevant Account; or (y) LME Clear considers inappropriate having as its primary objective effective risk management.

- (e) If LME Clear is unable at the end of any Partial Transfer Window to effect Partial Transfers of all Requesting Clients in accordance with Rule 10.7.6(d) above, LME Clear shall effect as many Partial Transfers as it considers appropriate having as its primary objective effective risk management but also having regard to porting the largest number of Requesting Clients and/or the largest number and greatest size and Market Value of Open Contracts. Where LME Clear is considering a Partial Transfer which, if effected, would prevent it from effecting Partial Transfers for one or more other Requesting Clients with similar positions that would satisfy the requirements for a Partial Transfer on their own merits but not together, LME Clear shall draw lots to decide which Partial Transfer to effect at such time.
- (f) Notwithstanding any other provision in this Rule 10.7.6, LME Clear may effect a Partial Transfer in respect of a Requesting Client prior to the expiry of a Partial Transfer Window if:
 - (i) the conditions set out in Rule 10.7.6(d) are otherwise satisfied; and
 - (ii) LME Clear determines in consultation with the Default Management Committee that by effecting such Partial Transfer earlier than would otherwise be permitted pursuant to the terms of Rule 10.7.6(d) it would, in LME Clear's sole discretion, either:
 1. significantly decrease the risk to LME Clear; and/or
 2. enable LME Clear to process a greater number of Partial Transfers than would otherwise be possible if it did not accelerate the implementation of such Partial Transfer.

Rule 10

- (g) References in this Rule 10.7.6 to LME Clear either practising or having regard to “effective risk management” shall be taken to mean that LME Clear, when taking default action, will always seek to protect: (i) its capital and the Default Fund; and (ii) the integrity of the markets which it clears.

10.7.7 LME Clear may decline to effect a Transfer in respect of any Individual Segregated Client Account or Omnibus Segregated Client Account:

- (a) if any of the conditions set out in Rule 10.7.5 or, if applicable, 10.7.6 are not satisfied in relation to the Individual Segregated Client Account or Omnibus Segregated Client Account; or
- (b) if LME Clear has reason to believe that the taking of any action under this Rule 10.7 in relation to the Individual Segregated Client Account or Omnibus Segregated Client Account would be contrary to Applicable Clearing Regulations, or impair its own ability to perform its obligations as they fall due.

10.7.8 Notwithstanding Rule 5.1.7, 5.1.8, 10.7.5(e) and 10.7.6(d)(v), LME Clear shall effect a Transfer pursuant to a Porting Request Notice issued in respect of a Client Account to which Non-Identified Clients are allocated where all such Non-Identified Clients have provided to LME Clear such information as LME Clear reasonably considers to be appropriate and sufficient regarding their identities, the details of their representatives that are authorised to provide instructions on their behalf and the Transactions that have been registered on their behalf. Any such Client shall be treated as an Identified Client from the time that LME Clear considers that it has appropriate and sufficient information in accordance with this Rule 10.7.8.

10.7.9 Notwithstanding any other provision set out in Rule 5 (*Client Business and Portability Arrangements*), this Rule 10.7 and Default Procedure D (*Porting Procedure*), but subject to the proviso below, LME Clear may permit a Transfer pursuant to a Porting Request Notice issued in respect of a Client Account where any condition or requirement specified in such Rules or Procedures is not satisfied (including, for the avoidance of doubt, where the Porting Election Period has expired) where LME Clear considers that it is appropriate, in the interests of (i) the Clients; (ii) the Clearing System; (iii) the stability of the markets in which the Member's or Clients participate; or (iv) the stability of the wider financial system in the United Kingdom, that such Transfer shall take place.

Proviso: Where and to the extent that a Transfer falls within the meaning of, and is subject to, Article 48(5) or (6) of the EMIR Level 1 Regulation, LME Clear shall not permit such Transfer to take effect where any condition or requirement that reflects a condition or requirement to a Transfer under Article 48(5) or (6) of the EMIR Level 1 Regulation is not satisfied, including for the avoidance of doubt, any requirement for the Client(s) and the Member Transferee to have consented to the Transfer.

10.7.10 LME Clear may, pursuant to any Transfer, transfer only the positions (and associated Contracts) allocated to an Account and not the related assets (or Collateral) allocated to that Account where and to the extent that:

- (a) the Member Transferee ensures that the Margin Requirement applicable to its Client Account (taking into account the Positions that will be added by the Transfer) is satisfied by the provision of Collateral provided by such Member Transferee to LME Clear prior to the Transfer Time;

Rule 10

- (b) the Automatic Porting Designation Documents or the Porting Request Notice specifies that any Collateral shall not be subject to the Transfer, in which case the Transfer shall be conditional upon the satisfaction of the requirement specified in Rule 10.7.5(d) above;
- (c) for reasons outside the control of LME Clear it is not operationally practicable for such Collateral to be subject to the Transfer, in which case the Transfer shall be conditional upon the satisfaction of the requirement specified in Rule 10.7.5(d) above;
- (d) the transfer of the Collateral is not permissible under Applicable Law or LME Clear is prevented from effecting such transfer by any court order or legal restriction applying to LME Clear or the Collateral, or by any claim or right of the Member Transferor or any other person which may take precedence during any insolvency procedure affecting the Member Transferor; or
- (e) the Transfer is a Partial Transfer.

10.7.11 Where the Collateral allocated to an Account includes LME Warrant Collateral provided by the Defaulting Member or its Posting Affiliate, such LME Warrant Collateral (but not LME Warrant Collateral posted by a Posting Client) shall cease to constitute Available Non-cash Collateral from the time that the relevant Default Notice is effective until such time as that LME Warrant Collateral is retransferred to the LME Clear Pledged Account by a Member Transferee in accordance with and subject to the provisions of Default Procedure Part D2.12.

10.7.12 LME Clear may, when taking the action under this Rule 10.7, rely (without further investigation) on the information provided by the Defaulting Member or its relevant Clients to LME Clear pursuant to the Rules.

10.7.13 Such a Transfer shall be effected in accordance with the provisions set out in the Default Procedures.

10.7.14 LME Clear shall incur no liability to the Defaulting Member, any Client or other person for any action taken or omitted to be taken under this Rule 10.7, except in the case of its own wilful default.

10.7.15 LME Clear has published a disclosure document summarising the legal implications of its powers to effect Transfers. This document explains the implications of Transfers made in accordance with LME Clear's obligations under Articles 48(5) and 48(6) of the EMIR Level 1 Regulation, together with the implications of the exercise by LME Clear of its discretion pursuant to Rule 10.7.9 to permit a Transfer notwithstanding that any condition in the Rules or Procedures may not have been satisfied. The exercise of such a waiver may result in Transfers in circumstances where it is not necessary for the purposes of complying with the minimum requirements of Articles 48(5) and 48(6) of the EMIR Level 1 Regulation. 10.8 FINAL NET SETTLEMENT OF UNPORTED CLIENT ACCOUNTS

10.8.1 For the purpose of discharging the Defaulting Member's rights and liabilities under or in respect of all Contracts to which it is party and which are recorded on a Client Account (which has not been ported under Rule 10.7), LME Clear shall:

Rule 10

- (a) bring into account:
 - (i) all sums payable by or to the Defaulting Member in respect of such Contracts recorded on such Client Account;
 - (ii) (to the extent permitted by the Default Requirements) all other sums payable by or to the Defaulting Member under the Rules on such Client Account; and
 - (iii) LME Clear's costs in hedging and liquidating any Positions allocated to a Client Account that have not been transferred pursuant to the Porting Process, such costs being for the account of the Defaulting Member;
- (b) the sums so payable shall be aggregated or set off so as to produce a net sum; and
- (c) if payable by the Defaulting Member to LME Clear:
 - (i) such net sum shall in each case be set off against:
 - (1) any sum due by LME Clear to the Defaulting Member and/or any Collateral (following enforcement and liquidation if necessary pursuant to the terms of the relevant Security Document) provided by or on behalf of the Defaulting Member in each case in respect of the relevant Client Account; and
 - (2) such amount (if any) of the outstanding Default Fund Contribution of the Defaulting Member as LME Clear may determine under Rule 10.5.1(e) (after the application of such Default Fund Contribution for any other purpose permitted under the Rules),

(or, in either case, the proceeds of realisation of such amounts) so as to produce a further net sum, or shall be aggregated with any debit balance on such Client Account; and
 - (ii) such net sum may be further set off against any positive net balance on a House Account of the Defaulting Member that LME Clear elects to allocate to meet any deficiency on the Client Account pursuant to Rule 10.5.1(d) so as to produce a further net sum; and
 - (iii) such net sum shall be reduced by the extent that LME Clear makes a claim and recovers the value of that claim directly against any Posting Client that has provided LME Warrant Collateral in respect of such Client Account under the undertaking in Rule 8.10.1 including by enforcing and liquidating any such LME Warrant Collateral pursuant to the terms of the relevant Posting Client Security Document; or
- (d) if payable by LME Clear to the Defaulting Member, the net sum on such Client Account shall be aggregated with the amounts referred to in paragraph (c)(i) and (ii) (or the proceeds of realisation of such amounts).

10.8.2 The process in this Rule 10.8 shall be applied separately in respect of each Service, such that a separate net sum shall be calculated for each Client Account in respect of each Service.

Rule 10

10.9 CERTIFICATION, DELEGATION, CO-OPERATION, REPORTING

- 10.9.1** On completion of the process set out in Rule 10.6 or 10.8 (whichever is applicable), LME Clear shall promptly certify each sum finally payable by the Defaulting Member to LME Clear (or vice versa) on the relevant Account or, as the case may be, the fact that no sum is payable. The certificate of LME Clear under this Rule 10.9 shall be conclusive as to the discharge of the Defaulting Member's rights and liabilities in respect of the Contracts to which it relates and the net sum finally payable in respect of them (or the fact that no sum is payable). LME Clear shall incur no liability whatsoever for any act or omission in determining any sum payable under this Rule 10 except to the extent arising from LME Clear's wilful default.
- 10.9.2** LME Clear shall, as soon as practicable after issuing a Default Notice in respect of a Member, appoint a day on which any net sums certified under this Rule 10 will become due to the Defaulting Member and will be paid by LME Clear. The day so appointed shall not fall on a day before completion of the process specified in this Rule 10.9.
- 10.9.3** LME Clear shall make such report to the Regulator of its proceedings under this Rule, and shall supply copies and make available such report, in the manner required by section 162 of the Companies Act 1989.
- 10.9.4** The provisions of this Rule 10 are without prejudice to the right of LME Clear to prove in the insolvency of the Defaulting Member both in respect of any net sum or sums payable by the Defaulting Member pursuant to Rule 10.5 and 10.8 and in respect of any other obligations of the Defaulting Member to the extent they are not brought into account in the net settlement procedure set out in the Rules 10.5 and 10.8, including any other expenses incurred by LME Clear in consequence or in respect of the event or circumstance which entitled LME Clear to act under Rule 10.1.2 or the steps which are taken under this Rule 10, and of any other losses, costs or expenses incurred or suffered by LME Clear and for which the Defaulting Member is liable under the Rules and/or to exercise any other rights and remedies which it may have against the Defaulting Member.
- 10.9.5** LME Clear may appoint any person to take or assist it in taking any step under the Rules or to complete or assist it in completing the process set out in Rule 10.4 to 10.9. Any costs incurred by LME Clear, acting reasonably, to any such person shall be for the account of the Defaulting Member.
- 10.9.6** LME Clear may at any time co-operate, by the sharing of information and otherwise, with the Regulator or any other regulator, any Approved Transaction Platform, or any relevant Office-Holder acting in relation to the Defaulting Member, its Posting Affiliate or either of their estates and any other authority or body having responsibility for any Defaulting Member or Posting Affiliate, or having an interest in any matter arising out of or connected with the circumstances mentioned in Rule 10.1.
- 10.9.7** In addition to any report supplied under section 162(3) of the Companies Act 1989, LME Clear shall report to the Defaulting Member, on the steps taken by LME Clear in relation to the Defaulting Member under Rule 10.4.
- 10.9.8** LME Clear may, by notice in writing to a non-defaulting Member, require such non-defaulting Member to provide reasonable assistance to LME Clear (including market execution services and information) in connection with the close out of a Defaulting Member's open contracts. Such assistance may include, but shall not be limited to, the

Rule 10

participation by such non-defaulting Member in auctions of a Defaulting Member's positions under any open contracts.

- 10.9.9** LME Clear may, if required pursuant to any law or regulation binding on LME Clear or at the direction of any Regulator that has the power to give directions to LME Clear, disclose to the public any breach by a Member of the Membership Criteria. Any such disclosure shall not constitute a breach by LME Clear of its obligations under Rule 2.6.1 (*Confidentiality*).
- 10.9.10** LME Clear may retain so much of the net sum referred to in Rule 10.9.2 as it considers necessary to cover any further costs (including expenses, staff costs and legal fees incurred by LME Clear in managing the default of the Defaulting Member) recoverable by LME Clear from the Defaulting Member under the Rules. LME Clear shall, upon the settlement of such further costs, pay any remaining amount of the net sum to the Defaulting Member or, where Rule 10.5.1(c) applies, to the relevant Client(s).
- 10.9.11** LME Clear shall not be liable to any Member, Client or any other person for any statement made by an Approved Transaction Platform or any other person regarding the amount of profit or loss that may be due to such Member, Client or other person in the event of any Default Event or any similar circumstances arising in relation to any Member.

10.10 DEFAULT WATERFALL AND ALLOCATION OF ANY EXCESS LOSS

Separate Default Waterfalls for Separate Services

- 10.10.0** This Rule 10.10 shall be applied separately in respect of each Service, and references specific terms (including references to the Default Loss, Excess Loss, Default Period, Default Fund Contributions and Dedicated Own Resources and Termination Dates) shall be construed to refer to such terms as they apply solely in the context of the specific Service and the relevant Default Fund, ***provided that*** where a Member has a positive balance on its House Account in respect of any Service, such positive balance may be set off against any Account on which there is a Default Loss in respect of any Service, so as to reduce the Default Loss to which the provisions of Rule 10.10 are to be applied. For the avoidance of doubt, and subject to the foregoing proviso, where a Defaulting Member participates in more than one Service:
- (a) the Default Loss and/or Excess Loss in respect of one Service shall be calculated separately from the Default Loss and/or Excess Loss in respect of any other Service;
 - (b) any Default-Specific Replenishment Notice, Default-Specific Cap, Stabilisation Replenishment Notice and Per Default Stabilisation Cap shall be calculated separately in respect of the relevant Default Fund applicable to each Service, and the provisions applying to such terms shall be applied separately in respect of each such Service;
 - (c) where this Rule 10 is applied in respect of any Service, only Members participating in that Service shall be liable to make contributions pursuant to a Default Specific Replenishment Notice or a Stabilisation Replenishment Notice in respect of the relevant Default Fund applicable to that Service;

Rule 10

- (d) LME Clear shall maintain separate Dedicated Own Resources in respect of each Service, and accordingly, references to such Dedicated Own Resources shall be construed on a service-specific basis;
- (e) separate Default Periods may apply in respect of each Service, subject that all such Default Periods shall commence at the time of the issue of the Default Notice, and each such Default Period shall end at the relevant time determined in accordance with Rule 10.10.6.

Indemnity Basis of Obligations

10.10.0A Where under this Rule 10.10 a non-defaulting Member is required to make a payment, contribution or replenishment, including out of its Default Fund Contributions, in relation to a Defaulting Member's Excess Loss, such payment, contribution or replenishment shall be made pursuant to an indemnity which is hereby given irrevocably by such non-defaulting Member to LME Clear.

During the Default Period

10.10.1 A Default Loss shall be satisfied in the following order of priority:

- (a) first, LME Clear will apply all Collateral provided by the Defaulting Member, its Posting Affiliate or a Posting Client in respect of each relevant Account on which a Default Loss has arisen, in accordance with Rule 10.5 and 10.6 or 10.8 (as applicable) in or towards the discharge of the Default Loss in accordance with the Rules;
- (b) second, if the Collateral provided by the Defaulting Member, its Posting Affiliate or a Posting Client is applied by LME Clear towards the Default Loss and is not sufficient to discharge the balance of the Default Loss, LME Clear will apply the Default Fund Contribution of the Defaulting Member in or towards the discharge of the outstanding balance of the Default Loss;
- (c) third, if the Default Fund Contribution of the Defaulting Member is applied by LME Clear towards the Default Loss and is not sufficient to discharge the balance of the Default Loss, LME Clear will apply its Dedicated Own Resources in or towards the discharge of the outstanding balance of the Default Loss;
- (d) fourth, if the Dedicated Own Resources of LME Clear have been applied by LME Clear towards the Default Loss and are not sufficient to discharge the balance of the Default Loss, LME Clear will apply the Default Fund Contributions of non-defaulting Members on the basis set out in Default Procedure Part C6.6 and, if applicable, Default Procedure Part C6.8, in or towards the discharge of the remaining balance of the Default Loss (the "**Excess Loss**"); and
- (e) fifth, if all the above resources have been applied by LME Clear towards the Default Loss and are not sufficient to discharge the balance of the Default Loss, or where permitted under Rule 10.10.4 below, then LME Clear may issue one or more Notices to the non-defaulting Members requiring such Members to contribute additional resources towards the discharge of the remaining balance of the Default Loss in the form of Default Fund Contributions (a "**Default-Specific Replenishment Notice**"). Upon the publication of a Default-Specific Replenishment Notice:

Rule 10

- (i) each non-defaulting Member will immediately pay to LME Clear with the amount of Default Fund Contribution specified in the Default-Specific Replenishment Notice, subject to and up to the limits specified in Rule 10.10.4 below; and
- (ii) LME Clear will immediately replenish such an amount of its Dedicated Own Resources that is in the same proportion as the total amounts payable under (i) bear to the aggregate sum of the Default-Specific Replenishment Caps applicable to all non-defaulting Members, subject that LME Clear shall not be required to replenish an amount that would result in the level of Dedicated Own Resources being in excess of the level immediately prior to the commencement of the Default Period.

All amounts so replenished by non-defaulting Members and LME Clear will be applied on a pro-rata basis in or towards the discharge of the outstanding balance of the Default Loss.

For the purposes of Rule 10.10.1(e), the expression "*pro rata*" means in the proportion which:

- (1) (in the case of the non-defaulting Member's replenishment) the amount of the Default Fund Contributions provided to LME Clear by each individual non-defaulting Member to the aggregate amount of the Default Fund Contributions provided by all non-defaulting Members and the amount of the Dedicated Own Resources provided by LME Clear (taken as a whole), immediately following the replenishment; or
- (2) (in the case of LME Clear's replenishment) the amount of the Dedicated Own Resources provided by LME Clear bears to the aggregate amount of the Default Fund Contributions provided by all non-defaulting Members and the amount of the Dedicated Own Resources provided by LME Clear (taken as a whole), immediately following the replenishment.

This provision is subject to Rule 10.10.9(d).

When determining the amount of any Excess Loss, LME Clear may include within the amount of such Excess Loss a provision for the reasonable costs that LME Clear, acting reasonably, estimates will be incurred by LME Clear in implementing its powers pursuant to this Rule 10 in relation to any Account(s) of the Defaulting Member (including any expenses, staff costs and legal fees).

10.10.2 If the amounts replenished and applied in accordance with Rule 10.10.1(e) are not sufficient to discharge the Excess Loss, LME Clear may notify the non-defaulting Members, by Notice, that they shall be required to contribute towards the discharge of the Excess Loss on the following basis:

- (a) LME Clear shall determine:
 - (i) the total amounts of payments due to Members on the next following Business Day pursuant to the calculation of Members' Variation Margin Requirements ("**Total Member VM Profit Payments**"); and
 - (ii) the total value of contingent credits due to Members in respect of DCVM and CCVM calculations, for value on the next following Business Day

Rule 10

pursuant to the calculation of the Member's Variation Margin Requirements ("**Total Member VM Credits**"),

the sum value of the Total Member VM Profit Payments and Total Member VM Credits being the "**Total Member VM Profits**";

- (b) LME Clear shall apportion the Excess Loss against each Account of each Member that has, in respect of such Account, an entitlement to receive payment balances pursuant to the calculation of that Member's Variation Margin Requirement (each Member's entitlement in respect of each such Account being its "**Per Account Member VM Profit**"), on the basis that:
- (i) if the amount of remaining Excess Loss is less than the Total Member VM Profits, the non-defaulting Members that have Per Account Member VM Profits shall have their Per Account Member VM Profits applied towards the discharge of the Excess Loss on a pro-rata basis (where the expression "*pro rata*" means in the proportion which the amount of the Per Account Member VM Profit of each individual non-defaulting Member bears to the Total Member VM Profits of all Accounts of all non-defaulting Members); and
 - (ii) if the amount of remaining Excess Loss is equal to or greater than the Total Member VM Profits, each non-defaulting Member's Per Account Member VM Profit shall be applied in full towards the discharge of the Excess Loss,

and where LME Clear has applied all or any part of a non-defaulting Member's Per Account Member VM Profit towards the discharge of the remaining Excess Loss, LME Clear's Payment Obligations to such Member for that Business Day and any contingent credits shall be reduced accordingly (the process set out in this paragraph (b) being a "**VM Haircut**"). Where LME Clear applies part of the non-defaulting Members' Per Account Member VM Profit towards the discharge of the Excess Loss and such Per Account Member VM Profit comprises both payments and contingent credits due to the Member, LME Clear shall, in its discretion, determine how to apportion such payments and contingent credits to the amounts to be applied;

- (c) in the event that, following the application of the VM Haircut, there remains an Excess Loss, LME Clear may repeat the VM Haircut process on each of the next following Business Days until the earlier of:
- (i) the Excess Loss has been fully discharged; or
 - (ii) the Board determines, following consultation with the Board Risk Committee, that the application of further VM Haircuts would be inappropriate or ineffective in discharging the Excess Loss and that cash settlement in accordance with paragraph (d) below should be applied; and
- (d) in the event that LME Clear makes a determination in accordance with paragraph (c)(ii) above, then on the day on which the final VM Haircut is calculated (the "**Final Day**"), LME Clear may effect a cash settlement of certain Open Contracts between LME Clear and the non-defaulting Members, together with a write-down of LME Clear's cash settlement obligations to such non-defaulting Members on the following basis:

Rule 10

- (i) LME Clear shall determine which Open Contracts of the Defaulting Member have not yet been closed out;
- (ii) LME Clear shall identify the metal or metals comprising the Underlying Assets for such Open Contracts (such metals being the "**Unclosed Metals**");
- (iii) LME Clear shall effect a cash settlement of every Open Contract between LME Clear and any non-defaulting Member for which an Unclosed Metal comprises the Underlying Asset, and the price for such cash settlement shall be determined at the Closing Price for such Open Contracts as applies on the Final Day or, if such Closing Price is not available, the price shall be such price as the Board determines is reasonably appropriate in the circumstances in consultation with the Board Risk Committee (on the basis that, where possible, such price shall be the same as that applied in respect of the variation margin calculation applied in respect of each such Open Contract on the Final Day); and
- (iv) any amount payable by LME Clear to each non-defaulting Member as a consequence of the cash settlements applicable to each Account of such Member shall be set off against any amounts payable to, or otherwise due as credits to, LME Clear by such Member pursuant to the calculation of the Variation Margin Requirement applicable to such Account as determined following Close of Business on that Final Day, and the settlement of such payments and set-off amounts shall be made on the next Business Day following the Final Day in accordance with the Cover Distribution Process.

10.10.3 The amount of the Default Fund will not be recalculated and reset during the Default Period. Each Member shall be required to provide additional Default Fund Contributions during the Default Period:

- (a) pursuant to a Default-Specific Replenishment Notice (in accordance with Rule 10.10.1(e)(i) and subject to and in accordance with Rule 10.10.4 below); and/or
- (b) pursuant to a Stabilisation Replenishment Notice (in accordance with and subject to Rule 10.10.5 below).

10.10.4 LME Clear may issue one or more Default-Specific Replenishment Notices to each non-defaulting Member during the Default Period, in accordance with Rule 10.10.1(e) and in accordance with and subject to the following provisions:

- (a) the total amount payable by a non-defaulting Member pursuant to one or more Default-Specific Replenishment Notices issued in respect of a single Member Default shall not exceed the level of Default Fund Contributions of that non-defaulting Member immediately prior to the Default Period (the "**Default-Specific Cap**");
- (b) in respect of each Member Default, LME Clear may issue one or more Default-Specific Replenishment Notices to each non-defaulting Member for such amounts and at such times as LME Clear determines is appropriate, subject to the application of the Default-Specific Cap;
- (c) LME Clear may issue a Default-Specific Replenishment Notice pursuant to Rule 10.10.1(e) notwithstanding that:

Rule 10

- (i) the Default Fund Contributions of non-defaulting Members may not have been exhausted pursuant to Rule 10.10.1(d); and
 - (ii) the effect of such Default-Specific Replenishment Notice, taken together with any other replenishments and the existing balance of the Default Fund, would result in each non-defaulting Member's total Default Fund Contributions being in excess of the level applicable immediately prior to the commencement of the Default Period; and
- (d) in the event that there is more than one Member Default during a Default Period:
- (i) a separate Default-Specific Cap shall be applied in respect of each Member Default;
 - (ii) each Default-Specific Replenishment Notice must specify to which Member Default it relates; and
 - (iii) any amounts contributed by a non-defaulting Member pursuant to a Default-Specific Replenishment Notice may be applied by LME Clear only in respect of the Member Default to which it relates.

10.10.4A In any six (6) month period (commencing on the date of delivery of the first Default-Specific Replenishment Notice in connection with the first Default), the maximum amount that LME Clear may require any Member to contribute pursuant to Default-Specific Replenishment Notices shall be limited to the amount that would be recoverable under three (3) Default-Specific Replenishment Notices that were each issued for the amount of the Default-Specific Cap applicable to each such Default-Specific Replenishment Notice.

10.10.5 Each Member shall be required to provide additional Default Fund Contributions during the Default Period immediately upon receipt of Notice from LME Clear requiring it to replenish its Default Fund Contribution, where LME Clear requires such replenishment in order to ensure that the Default Fund does not fall below the Relevant DF Minimum Threshold (a "**Stabilisation Replenishment Notice**"). The amounts payable by a non-defaulting Member pursuant to one or more Stabilisation Replenishment Notices shall be as determined by LME Clear, subject that:

- (a) the total amount payable by a non-defaulting Member pursuant to one or more Stabilisation Replenishment Notices issued in respect of a single Member Default shall be limited to an amount equal to the total value of the Default Fund Contribution of that non-defaulting Member immediately prior to the Default Period (the "**Per Default Stabilisation Replenishment Cap**") and, accordingly, in the event that there is more than one Member Default during a Default Period:
 - (i) a separate Per Default Stabilisation Replenishment Cap shall be applied in respect of each Member Default; and
 - (ii) each Stabilisation Replenishment Notice must specify to which Member Default it relates; and
- (b) LME Clear may not apply any amounts contributed by a non-defaulting Member pursuant to a Stabilisation Replenishment Notice towards any Default Losses that relate to the Member Default pursuant to which the Stabilisation Replenishment Notice was issued; such amounts may only be applied by LME Clear, in accordance with Rule 10.10.1(d) or (e), towards the discharge of Default Losses

Rule 10

that arise in respect of other Member Defaults that may arise during or after the Default Period.

10.10.5A In any six (6) month period (commencing on the date of delivery of the first Stabilisation Replenishment Notice in connection with the first Default), the maximum amount that LME Clear may require any Member to contribute pursuant to Stabilisation Replenishment Notices shall be limited to the amount that would be recoverable under three (3) Stabilisation Replenishment Notices that were each issued for the amount of the Per Default Stabilisation Replenishment Cap applicable to each such Stabilisation Replenishment Notice.

Duration of Default Period

10.10.6 For the purpose of this Rule 10.10, the expression "**Default Period**" means:

- (a) the period commencing on the issue of a Default Notice in respect of a Defaulting Member and ending on:
 - (i) the date on which LME Clear issues a Circular to notify Members that the default management process in respect of that Defaulting Member has been substantially carried out; or
 - (ii) if a Default Notice is issued by LME Clear in respect of one or more other Members before such process has been substantially carried out in respect of the first Defaulting Member, the final date on which the default management process for all such Defaulting Members has been substantially carried out,

and LME Clear will not be obliged to give such notification until satisfied that all risk to LME Clear arising from such Defaulting Member's membership of the Clearing System has ceased to exist; or

- (b) where the Defaulting Member participates in more than one Service, separate Default Periods shall come into effect in relation to each such Service, in each case commencing on the issue of the Default Notice and each ending on:
 - (i) the date on which LME Clear issues a Circular to notify Members that the default management process in respect of the Defaulting Member's participation in the specific Service has been substantially carried out; or
 - (ii) if a Default Notice is issued by LME Clear in respect of one or more other Members before such process has been substantially carried out in respect of the first Defaulting Member, the final date on which the default management process for all such Defaulting Members has been substantially carried out,

LME Clear shall not be obliged to give such notification until satisfied that all risk to LME Clear arising from such Defaulting Member's participation in the Service has ceased to exist.

After the Default Period

10.10.7 If, after the end of any Default Period, the amount of LME Clear's Dedicated Own Resources falls short of the amount required pursuant to Article 16 of the EMIR Level 1 Regulation, LME Clear will notify the Clearing House Regulator of that fact and shall:

Rule 10

- (a) make good the shortfall within 30 days of the date on which it arose; or
- (b) in the event that the Excess Loss was finally satisfied pursuant to Rule 10.10.2, LME Clear shall carry out an urgent business viability review (having regard to the principles set out in the Default Procedure C8) to determine whether to continue to operate the Clearing System as a central counterparty or to discontinue operation and will publish its decision by Circular, together with a Notice issued directly to each Member. LME Clear may make any such determination in respect of the Clearing System as a whole or in respect of any specific Service.

10.10.8 Upon receipt of Notice from LME Clear that a Default Period has ended, each Member shall immediately replenish in full its Default Fund Contribution applicable to the Service(s) to which the Default Period related, in order to restore it to the level applicable immediately prior to the commencement of the Default Period.

10.10.9 After the end of a Default Period:

- (a) LME Clear shall, between the second (2nd) and sixth (6th) Business Day following the end of the Default Period, recalculate the size of the relevant Default Fund and notify each Member to inform them of their revised Default Fund Contribution (the time of provision of such notice being the "**Cut Off Time**");
- (b) each Member may choose either:
 - (i) to continue its Membership;
 - (ii) terminate its Membership by lodging a Resignation Notice with LME Clear in accordance with Rule 3.5 and 3.6; or
 - (iii) terminate its participation in any specific Service by lodging a Service Termination Notice with LME Clear in accordance with Rule 3.7,

but shall be deemed to continue its Membership and participation in any Service unless it lodges a Resignation Notice or Service Termination Notice (as applicable) with LME Clear in accordance with the Rules prior to the Cut Off Time;

- (c) a Member that does not lodge a Resignation Notice or Service Termination Notice with LME Clear under Rule 10.10.9(b) before the Cut Off Time shall, if the level of required Default Fund Contribution determined by LME Clear on the basis of its latest Default Fund calculation is higher than the level of Default Fund Contribution currently maintained by the Member with LME Clear, immediately pay to LME Clear such additional amount as is sufficient to meet its recalculated level of required Default Fund Contribution (and this provision shall be applied separately in respect of each Service to which the Member contributes a separate Default Fund Contribution); and
- (d) each Member that lodges a Resignation Notice or Service Termination Notice with LME Clear under Rule 10.10.9(b) before the Cut Off Time shall immediately pay to LME Clear such amount of Collateral as LME Clear may require by way of additional margin on each Account of such Member in an amount equal to the difference between the then current Margin Requirement for such Account and the amount calculated by LME Clear to represent the worst case loss capable of being incurred on such Account by such Member as a result of it continuing to

Rule 10

use the Clearing System during the period until the Termination Date or Service Termination Date (as applicable), and will maintain such additional margin during such resignation period.

Retiring Members

10.10.10 If a Member lodges a Resignation Notice or Service Termination Notice with LME Clear before the Cut Off Time, Rule 3.8 (Exposure Limiting Resignation) shall apply.

Closure of Clearing System

10.10.11 If LME Clear elects under Rule 10.10.7(b) to discontinue the operation of the Clearing System, then

- (a) LME Clear will:
- (i) permit Open Contracts with LME Clear to be withdrawn for bilateral settlement between two Members;
 - (ii) run a final settlement cycle at a time chosen by it;
 - (iii) terminate all Open Contracts on a Settlement Date determined by LME Clear (using the methodology set out in the Default Procedures) and the price for the cash settlement of such Open Contracts shall be determined at the latest Closing Price for the Underlying Assets for such Open Contracts or, if such Closing Price is not available, the price shall be such price as the Board determines is reasonably appropriate in the circumstances in consultation with the Board Risk Committee; and
 - (iv) notify each non-defaulting Member of any amounts payable as determined by the final settlement cycle (which will be immediately paid by each such Member to LME Clear in accordance with Rule 8 (*Margin Requirement and Collateral*)),

in each case on such terms and conditions as LME Clear may determine as appropriate in the circumstances then prevailing;

- (b) manage the discontinuance of the operation of the Clearing System, and the withdrawal of its authorisation as an authorised central counterparty under EMIR, in accordance with the wind-down plan that it is required to maintain under EMIR, and in consultation with the Clearing House Regulator(s); and
- (c) where LME Clear elects to discontinue operation of the Clearing System in respect only of a specific Service, but not in respect of any other Service, this Rule shall be applied only in respect of the Open Contracts relating to the discontinued Service and associated payments.

Each Member acknowledges and agrees that LME Clear may be required by a Clearing House Regulator to take, or refrain from taking action(s) in connection with the operation of the Clearing System during the period in which LME Clear is implementing its wind-down plan and that LME Clear shall not be liable to any Member or any other person for any act taken or omitted to be taken by LME Clear on the instructions of a Clearing House Regulator.

Rule 10

- 10.10.12** Any steps taken by LME Clear pursuant to Rule 10.10.11 (a) above shall be without prejudice to the application of Rule 10.13 (*LME Clear Default*) in respect of any Member (and its Contracts) that has exercised its rights thereunder prior to LME Clear making an election under Rule 10.10.7(b).

Failure to Co-operate with LME Clear

- 10.10.13** If a Member shall fail to perform its obligations under this Rule 10.10 or (where applicable) under Rule 3.8 (*Exposure Limiting Resignation*), then without prejudice to LME Clear's rights to declare a Default Event in respect of that Member, LME Clear may take disciplinary action against the Member pursuant to Rule 3.11 (*Membership*) and Membership Procedure D. Any disciplinary action which LME Clear takes pursuant to Rule 3.11 and/or Membership Procedure D, or the voluntary or involuntary cessation of participation by Member, shall not affect the obligations of the Member to LME Clear or any remedy to which LME Clear may be entitled under the Rules and Applicable Law.

10.11 REFUNDS

- 10.11.1** If the amount of an Excess Loss indemnified by non-defaulting Members under Rule 10.10.1(e) or 10.10.2 is subsequently recovered by LME Clear in whole or in part, LME Clear shall notify such non-defaulting Members that contributed towards the discharge of such Excess Loss (at their last known address, if they have since ceased to be Members) of the amount of the recovery and the amount refundable to them (a "**Refund**") out of the amount so recovered (which shall be shared between them in the same proportions in which the Excess Loss was borne by them), provided that no Member shall be entitled to recover a greater amount than that Member contributed towards the discharge of the Excess Loss. LME Clear shall be entitled to retain any surplus amount recovered, following the reimbursement of Members.
- 10.11.2** Any unclaimed Refund may be invested or otherwise used by LME Clear until claimed. No Refund shall bear interest as against LME Clear.
- 10.11.3** Any Refund which has remained unclaimed for a period of 12 months from the date of notification under Rule 10.10.1 shall, if LME Clear so determines, be applied:
- (a) first, in making a further Refund under Rule 10.10.1 to those non-defaulting Members which have claimed their Refunds until they have received the full amount indemnified by them in respect of the Default Loss to which the Refund relates; and
 - (b) secondly, the balance shall cease to be refundable by LME Clear and shall thereafter belong to LME Clear absolutely and be available for use by LME Clear in its operation of the Clearing System.

10.12 INDIRECT CLIENT PORTING

Definitions

- 10.12.1** In this Rule 10.12:

- (i) **"Replacement Indirect Client Account"** means an Indirect Individual Segregated Client Account or Indirect Gross Omnibus Segregated Client Account (as applicable) established by a Member in respect of a Replacement Clearing Client in order to record the assets and positions relating to Transferring Indirect Clients; and
- (j) **"Transferring Indirect Clients"** means the Indirect Clients that are the subject of a Client Porting Request.

Client Termination Events and Client Porting Requests

10.12.2 In the event that:

- (a) a Member has established an Indirect Individual Segregated Client Account or an Indirect Gross Omnibus Segregated Client Account for a Clearing Client in respect of one or more Indirect Clients;
- (b) any event occurs in relation to the Clearing Client that gives rise to a right for the Member or the Clearing Client to terminate, or results in the automatic termination, all of the Underlying Client Trades between the Member and the Clearing Client (including, for the avoidance of doubt, where the Clearing Client becomes insolvent or any Office-Holder is appointed in respect of the Clearing Client) and such Underlying Client Trades are, accordingly, terminated or either party provides notice to the other to terminate such Underlying Client Trades (the

Rule 10

circumstances described in this paragraph (b) being a "**Client Termination Event**"; and

- (c) such Underlying Client Trades correspond to Contracts allocated to the Indirect Individual Segregated Client Account or Indirect Omnibus Segregated Client Account (as applicable) maintained by the Member in respect of such Clearing Client, such that there are Open Contracts between LME Clear and the Member allocated to such Account,

then the Member may issue a Client Porting Request to LME Clear.

10.12.3 The Member shall specify in the Client Porting Request:

- (a) whether the transfer of the Transferring Indirect Clients shall be to:
 - (i) a Replacement Indirect Client Account; or
 - (ii) a Replacement Direct Client Account; and
- (b) whether the Collateral allocated to the relevant Original Indirect Client Account shall be transferred to the Replacement Indirect Client Account or the Replacement Direct Client Account (as applicable).

10.12.4 Within twelve (12) Business Hours of receipt of a Client Porting Request, LME Clear shall determine whether a Replacement Clearing Client Transfer or a Direct Client Transfer (as applicable) is possible and shall notify the Member:

- (a) whether such a transfer may be made; and
- (b) of any conditions that LME Clear considers, acting reasonably, must be satisfied in order to enable LME Clear to effect such transfer; and
- (c) the time period within which all such conditions must be satisfied.

LME Clear may not refuse a transfer pursuant to a Client Porting Request where the conditions in Rule 10.12.5 or 10.12.7 (as applicable) and Rule 10.12.9 are satisfied.

Transfer to Replacement Clearing Client

10.12.5 In the event that the Member notifies LME Clear that all the Indirect Clients are to be transferred to a single Replacement Clearing Client then, subject to Rule 10.12.4, LME Clear will transfer to the Replacement Indirect Client Account all Open Contracts and the associated Positions and, where applicable, Collateral recorded to the Original Indirect Client Account, provided that:

- (a) the Replacement Clearing Client is a Client of the Member;
- (b) the Member has, in respect of such Replacement Clearing Client established Replacement Indirect Client Account that is of an equivalent type to the Original Indirect Client Account;
- (c) the Member has satisfied all requirements applying to the establishment of such Replacement Indirect Client Account as a Client Account under these Rules;
- (d) LME Clear receives written notification from the Replacement Clearing Client, in such form as LME Clear determines acceptable and within such period as LME

Rule 10

Clear specifies following its receipt of the Client Porting Request, that it agrees to act as the Replacement Clearing Client in respect of all the Indirect Clients allocated to the Original Indirect Client Account; and

- (e) the general conditions in Rule 10.12.9 are satisfied.

10.12.6 In the event that LME Clear determines, for whatever reason, that it is not possible to effect a Replacement Clearing Client Transfer pursuant to Rule 10.12.5, LME Clear may decline to act on the Client Porting Request.

Transfer to Direct Clearing Arrangement

10.12.7 In the event that the Member notifies LME Clear that it wishes to establish a Replacement Direct Client Account in respect of the Transferring Indirect Clients then, subject to Rule 10.12.4, LME Clear will transfer to the Replacement Direct Client Account all Open Contracts and the associated Positions and, where applicable, Collateral recorded to the Original Indirect Client Account (provided that the general conditions in Rule 10.12.9 are satisfied). LME Clear will permit such transfers only to a type of Replacement Direct Client Account that provides an equivalent level of segregation for the Transferring Indirect Client(s) as was provided under the Original Indirect Client Account.

Responsibilities of Member

10.12.8 LME Clear shall be entitled to treat any Client Porting Request as having been made by the Member with the full consent of all the Indirect Clients allocated to the relevant Account and shall not be under any obligation to the Member, any Client, any Indirect Client or any other person to make further enquiries regarding the wishes of the Indirect Clients. Accordingly, it shall be the responsibility of the Member to ensure that:

- (a) the Transferring Indirect Clients allocated to the Account that is the subject of the Client Porting Request:
 - (i) are notified of:
 - (1) the fact that the Client Porting Request has been made by the Member in respect of the Account(s) allocated to the Clearing Client;
 - (2) the nature of the transfer requested by the Member;
 - (3) the conditions LME Clear requires to be satisfied in order to enable LME Clear to effect such transfer; and
 - (4) the time period within which the conditions to the transfer must be satisfied; and
 - (ii) do not object to the Client Porting Request; and
- (b) the Member has made, prior to LME Clear giving effect to any Client Porting Request, such arrangements with the Transferring Indirect Clients and any Replacement Clearing Client as are necessary and appropriate to enable the Member and any Replacement Clearing Client to facilitate:
 - (i) the clearing of Transactions in respect of such Indirect Clients (including the transferring Underlying Client Trades) via the Clearing System; and

Rule 10

- (ii) either:
 - (1) the transfer of Collateral from the relevant Account of the Member allocated to the Defaulting Clearing Client to the Replacement Indirect Client Account or the Replacement Direct Client Account; or
 - (2) the deposit of sufficient Collateral to the Replacement Indirect Client Account or the Replacement Direct Client Account to cover the risks associated with the Transactions to be transferred to such Account.

General Conditions to Transfer

10.12.9 LME Clear shall not be required to effect a Replacement Clearing Client Transfer or a Direct Client Transfer unless:

- (a) the Member has established the appropriate type of Account to receive the assets and positions in respect of the Transferring Indirect Clients;
- (b) the Member provides to LME Clear evidence or written representations, satisfactory to LME Clear (acting reasonably), that a Client Termination Event has occurred in relation to the relevant Underlying Client Trades, pursuant to a Notice which is copied to the Indirect Clients allocated to the Original Indirect Client Account;
- (c) the Member provides to LME Clear a copy of the notice given by the Member to the Clearing Client in accordance with Rule 10.12.8(a), copied to the Indirect Clients allocated to the Original Indirect Client Account, notifying the Clearing Client of its intention to effect a Replacement Clearing Client Transfer or a Direct Client Transfer (as applicable) and specifying that, in the event that such transfer does not occur for any reason, LME Clear may decline to act on the Client Porting Request;
- (d) where requested by LME Clear, the Member provides to LME Clear an indemnity, in such form as LME Clear determines acceptable; and
- (e) any conditions notified by LME Clear pursuant to Rule 10.12.4 above have been satisfied.

General Discretion for LME Clear

10.12.10 LME Clear shall, upon becoming aware of any Client Termination Event, have a general discretion to effect a transfer of the Open Contracts and the associated Positions and Collateral recorded to the Original Indirect Client Account to:

- (a) a Replacement Indirect Client Account, pursuant to a Replacement Clearing Client Transfer; or
- (b) a Replacement Direct Client Account, pursuant to a Direct Client Transfer,

in each case notwithstanding that any requirement or condition specified in this Rule 10.12 may not have been satisfied, **provided that:**

- (i) LME Clear considers, acting reasonably, that such transfer or re-designation is desirable in the interests of (i) protecting the integrity or stability of the Clearing System or any Approved Transaction Platform or (ii)

Rule 10

protecting the interests of the Indirect Clients allocated to the Original Indirect Client Account;

- (ii) the Member consents to such transfer or re-designation; and
- (iii) in the case of a Replacement Clearing Client Transfer, LME Clear has written confirmation from the Member or from the Replacement Clearing Client that the Replacement Clearing Client consents to the transfer.

10.13 LME CLEAR DEFAULT

10.13.1 For the purpose of this Rule 10.13:

- (a) an "**LME Clear Payment Default**" shall arise in the event that LME Clear fails to make a payment or delivery to a Member when it is due and payable or deliverable under the Rules and such failure is not remedied within thirty (30) days of LME Clear's receipt of notice of such failure from the affected Member, but shall not arise where:
 - (i) the Member has, prior to the date on which such payment or delivery became due, become a Defaulting Member;
 - (ii) LME Clear has satisfied or otherwise discharged its obligation to make payment or delivery pursuant to alternative means permitted by the Rules;
 - (iii) LME Clear's obligation to make the payment or delivery is not a payment or delivery obligation of LME Clear to the Member that is governed by the Rules;
 - (iv) LME Clear's failure to make the payment or delivery is the result of a Force Majeure Event;
 - (v) the obligation of LME Clear to make payment or delivery is the subject of action taken by LME Clear under Rule 2.4 (*Force Majeure*) in the event of a Force Majeure Event or circumstances falling within Rule 17 (*Emergencies*) of Part 3 of the LME Rules; or
 - (vi) in the circumstances prevailing, LME Clear is permitted under the Rules to have not made the payment or delivery to the Member, notwithstanding that it may have become due (such as, without limitation, where LME Clear does not deliver an Underlying Asset to a Member as a consequence of the application of the provisions applying to Invoicing Back pursuant to Rule 7.8);
- (b) an "**LME Clear Insolvency Default**" shall arise in the event that LME Clear:
 - (i) makes an application to a court of competent jurisdiction, or an order is made by such court, for the purpose of: (i) declaring LME Clear to be bankrupt or insolvent; (ii) approving or granting a petition for a moratorium, reorganisation, arrangement (including pursuant to a scheme of arrangement), liquidation, dissolution, adjustment or composition of or in respect of LME Clear under any Applicable Law; (iii) appointing an administrator, assignee, custodian, examiner, liquidator, provisional liquidator, receiver, sequestrator, supervisor, nominee or trustee or other similar official in respect of LME Clear or any substantial part of its property,

Rule 10

assets or undertaking; (iv) ordering the winding up, liquidation or bankruptcy of LME Clear; or (v) consenting to the institution by LME Clear or any person of proceedings for it to be adjudicated, bankrupt or insolvent or for it to be wound up or liquidated; provided that this paragraph (b)(i) shall not apply to any winding up petition which LME Clear reasonably considers to be frivolous or vexatious; or

- (ii) LME Clear commences any proceedings, or consents to any application, for, or becomes subject to, the appointment of an administrator, assignee, custodian, examiner, liquidator, provisional liquidator, receiver, sequestrator, supervisor, nominee, trustee or other similar official in respect of the Member or any substantial part of its property, assets or undertaking;

but shall not arise:

- (iii) where and to the extent that such circumstances arise solely as a consequence of any corporate restructuring of LME Clear or its Group (including any merger, consolidation or amalgamation of LME Clear or its business with that of any other party); or
- (iv) where any member of LME Clear's Group, other than LME Clear, is the subject of the circumstances described in (i) or (ii) above,

and an LME Clear Payment Default and an LME Clear Insolvency Default shall, subject to Rule 10.13.2 below, each constitute an "**LME Clear Default**"; and

- (c) "**Resolution Authority**" shall mean the Bank of England, acting in its capacities as the Regulator of LME Clear and as the authority with power to exercise powers with respect to LME Clear pursuant to, and for the purposes of, Part 1 (Special Resolution Regime) of the Banking Act 2009, as modified and supplemented by sections 89B to 89G of that Act.

10.13.2 The exercise of stabilisation powers under the Banking Act 2009 by the Resolution Authority in respect of LME Clear or any entity in the same Group as LME Clear and the occurrence of any event directly linked to the exercise of such powers shall not constitute the basis for an LME Clear Default (whether as an LME Clear Payment Default or an LME Clear Insolvency Default) provided that the substantive obligations of LME Clear under the Rules, including payment and delivery obligations and the provision of collateral, continue to be performed.

10.13.3 In the event that an LME Clear Payment Default occurs and provided that the circumstances giving rise to the LME Clear Payment Default are continuing, the Member to which the relevant payment is due may issue a Close Out Netting Notice to LME Clear.

10.13.4 In the event that an LME Clear Insolvency Default occurs and provided that the circumstances giving rise to the LME Clear Insolvency Default are continuing, any Member other than a Defaulting Member may issue a Close Out Netting Notice to LME Clear.

10.13.5 Any Close Out Netting Notice issued by a Member must be in writing and must specify the date from which all Contracts to which the Member is a party shall be liquidated and terminated (the "**Close Out Date**"). The Close Out Date specified by the Member may

Rule 10

not be later than the fifth (5th) Business Day following the date of receipt by LME Clear of the Close Out Netting Notice.

10.13.6 In the event that a Member issues to LME Clear a valid Close Out Netting Notice in respect of an LME Clear Default, then:

- (a) the Close Out Netting Notice shall be deemed to have been received by LME Clear no earlier than the time determined in accordance with Rule 2.9 (Notices) for the method by which the Notice was sent;
- (b) all Open Contracts between the Member and LME Clear shall automatically terminate on the Close Out Date, such that on and from the Close Out Date neither LME Clear nor the Member shall be obliged to perform any further Payment Obligations or Delivery Obligations in respect of such Open Contracts, save for the settlement of the Close Out Amounts calculated in accordance with this Rule 10.13; and
- (c) the Member shall, on or as soon as reasonably practicable following the Close Out Date (and in any event within five (5) Business Days of the Close Out Date):
 - (i) calculate the respective rights and liabilities of LME Clear and the Member in relation to the Contracts allocated to each Account of the Member that would (save for (b) above) be Open Contracts, in order to determine, in respect of each Account, a net amount due to the Member or LME Clear (the "**Close Out Amount**"); and
 - (ii) notify LME Clear of the Close Out Amounts calculated in respect of each Account, and by which party each Close Out Amount is payable, with a written statement containing a detailed explanation of the calculations applied by the Member to determine the Close Out Amounts.

10.13.7 In order to determine the Close Out Amount for an Account:

- (a) the Member shall calculate, in respect of that Account:
 - (i) the aggregate rights of the Member to receive payments from LME Clear, whether current, contingent or future (an "**Aggregate Member Entitlement**"); and
 - (ii) the aggregate obligations of the Member to make payments to LME Clear, whether current contingent or future (an "**Aggregate Member Obligation**"),

in each case on the basis that:

- (1) all costs necessarily or reasonably incurred by the Member in calculating any amounts payable and all costs necessarily or reasonably incurred by the Member in liquidating and terminating any Open Contract or re-establishing any associated hedge, in accordance with this Rule 10.13 shall be added to the Aggregate Member Entitlement;
- (2) all payments that would be made in settlement or performance of any Contract shall be determined on the basis that such Contracts shall be assumed to have been required to be settled or performed on the Close Out Date in accordance with the Closing Prices for the

Rule 10

Eligible Products under such Contracts published on the Business Day immediately preceding the Close Out Date. In the event that no Closing Prices are available the Member shall use such market prices, or official settlement prices, published by a relevant exchange or clearing house, as may be available on the Business Day immediately preceding the Close Out Date, provided that in selecting any such prices, the Member shall act in good faith and with a view to selecting a price that does not unfairly disadvantage LME Clear;

- (3) the Aggregate Member Entitlements shall be expressed as a single sum in the Base Currency, as a positive figure;
- (4) the Aggregate Member Obligations shall be expressed as a single sum in the Base Currency, as a negative figure; and
- (5) in the event that, in order to make such calculation, the Member needs to convert any amounts denominated in any other currency into the Base Currency in order to calculate the Aggregate Member Entitlements and Aggregate Member Obligations, such conversion shall be effected at such rate prevailing on the date of calculation as the Member may reasonably select, provided that in selecting such rate, the Member shall act in good faith and with a view to selecting a rate that does not unfairly disadvantage LME Clear; and

- (b) the Aggregate Member Obligation on each Account shall be set off against the Aggregate Member Entitlement on that Account in order to produce a single net sum for that Account, such net sum being the Close Out Amount in respect of that Account.

10.13.8 In the event that the Close Out Amount in respect of an Account is:

- (a) a positive amount, LME Clear shall pay such Close Out Amount to the Member;
- (b) a negative amount, the Member shall pay such Close Out Amount to LME Clear,

in each case as soon as reasonably practicable, and in any event no later than five (5) Business Days following the Business Day on which the Member notified LME Clear of such Close Out Amount in accordance with Rule 10.13.6 above. The Close Out Amount shall be paid in the Base Currency.

10.13.9 Any Close Out Amount that is not paid when due in accordance with Rule 10.13.8 above shall accrue interest, at the Relevant Rate for each day that such Close Out Amount remains unpaid.

10.13.10 For the avoidance of doubt, the Member's rights under this Rule 10.13 are additional to, and shall not be construed to limit or exclude any other rights that the Member may have under these Rules or Applicable Law.

10.14 ALLOCATION OF NON-DEFAULT LOSSES

10.14.1 In this Rule 10.14:

- (a) "**Maximum Potential Non-Default Losses**" means, at any time, the total exposure of LME Clear to Non-Default Losses being the value at that time of LME

Rule 10

Clear's investment portfolio (being all investments excluding Securities Collateral provided by Members) and all credit balances of cash accounts held by LME Clear;

- (b) **"NDL Payment"** means, in relation to a Non-Default Loss, a payment made or (as the case may be) to be made by a Member to LME Clear equal to:

 - (ii) multiplied by the Member's NDL Percentage;
- (c) **"NDL Payment Period"** means, in relation to a demand by LME Clear for NDL Payments from the Members, the period of thirty (30) days ending on the third (3rd) day before the date of the demand;
- (d) **"NDL Percentage"** means, in relation to a Member, the proportion (expressed as a percentage) that (1) the daily average of the Member's Initial Margin Requirement over the NDL Payment Period bears to (2) the daily average of all Members' Initial Margin Requirement over the NDL Payment Period;
- (e) **"Net Recoveries"** means, in relation to a Non-Default Loss, any recovery or receipt of any kind (including by way of set-off) made by LME Clear relating to or arising from the circumstances giving rise to the Non-Default Loss;
- (f) **"Non-Default Loss"** means a Loss incurred by LME Clear, including any loss of any asset or cash, pursuant to a default by any Treasury Counterparty;
- (g) **"Reporting NDL Percentage"** means a version of the NDL Percentage that is calculated with reference to a single day, rather than an average over the NDL Payment Period, in order to estimate the Member's Maximum Potential Non-Default Losses for the purposes of LME Clear's monthly report to Members;
- (h) **"Treasury Counterparty"** means:
 - (i) any counterparty to any transaction undertaken by LME Clear in connection with LME Clear's treasury and/or investment management activities;
 - (ii) any issuer of any securities (including Investment Securities) that is the subject of LME Clear's treasury and/or investment management activities;
 - (iii) any issuer of any securities (including Investment Securities) held by LME Clear as Asset Cover or as an asset of LME Clear;

 - (v) any investment agent or investment manager providing any service to LME Clear in connection with LME Clear's treasury management or investment management activities, that involves the holding of, or dealing with, any Investment Securities, Asset Cover or other assets belonging to LME Clear; and/or
 - (vi) any LMEsword Depository or Warehouse,

Rule 10

but excluding any Settlement Bank, Custodian or Securities System Operator (that in any such case does not fall within (v) or (vi) above) providing a service to LME Clear that involves the holding of any Asset Cover or any assets belonging to LME Clear.

- 10.14.2** If a Non-Default Loss occurs, LME Clear shall meet that loss in the following order:
- (a) first, from LME Clear's own funds (subject to Rule 10.14.3); and
 - (b) then, by making demand on every Member for an NDL Payment (subject to Rule 10.14.4).

This Rule 10.14.2 is subject to Rule 10.14.10.

- 10.14.3** The total amount that LME Clear is obliged under Rule 10.14.2(a) to deduct from its own funds shall not exceed the amount of regulatory capital maintained by LME Clear from time to time for the purpose of meeting its obligations pursuant to Article 4 (*CCP capital requirements for credit, counterparty and market risks*) of the EMIR Level 2 Capital Requirements.

- 10.14.4** Upon receiving a demand for an NDL Payment from LME Clear pursuant to Rule 10.14.2(b), each Member shall immediately pay to LME Clear such sum in full in the currency demanded without set-off, withholding, counterclaim or deduction of any kind and, without prejudice to Rule 2.18 (*Set-Off*), LME Clear may, without further notice to or consent from each such Member, immediately debit all or part of any such demanded NDL Payment from the Collateral maintained on the House Account of the Member.

- 10.14.5** In the event that, subsequent to the exercise of its powers under this Rule 10.14, LME Clear makes any Net Recoveries relating to the underlying circumstances which gave rise to any Non-Default Loss, LME Clear shall distribute such Net Recoveries on the following basis:

- (a) first, to all Members in proportion to the NDL Payments made by each such Member in relation to such Non-Default Loss, and limited to the amount of NDL Payments made by each such Member; and
- (b) then, to LME Clear for its own account.

- 10.14.6** Any determination made by LME Clear pursuant to this Rule 10.14 shall be final and binding on each Member and shall not be capable of challenge or subject to dispute.

- 10.14.7** The procedure set out in this Rule 10.14 shall apply each time there is a Non-Default Loss.

- 10.14.8** Following a Non-Default Loss, LME Clear shall use reasonable efforts to make Net Recoveries.

- 10.14.9** LME Clear will provide a monthly report to each Member for use by such Member in calculating its maximum liability at that time for Non-Default Losses.

- 10.14.10** Where and to the extent that any Non-Default Loss is also a Counterparty Loss, LME Clear may take such steps to meet that loss as may be permitted in accordance with its rights under Rule 10.6.4 (*Counterparty Loss*). In such circumstances, such loss shall be treated as a Non-Default Loss under this Rule 10.14 only where and to the extent that

Rule 10

such Counterparty Loss is not fully discharged by the application of LME Clear's other rights under these Rules.

- 10.14.11** This Rule 10.14 is subject, in respect of any Member that resigns in accordance with Rule 10.10.9(b), to Rule 10.10.9(d).

Rule 11

RULE 11 - SETTLEMENT FINALITY

11.1 IRREVOCABILITY OF TRANSFER ORDERS

- (a) take effect and are entered into the Clearing System; and
- (b) become irrevocable.

11.1.2 A Transfer Order shall not be revoked at any time after it becomes irrevocable as in accordance with Rule 11.1.1(b).

11.1.3 The specification of the matters described in Rule 11.1.1 shall be as set out in the Settlement Finality Procedure.

Rule 12

RULE 12 - COMPRESSION**12.1 AVAILABILITY****Election for Compression**

12.1.1 A Member may elect for Contracts allocated to any Account of that Member to be Compressed with other Contracts allocated to that Account, subject to and in accordance with the provisions of this Rule 12.

12.1.2 A Member may elect for an Account to be subject to either:

- (a) Manual or File Based Compression; or
- (b) Automatic Compression.

12.1.3 In order for a Member to elect for Compression to be applied to Contracts in an Account of that Member, the Member must submit an updated reference data form to LME Clear (a "**Compression Request**"), detailing:

- (a) the Account(s) to which Compression should apply;
- (b) whether the Account should be subject to:
 - (i) Manual or File Based Compression; or
 - (ii) Automatic Compression; and
- (c) the frequency at which Compression shall be applied (which will be either daily, weekly or monthly and will determine the Business Day on which a Compression Run will be applied in accordance with the methodology set out in the DSS),

together with such other information, representations and confirmations as may be required in connection with such Compression Request. The Member must also submit an updated reference data form to LME Clear to cancel an election for Compression or to change the frequency of Compression.

12.1.4 Automatic Compression shall only be available in respect of:

- (a) House Accounts;
- (b) Direct Individual Segregated Client Accounts; and
- (c) Indirect Individual Segregated Client Accounts.

Compressible Accounts

12.1.5 Compression may be applied in respect of an Account where:

- (a) the requirements of Rule 12.1.3 have been satisfied; and
- (b) there are Eligible Compressible Contracts that are capable of being Compressed, (such Account being a "**Compressible Account**"). Notwithstanding the foregoing, Gross Omnibus Segregated Client Accounts shall not be Compressible Accounts.

Rule 12

Eligible Compressible Contracts

12.1.6 Compression may be applied only in respect of Contracts for Eligible Products that are Eligible Compressible Contracts.

12.1.7 Contracts with the following features will be "**Eligible Compressible Contracts**":

- (a) the Contracts must be in respect of an Eligible Product that is denoted in Annex 1 (*Eligible Products*) as being "capable of compression" ;
- (b) the Contracts must have the same Core Economic Terms;
- (c) the Contracts must not have been allocated to the relevant Account on the same Business Day as that on which Compression is to be applied; and
- (d) where the Transactions that resulted in the formation of the Contracts also resulted in the formation of Underlying Client Trades, the same Client or Indirect Client, as applicable, is a party to each such Underlying Client Trade.

12.1.8 The effect of Rule 12.1.7(d) is that:

- (a) where a Direct Net Omnibus Segregated Client Account is a Compressible Account, Compression may be applied only to Contracts that correspond to Underlying Client Trades relating to the same Client; and
- (b) where an Indirect Net Omnibus Segregated Client Account is a Compressible Account, Compression may be applied only to Contracts that correspond to Underlying Client Trades relating to the same Indirect Client.

12.1.9 Compression may only be applied on a per-Account basis. This means that Contracts allocated to different Accounts cannot be Compressed together.

12.2 COMPRESSION PROCESS**Manual or File Based Compression**

12.2.1 Where a Compressible Account is subject to Manual or File Based Compression, a Compression Run may be applied at such frequencies as are specified by the Member in the Compression Request relating to that Account and in accordance with the following process.

- (a) On the Business Day on which a Compression Run is due to be applied to a Member's Compressible Account, a Member may submit a request to LME Clear for Compression to be applied to an Account:
 - (i) by selecting the Eligible Compressible Contracts that are to be subject to Compression via the LMEmercury GUI (such request being a request for Manual Compression); or
 - (ii) by submitting to LME Clear a file, in a format specified by LME Clear, identifying the Eligible Compressible Contracts that are to be subject to Compression (such request being a request for File Based Compression).
- (b) Such request must be made not later than the cut-off time specified in the DSS as the latest time by which a request for Compression may be submitted on the

Rule 12

Business Day on which the Compression Run is to be applied. Any request received later than the cut-off time will not be implemented.

- (c) Following its receipt of such request, and not later than the relevant time specified in the DSS, LME Clear will prepare a Compression Proposal which the Member can access in the LMEmercury GUI.
- (d) Once the Compression Proposal becomes available, the Member must promptly, and in any event not later than the cut-off time specified in the DSS:
 - (i) review the Compression Proposal; and either
 - (ii) cancel the proposed Compression Run via the LMEmercury GUI if there are any errors in the Compression Proposal or the Member does not wish Compression to take effect for any reason, including for the avoidance of doubt, where the Compression Proposal applies Compression to Contracts that cannot be Compressed due to the requirement in Rule 12.1.7(d) not being satisfied; or
 - (iii) notify LME Clear via the LMEmercury GUI if it agrees that the Eligible Compressible Contracts in the Compressible Account shall be Compressed in the manner described in the Compression Proposal.
- (e) In the event that LME Clear receives a notification pursuant to Rule 12.2.1(d)(ii) that the Compression Proposal is erroneous in any way, the Compression Run shall not be applied to the Account, unless the Member submits another request to LME Clear for Compression to be applied to an Account and completes the process set out in this Rule 12.2.1 prior to the cut-off time specified in the DSS. In the event that a Member does submit another request to LME Clear for Compression to be applied to an Account, this Rule 12.2.1 shall apply to such request on the basis that it has been made in accordance with Rule 12.2.1(a).
- (f) In the event that LME Clear does not receive a notification pursuant to Rule 12.2.1(d)(iii) that the Member agrees to the Compression Proposal by the relevant cut-off time, then LME Clear shall not apply the Compression Run.
- (g) In the event that LME Clear receives a notification pursuant to Rule 12.2.1(d)(iii) that the Member agrees to the Compression Proposal, by the relevant cut-off time, then LME Clear shall apply the Compression Run.
- (h) In the event that a Member's Compressible Account is subject to Automatic Compression and the Member wishes to request Manual or File Based Compression in accordance with Rule 12.2.1(a) on the same day as Automatic Compression is due to be applied to contracts in that Compressible Account, the Member must first cancel the proposed Compression Run in accordance with Rule 12.2.2(c)(ii).

Automatic Compression

12.2.2 Where a Compressible Account is subject to Automatic Compression, Compression will be applied in accordance with the following process.

- (a) A Compression Run may be applied to a Compressible Account at such frequencies as are specified by the Member in the Compression Request relating to that Account.

Rule 12

- (b) On the Business Day on which the Compression Run is due to be applied to a Member's Compressible Account, LME Clear will prepare a Compression Proposal which the Member can access in the LMEmercury GUI.
- (c) Once the Compression Proposal becomes available, the Member must promptly, and in any event not later than the cut-off time specified in the DSS:
 - (i) review the Compression Proposal; and
 - (ii) cancel the proposed Compression Run via the LMEmercury GUI if there are any errors in the Compression Proposal or the Member does not wish Compression to take effect for any reason, including for the avoidance of doubt, where the Compression Proposal applies Compression to Contracts that cannot be Compressed due to the requirement in Rule 12.1.7(d) not being satisfied.
- (d) In the event that LME Clear receives a cancellation pursuant to Rule 12.2.2(c)(ii) that the Compression Proposal is erroneous in any way, the Compression Run shall not be applied to the Account, unless the Member submits a request in accordance with 12.2.1(a) and completes the process set out in 12.2.1.
- (e) In the event that LME Clear does not receive a notification pursuant to Rule 12.2.2(c)(ii) that the Compression Proposal is erroneous in any way or that it does not want the Compression to take effect, by the relevant cut-off time, then LME Clear shall apply the Compression Run.

Compression Proposals

- 12.2.3** LME Clear shall develop each Compression Proposal in accordance with the methodology set out in the DSS.
- 12.2.4** A Compression Proposal shall specify the Post-Compression Contracts that would be in the Compressible Account following the implementation of the Compression Run.
- 12.2.5** The Post-Compression Contracts identified in a Compression Proposal will represent the application of the following process:
- (a) first, Eligible Compressible Contracts with the same direction will be aggregated (the effect of which will be that any Post-Compression Contract resulting from aggregation will have a notional value that is the sum of the notional values of the Eligible Compressible Contracts that were so aggregated); and
 - (b) second, Eligible Compressible Contracts with opposite directions will be netted (the effect of which will be that any such Post Compression Contract resulting from netting shall have a notional value that is the net of the notional values of the Eligible Compressible Contracts that were so netted),

subject in each case to:

- (i) such modifications as may be specified in the methodology set out in the DSS; and
- (ii) the qualifications set out in Rule 12.2.7 below.

- 12.2.6** For the purposes of Rule 12.2.5:

Rule 12

- (a) Contracts have the "same direction" where under each Contract the same parties are Buyer and Seller respectively; and
- (b) Contracts have the "opposite direction" where the Buyer under one Contract is the Seller under the other Contract.

12.2.7 Compression must be effected so as to ensure that:

- (a) for Eligible Products for which the Variation Margin Requirement is calculated on the basis of the Discounted Contingent Variation Margin (or DCVM) approach, the DCVM attributable to the Post-Compression Contracts upon Compression shall be the same as the sum of the DCVM attributable to the Eligible Compressible Contracts immediately prior to Compression;
- (b) the Post-Compression Contracts are allocated a notional Market Value, that is within a maximum tolerance (set out in the DSS) of the previous day's Closing Price relating to any Eligible Compressible Contract that was included in the Compression Run;
- (c) Compression may not be permitted to result in Post-Compression Contracts having a zero or negative notional Market Value; and
- (d) Compression shall not, solely by itself, result in any increase in a Member's Margin Requirement.

Time and Effect of Compression

12.2.8 Compression shall take effect at the Compression Time. Following the implementation of a Compression Run, LME Clear will issue a report to the Member confirming the implementation of the Compression Run and the Compression Time.

12.2.9 Upon Compression:

- (a) the Member and LME Clear (each acting as principal) shall be released from further obligations towards one another under the Eligible Compressible Contracts specified in the Compression Proposal and their respective rights against one another under such Contracts shall be cancelled; and
- (b) the Post-Compression Contracts specified in the Compression Proposal shall, by operation of this Rule, come into full force and effect between the Member and LME Clear, such that the Member and LME Clear (each acting as principal) shall assume obligations towards one another and/or acquire rights against one another under the Post Compression Contracts.

12.2.10 For the avoidance of doubt, where, prior to a Compression Run, the clearing of a Transaction had been represented by one or more Eligible Compressible Contracts, following the Compression Run, the clearing of such Transaction shall be represented by the Post-Compression Contracts that resulted from the Compression of such Eligible Compressible Contracts.

12.2.11 For the avoidance of doubt, a Post-Compression Contract may have a notional Market Value that is different from the previous day's Closing Price relating to the Eligible Compressible Contracts that were Compressed in order to produce such Post-Compression Contract. The basis on which such notional Market Value shall be established is explained in further detail in the DSS.

Rule 12

12.2.12 For the avoidance of doubt, the termination of any Eligible Compressible Contract specified in a Compression Proposal, pursuant to Rule 12.2.9(a), shall be conditional upon the creation and coming into force of the Post-Compression Contracts specified in the Compression Proposal, pursuant to Rule 12.2.9(b).

12.3 DISCRETION OF LME CLEAR

12.3.1 The application of any Compression Run shall be at the discretion of LME Clear and LME Clear shall be under no obligation to implement any Compression Run, notwithstanding:

- (a) any request by a Member to do so; or
- (b) any other provision of this Rule 12.

12.3.2 In the event that LME Clear declines to implement a Compression Run, LME Clear shall notify the Member.

12.4 OBLIGATIONS OF THE MEMBER

12.4.1 Each Member that requests the application of Compression to any of its Accounts must:

- (a) submit a Compression Request in accordance with Rule 12.1.3;
- (b) ensure that LME Clear is promptly notified of any change of circumstances that would cause the information provided in any previously submitted Compression Request to no longer be correct;
- (c) promptly review each Compression Proposal produced by LME Clear;
- (d) make any notifications required by this Rule 12 in a timely manner;
- (e) ensure that the Member is at all times able to reconcile each Contract allocable to an Account with the Transaction that is cleared by such Contract;
- (f) ensure that under no circumstances shall the Member:
 - (i) submit a request for Compression;
 - (ii) approve a Compression Proposal; or
 - (iii) in relation to Automatic Compression, fail to cancel a proposed Compression Run,

that would result in the Compression of two Contracts that do not satisfy the condition in Rule 12.1.7(d);

- (g) ensure that the Member makes any notifications to any trade repository or Regulator regarding the effect of such Compression on any Transaction or Contract to which the Member is a party as may be required of such Member pursuant to Applicable Law;
- (h) ensure that any Client is promptly notified of the implementation of any Compression Run in relation to any Contract that relates to any Underlying Client Trade to which that Client is a party; and

Rule 12

- (i) take all necessary and appropriate steps to ensure that, upon the Compression of any Contracts, a corresponding netting or aggregation takes effect in respect of any Transactions that remain in force between the Member and any other party, or between any Client and any other party, and that are cleared by such Contracts. Without limitation to the foregoing, the Member shall ensure that the terms governing any such Transaction shall specify that such netting or aggregation shall take effect automatically upon Compression, in order to avoid the creation of a mis-match between the positions between the counterparties to the relevant Transaction and the Positions represented by the corresponding Post-Compression Contracts.

12.4.2 Without prejudice to the generality of Rule 2.3.5, each Member shall indemnify and hold harmless each LME Clear Party against any and all losses, damages, claims, liabilities, costs or expenses (whether in contract, tort, warranty, strict liability, trust, breach of statutory duty or any other legal theory) incurred by the LME Clear Party arising directly out of or in connection with such Member's breach of any of its obligations pursuant to Rule 12.4.1 above, save to the extent that the losses, damages, claims, liabilities, costs or expenses arise as a result of the fraud, fraudulent misrepresentation, negligence, wilful default or bad faith of the LME Clear Party. The Member shall not be liable to an LME Clear Party under this indemnity for loss of goodwill, loss of business opportunity or loss of anticipated savings or profits.

 - 1.2 In the course of conducting an investigation, LME Clear may appoint professional, legal or accounting advisers to assist, or enlist the assistance of any other external adviser as it thinks fit. Any external adviser appointed by LME Clear shall be required to treat all information obtained in the course of the investigation as confidential and to disclose it only to LME Clear.
 - 1.3 LME Clear shall issue a Notice of Investigation ("**Nol**") notifying the Member concerned that an investigation has been commenced. The Nol shall be in writing to the Member's Compliance Officer, and shall contain a brief description of the matter under investigation.
 - 1.4 Members shall co-operate fully with all investigations (whether or not they are the Member under investigation). In particular, Members shall:

 - 2.1 LME Clear may bring disciplinary proceedings against any Member where LME Clear considers the Member (or an employee or other person for whom LME Clear deems the Member to be responsible) to have committed an Act of Misconduct.
 - 2.2 Where LME Clear decides to bring disciplinary proceedings, it shall serve a notice setting out the alleged Act of Misconduct together with a summary of the facts relied upon (the "**Enforcement Notice**") on the Member concerned.
 - 2.3 The disciplinary proceedings under Part D of these Membership Procedures are without prejudice to LME Clear's rights under Rule 10 (*Default*).

 - 3.2 After reviewing the Defence, LME Clear may, if it deems it appropriate, choose to discontinue disciplinary proceedings.

Membership Procedure Part D

- 3.3 After reviewing the Defence, LME Clear may, if it deems it appropriate, amend its Enforcement Notice. In these circumstances, the Member has ten (10) Business Days from service of the amended Enforcement Notice to serve an amended Defence. If the Member fails to serve an amended Defence, the Member will be deemed to be relying on his original Defence.
- 3.4 Where no Defence has been served pursuant to Membership Procedure D3.1, and no settlement has been reached within twenty (20) Business Days from service of an Enforcement Notice, the Member will be deemed to have accepted the facts and matters alleged in the Enforcement Notice and will therefore be deemed to have committed an Act of Misconduct. For the avoidance of doubt, a disciplinary hearing will not be held and the Disciplinary Committee shall make a determination in accordance with Membership Procedure D6.
- 4. COMPOSITION OF DISCIPLINARY COMMITTEE**
- 4.1 The Disciplinary Committee shall consist of three directors of LME Clear.
- 4.2 Details of the precise composition of the Disciplinary Committee shall be provided to the Member prior to the disciplinary hearing.

 - (c) on such other date as the Disciplinary Committee shall require.

- 5.4 The Disciplinary Committee may appoint its own legal advisers.

Membership Procedure Part D

- 5.5 If either party fails to attend a disciplinary hearing, the hearing may proceed in that party's absence.
- 5.6 A record shall be made of a disciplinary hearing, electronically or otherwise. The Member shall be entitled to a transcription or copy of the record on payment of any applicable costs.
- 5.7 The Disciplinary Committee may admit any evidence whether oral or written, and whether or not the same would be admissible in a court of law.
- 5.8 The burden of proof shall be on LME Clear. The Disciplinary Committee shall not find an allegation proved unless it is satisfied on the balance of probability.

6. THE DETERMINATION

- 6.1 The Disciplinary Committee shall announce its findings to the parties as soon as practicable.
- 6.2 Where the Disciplinary Committee is satisfied that the Member has committed an Act of Misconduct it shall provide the parties with an opportunity to make representations before determining the penalty to be imposed.
- 6.3 The Disciplinary Committee shall announce the penalty to be imposed as soon as possible.
- 6.4 Within twenty (20) Business Days of announcing its findings, the Disciplinary Committee shall serve on the parties a written decision comprising:
- (a) its findings of fact;
 - (b) its findings as to whether any charges not admitted are proved;
 - (c) the reasons for its decision; and
 - (d) any penalties to be imposed on the Member, together with an indication as to:
 - (i) whether any part of the penalty is compensatory for the benefit of the Members generally or for specified individuals; and
 - (ii) what part of the penalty is punitive.
- 6.5 Subject to appeal, and unless the Disciplinary Committee determines otherwise, any penalty imposed shall take effect ten (10) Business Days after service of the written decision.

7. PENALTIES

- 7.1 The Disciplinary Committee may impose one or more of the following penalties:
- (a) a public or private reprimand;
 - (b) a fine of any amount;
 - (c) an order that the Member make restitution to any person where the Member has profited from its misconduct at that person's expense;

Membership Procedure Part D

- (e) a requirement to comply with such conditions as the Disciplinary Committee deems appropriate;
- (f) suspension or termination from Membership subject to ratification by the Board of LME Clear or its nominated delegate(s). Any suspension or termination shall be in accordance with Rules 3.6 to 3.9 or Rule 10 (*Default*) (for the avoidance of doubt, a determination that a Member has committed an Act of Misconduct shall constitute a Default Event under Rule 10 (*Default*)).

7.2 The sanction imposed by the Disciplinary Committee shall be proportionate and commensurate with the seriousness of the Act of Misconduct, taking into account factors including the consequences of the act and whether the act was deliberate or negligent.

7.3 In the event that a Member fails to comply with a penalty imposed, or direction made under this Membership Procedure 7, such failure shall constitute a breach of the Rules.

8. COSTS

The Disciplinary Committee may make costs orders at its discretion. It may order any party to pay such costs as it reasonably considers to be appropriate in the circumstances, including, but not limited to, administration costs and costs incurred in the investigation, preparation and presentation of the case.

9. SETTLEMENTS

9.1 LME Clear and the Member may agree to settle disciplinary proceedings at any time up to the commencement of the disciplinary hearing.

9.2 Settlement negotiations shall be undertaken on a without prejudice basis.

10. CONVICTIONS AND FINDINGS BY OTHER AUTHORITIES

10.1 The findings of fact of any court in the United Kingdom or the Upper Tribunal (Tax and Chancery Chamber), which have not been set aside on appeal or otherwise, shall be conclusive evidence of the facts so found.

10.2 A criminal conviction by any court in the United Kingdom which has not been set aside on appeal or otherwise shall be conclusive evidence of the commission of that offence.

10.3 The findings of fact of the following bodies, which have not been set aside on appeal or otherwise, shall be *prima facie* evidence of the facts so found:

- (a) any court of competent jurisdiction outside the United Kingdom;
- (b) any committee or tribunal of the Financial Services Authority, the Bank of England, the Prudential Regulatory Authority, the Financial Conduct Authority, ESMA, a self-regulating organisation, a recognised professional body, a recognised investment exchange, a recognised clearinghouse or any "overseas regulator" under section 195(3)-(4) of the Financial Services and Markets Act 2000 or any financial services legislation replacing the Financial Services and Markets Act, exercising regulatory or disciplinary functions;
- (c) the Competition Commission; and

Membership Procedure Part D

In the event that a Member conducts an Act of Misconduct pursuant to Rule 7.9.1 (*Postponed Delivery: LMEprecious*):

- (a) such Act of Misconduct may also constitute a breach of the LME Rules;
- (b) LME Clear shall co-ordinate with the LME with respect to the investigation, and any disciplinary action, to be taken against the Member pursuant to this Membership Procedure D and the disciplinary procedures under the LME Rules; and
- (c) for the avoidance of doubt, nothing shall prevent LME Clear from applying the procedures in this Membership Procedure D in respect of such Act of Misconduct in the event that the LME does not apply its own disciplinary procedures against, or take any disciplinary action against, the Member.

Membership Procedure Part E

PART E – APPEAL**1. INITIATING AN APPEAL**

- (d) in the case of an Act of Misconduct, new evidence is available, which, if it had been brought forward before the Disciplinary Committee's findings were made, the Disciplinary Committee could reasonably have come to a different decision (this ground will not apply if the evidence could, by the exercise of reasonable diligence, have been brought forward before the Disciplinary Committee's findings were made).

2. COMPOSITION OF THE APPEAL COMMITTEE

2.1 The Appeal Committee shall comprise two persons who shall be nominated by the Centre for Effective Dispute Resolution (CEDR). The individuals appointed shall:

CLEARING PROCEDURES

Clearing Procedure Part A

PART A – INTRODUCTION AND GENERAL MATTERS**1. INTERPRETATION AND INTRODUCTION**

1.1 These Clearing Procedures form part of, and shall be read in conjunction with, the Rules and are legally binding on Members. Terms defined in the Rules have the same meaning in these Clearing Procedures. In the event of any conflict or inconsistency between the Rules and these Clearing Procedures, the Rules shall prevail.

1.2 These Clearing Procedures are arranged into the following Parts:

- (a) Part A: Introduction and General Matters;
- (b) Part B: Transaction and Position Management;
- (c) Part C: Valuation, Margining and Risk Management;
- (d) Part D: Treasury and Collateral Management;
- (e) Part E: the Secure Payment System and Cash Settlements;
- (f) Part F: Physical Delivery; and
- (g) Part G: Interest, Fees and Charges.

1.3 The Clearing Procedures should be read in conjunction with the following Annexes, which support and supplement the Clearing Procedures:

- (a) Annex 1 (*Eligible Products*);
- (b) Annex 2 (*Eligible Currencies, Collateral and Haircuts*);
- (c) Annex 3 (*Fees and Charges*);
- (d) Annex 4 (*List of Available Reports*);
- (e) Annex 5 (*Margin Parameters*); and
- (f) Annex 7 (*Delivery Timetables*).

2. INTRODUCTION TO PART A OF THE CLEARING PROCEDURES

2.1 This Part A of the Clearing Procedures specifies the Clearing Procedures applicable to:

- (a) the time zone applicable to these Clearing Procedures (**Clearing Procedure A3**);
- (b) the specification of the products that are eligible to be cleared via the Clearing System (**Clearing Procedure A4**), which shall be read in conjunction with Annex 1 (*Eligible Products*);
- (c) the definition of an Instrument (**Clearing Procedure A5**);
- (d) the basis on which LME Clear will determine prices applicable to the processes set out in these Clearing Procedures (**Clearing Procedure A6**);

Clearing Procedure Part A

- (e) the basis on which LME Clear will issue various Reports to Members (**Clearing Procedure A7**), which shall be read in conjunction with Annex 4 (*List of Available Reports*);
- (f) certain interpretative provisions regarding payment-related terminology (**Clearing Procedure A8**).

3. LONDON TIME

All times specified in these Procedures shall be construed as local London time unless explicitly stated otherwise.

4. ELIGIBLE PRODUCTS

- 4.1 Annex 1 (*Eligible Products*) specifies the list of financial instruments that constitute Eligible Products and the Product Specifications in respect of each such Eligible Product. The only contracts that are eligible at any given time to be submitted to be cleared via the Clearing System are those meeting the requirements specified in Annex 1 (*Eligible Products*).
- 4.2 Annex 1 (*Eligible Products*) describes the attributes of each Eligible Product and, where relevant, provides a cross reference to the relevant Clearing Procedure that describes the processes of the Clearing System that relate to that attribute.
- 4.3 Annex 1 (*Eligible Products*) may be updated from time to time by LME Clear in accordance with Rule 2 (*General Provisions*).

Where any individual Eligible Product is referred to in these Clearing Procedures, it shall be defined in accordance with Annex 1. Such individual Eligible Products shall not be specifically defined in Rule 1 (*Definitions and Interpretation*).

5. INSTRUMENTS

- 5.1 For the purposes of the Rules, an "**Instrument**" shall be defined, by reference to one or more Open Contracts in respect of the same Eligible Product and having the same Product Specifications, as the maximum number of common parameters for which it is possible to identify a market price, and which shall in each case exclude the following parameters:
 - (a) the Execution Price;
 - (b) the volume of Underlying Assets to be delivered; and
 - (c) the direction (that is, buy or sell) held by LME Clear.

For the avoidance of doubt, the Open Contracts relating to any single Instrument may each contain characteristics that are not reflected in the Instrument. However such characteristics will be those that are not capable of assisting the identification of a market price.

- 5.2 LME Clear identifies Instruments in order to identify a market price for the Open Contracts relating to each such Instrument. The market price will always be determined as the mid-market price for the Open Contracts relating to that Instrument. This is intended to facilitate the application of netting and settlement to market processes in respect of those Eligible Products that settle on a daily basis.
- 5.3 The following are set out as examples of Instruments:

Clearing Procedure Part A

- (a) In respect of an LME Exchange Traded Forward, the Instrument will comprise the following characteristics of the Open Contracts for such Eligible Product where such characteristics are identical:
- (i) type of Eligible Product (i.e. LME Exchange Traded Forward);
 - (ii) Underlying Asset (e.g. copper);
 - (iii) Settlement Currency (e.g. USD); and
 - (iv) Prompt Date.
- (b) In respect of an LME Exchange Traded American Option, the Instrument will comprise the following characteristics of the Open Contracts for such Eligible Product where such characteristics are identical:
- (i) type of Eligible Product (i.e. LME Exchange Traded American Option);
 - (ii) Underlying Asset (e.g. copper);
 - (iii) nature of option (e.g. either a call or a put);
 - (iv) the Strike Price Currency (e.g. USD);
 - (v) the Strike Price;
 - (vi) the Premium Currency (e.g. USD); and
 - (vii) the Final Expiry Date.

For the avoidance of doubt, the capitalised terms specified in the examples above refer to components of the Product Specifications of the relevant Eligible Products, and are to be interpreted in accordance with Annex 1 (*Eligible Products*).

6. CLOSING PRICES, SETTLEMENT PRICES, MARKET DATA AND PRICE SETS

Price-related terms defined

6.1 This Clearing Procedure A6 defines:

- (a) the LME Closing Prices and the LBMA Closing Prices (each a sub-category of Closing Price);
- (b) the LME Settlement Prices, the Gold Settlement Price and the Silver Settlement Price (each a sub-category of Settlement Price);
- (c) the Price Sources for such prices; and
- (d) the Price Sets.

LME Clear Prices

6.2 LME Clear will use such pricing data provided by third parties in order to:

- (a) create intra-day Price Sets;
- (b) create End of Day Price Sets (or Closing Prices); and

Clearing Procedure Part A

(c) create Settlement Prices.

6.3 LME Clear will, wherever reasonably practicable, use published prices for such purposes, typically at the End of Day on each Business Day (with the exception of the creation of intra-day Price Sets).

Closing Prices

6.4 The following shall constitute "**Closing Prices**":

(a) **Closing Prices for LME Exchange Traded Products**

- (i) The Closing Prices for LME Exchange Traded Products other than Cash-Settled Futures or LMEprecious Products shall be the "Closing Prices" in the "Major Currency", as each such term is defined under the LME Rules.
- (ii) The Closing Prices for LME Exchange Traded Products that are "Cash-Settled Futures" (as defined in the LME Rules) shall be the relevant "Cash-Settled Future Daily Settlement Price" for the specific Product, as such term is defined under the LME Rules.
- (iii) The Closing Prices for LMEprecious Futures shall be the "LMEprecious Daily Settlement Price", as such term is defined in the LME Rules.

(each of (i), (ii) and (iii) being the "**LME Closing Prices**")

(b) **[Closing Prices for OTC Bullion Products**

[left intentionally blank].]

Settlement Prices

6.5 The following shall constitute "**Settlement Prices**":

(a) **Settlement Prices for LME Exchange Traded Products**

The Settlement Prices for LME Exchange Traded Products ("**LME Settlement Prices**") shall be the "Settlement Prices", as defined under the LME Rules.

(b) **Settlement Prices for OTC Bullion Products**

The Settlement Prices for OTC Bullion Products shall be as follows:

- (i) *[left intentionally blank]* (the "**Gold Settlement Price**"); and
- (ii) *[left intentionally blank]* (the "**Silver Settlement Price**").

Price Sources

6.6 The LME shall therefore be a "**Price Source**" for the purpose of these Procedures.

6.7 In the event that any Price Source fails to publish any Closing Price or Settlement Price that LME Clear needs to use in order to perform any process, LME Clear may determine the relevant price to be used for such process. Such determination will be at LME Clear's discretion and shall be conclusive. This Clearing Procedure A6.7 is subject to, and without prejudice to, any Rule that provides for an alternative means of determining a Closing Price or Settlement Price in the specific circumstances contemplated by such Rule.

Clearing Procedure Part A

Price Sets

6.8 In these Clearing Procedures a "**Price Set**" means a complete array of Market Prices and Volatility Metrics that includes:

- (a) a Market Price for every Instrument; and
- (b) all foreign exchange rates, interest rates and Collateral Valuation rates that shall be used by LME Clear in order to perform its calculations of the risks relating to any Member, Position, Account or Instrument.

LME Clear shall, on a continuous basis, during each Business Day, determine the Price Sets that it shall use for the purposes of its operation of the Clearing System.

6.9 For the avoidance of doubt, LME Clear shall use:

- (a) an "**End of Day Price Set**" for the purpose of its End of Day risk management and Margin Requirement calculations and processes. This Price Set shall include the LME's "Closing Prices" (as defined in the LME Rules unless the LME fails to determine such Closing Prices, in which case LME Clear shall use such prices as it considers to be appropriate); and
- (b) the Price Set most recently defined and adopted by LME Clear shall be used for the purpose of LME Clear's Intra-Day Margin Requirement calculations.

6.10 LME Clear reserves the right to amend any prices that it considers do not accurately reflect the current market price.

6.11 LME Clear shall make available to the Members the Price Set that it uses for End of Day calculations of Margin Requirements.

7. REPORTING

7.1 LME Clear will make available to Members the Reports specified in Annex 4 (*List of Available Reports*) in such formats and at such frequencies as are specified in Annex 4 (*List of Available Reports*).

7.2 The Reports will be made available to Members through the Member-specific section of the Website.

7.3 In addition to the Reports, LME Clear will make available to Members via the Website certain data relating to the Member's use of the Clearing System, including information regarding:

- (a) the Transactions submitted to LME Clear by Approved Transaction Platforms; and
- (b) the Member's current Positions in respect of Open Contracts.

7.4 Members will also be able to access margin calculation files and market data files from the Website.

7.5 All Reports, transmissions and other documents (other than Notices issued by LME Clear pursuant to Rule 2.9) in electronic format shall be deemed delivered to and received by each Member when made available for retrieval by LME Clear. Each Member shall be obligated to retrieve and review all Reports, transmissions and documents, and to notify LME Clear promptly of any error or discrepancies contained therein. To the extent

Clearing Procedure Part A

necessary or appropriate, LME Clear may cause an adjustment to be made to the data within such time as LME Clear determines to be necessary.

- 7.6 The contents of all Reports, transmissions and other documents delivered or deemed to be delivered to a Participant shall be conclusive and binding on the Member if the Member does not notify LME Clear of any error or discrepancy with thirty (30) days of such delivery or deemed delivery.
- 7.7 It is the responsibility of each Member to access and preserve a copy of any Reports or data that such Member may require for any purpose or reason (whether operational, audit-related, legal, regulatory or otherwise).

8. **INTERPRETATION OF "POSTING" AND "FOR VALUE" (CASH SETTLEMENT TERMS)**

- 8.1 In these Clearing Procedures, reference to any cash payment being "posted" or "for value" on any particular Business Day shall be interpreted as follows:

- (a) "**posted**" shall mean notified to the relevant Approved Settlement Bank and recorded on the Accounts maintained by LME Clear in the Clearing System, in relation to a Member, as a payment due from, or to, the Member; and
- (b) reference to a payment being "**for value**" on a particular Business Day shall mean that the relevant payment shall be received into the receiving person's Settlement Account at the relevant Approved Settlement Bank on that particular Business Day.

Clearing Procedure Part B

- (ii) The LME Inter-Office Market, in conjunction with LMEsmart, shall be an Approved Execution Arrangement for Transactions arranged by a RIB in:
 - (1) LME Base Products; and
 - (2) LMEprecious Products.
- (iv) Transactions agreed via the LME Inter-Office Market shall, except where the Transaction is arranged by a RIB, give rise to a Contingent Agreement to Trade between the counterparties to the Transaction, in accordance with the LME Rules.
- (iv) The Contingent Agreement to Trade has no effect or status under these Rules, and shall be governed solely by the LME Rules.
- (v) The counterparties to a Contingent Agreement to Trade are responsible, under the LME Rules for the submission of the relevant Transaction Data to LMEsmart.
- (vi) The counterparties to a Transaction arranged by a RIB are responsible, together with such RIB, under the LME Rules, for the submission of the relevant Transaction Data to LMEsmart.
- (vii) LMEsmart shall apply such pre-execution checks as LME Clear shall specify and agree with the Approved Transaction Platform. The Approved Transaction Platform shall not permit a Transaction in respect of a Contingent Agreement to Trade, or any Transaction arranged by a RIB, to be executed via LMEsmart unless such pre-execution checks are satisfied.
- (viii) When the pre-execution checks are satisfied, LMEsmart shall confirm that the Transaction may be executed.
- (ix) Subject to the satisfaction of all other Acceptance Criteria, Transactions agreed via the LME Inter-Office Market, and which have been subject to the process set out in (iii) to (viii) above shall be deemed to be Accepted at the time at which the Transaction is confirmed in LMEsmart as being capable of execution, in accordance with the LME Rules.
- (x) For the avoidance of doubt, neither the LME nor LME Clear regards a Contingent Agreement to Trade as constituting any form of derivative contract.

3.3 Contracts formed under Give-Ups

In the event that, in accordance with the relevant LME Rules governing Give-Ups:

- (a) a Member agrees a Transaction via LMEselect or the LME Inter-Office Market, and (as a Give-Up Executor) submits a Give-Up Executor Instruction into the Approved Transaction Platform; and
- (b) a Contract is allocated to the Give-Up Executor's House Account upon Acceptance of the original Transaction (such Contract being the "**Original House Contract**"); and

Clearing Procedure Part B

- (c) at the Acceptance Time for the Give-Up Executor Instruction, the Accepting Member has not been identified, and a valid and complete Give-Up Acceptance has not been accepted and confirmed within LMEsmart,

then the following Contracts shall automatically and immediately come into effect between LME Clear and the Give-Up Executor:

- (i) a Contract allocated to the Give-Up Executor's House Account, having the opposite direction to that of the Original House Contract (the "**Offsetting House Contract**"); and
- (ii) a Contract allocated to an Administrative Account of the Give-Up Executor, having the same direction as that of the Original House Contract (the "**Give-Up Contract**").

3.4 In the event that, in accordance with the relevant LME Rules governing Give-Ups:

- (a) the Give-Up Executor submits to the Approved Transaction Platform the appropriate information (in accordance with the LME Rules) identifying the Accepting Member that is to clear for the Client that initiated the Transaction; and
- (b) LMEsmart confirms:
 - (i) the acceptance by such Accepting Member of the Give-Up arrangement pursuant to a Give-Up Acceptance; and
 - (ii) the satisfaction of the Acceptance Criteria in respect of the Transaction represented by the Give-Up Acceptance,

then

- (c) upon Acceptance of such Give-Up Acceptance, LME Clear shall cancel the Give-Up Contract, which shall from the time of such cancellation cease to have effect between LME Clear and the Give-Up Executor.

3.5 In the event that the steps in Clearing Procedure B 3.4(a) or (b) are not completed, the step in (c) shall not take effect and the Give-Up Contract shall continue to be cleared in accordance with these Rules, unless and until LME and LME Clear agree with the Give-Up Executor to take any further action in respect of such Give-Up Contract.

3.6 Transaction Data Capture

For the avoidance of doubt, LMEselect (in respect of Transactions agreed via LMEselect) and LMEsmart (in respect of Transactions agreed via the LME Inter-Office Market) shall capture the Transaction Data in respect of each Transaction to:

- (a) enable such systems to verify that the Transaction and the Member(s) responsible for such Transaction satisfy the static data, risk and credit checks applied by LME Clear to the Transaction;
- (b) identify the Member or Members responsible for clearing the Transaction, and whether such Member or Members are acting in a proprietary capacity or on behalf of a Client;
- (c) specify all relevant details required by LME Clear in order to identify the rights and obligations of each party under the Transaction; and

Clearing Procedure Part B

- (d) specify, in respect of each Member that is to accept responsibility for the Transaction, the Account designated by the Member to which the Contracts, Positions, Collateral and other the rights and obligations relating to such Transaction should be allocated.

3.7 Transaction Data Checks

3.8 The Approved Transaction Platform will perform checks in respect of Transactions agreed pursuant to the LME Rules, on behalf of LME Clear. Such checks shall include:

- (a) a check that the Transaction Data is complete and readable (the "**syntax validation**"); and
- (b) a check that the Transaction Data content is valid, including whether the relevant Acceptance Criteria are satisfied (the "**static data validation**");
- (c) a risk review (the "**Credit Check**") in order to determine whether:
 - (i) the Acceptance of the Transaction would cause the Member's Risk Threshold to be reached or exceeded; or
 - (ii) the Member has deposited with LME Clear insufficient Collateral to enable LME Clear to accept the risk of the new Transaction; and
- (d) such other checks as LME Clear may require the Approved Transaction Platform to perform on its behalf in order to confirm that the Transaction Data is operationally capable of being processed within LME Clear's systems, and the Transaction is not inconsistent with any requirements specified in these Rules.

3.9 Such checks will be performed:

- (a) prior to Acceptance Time where the Transaction is agreed via the LME Inter-Office Market; and
- (b) following the Acceptance Time where the Transaction is agreed in LMEselect or the Ring.

3.10 The LME Rules shall set out and govern:

- (a) the obligations of each Member with respect to the submission of appropriate information to ensure that such checks can be performed;
- (b) the consequences of any check not being satisfied, and the obligations of the relevant Members in such circumstances; and
- (c) the basis on which such checks will be confirmed as satisfied.

3.11 Notification

3.12 On each Business Day, LME Clear shall notify the Member of all Transactions in respect of such Member that have been Accepted or rejected by the Approved Transaction Platform or LME Clear on that Business Day, by the issue of a Report.

3.13 During each Business Day, Members may access information regarding:

- (a) the status of Transactions submitted to the Clearing System; and

Clearing Procedure Part B

(b) the status of Open Contracts via the LMEmercury GUI or the Member Interface.

3.14 OTC Backloading

3.15 LME Clear may offer services to enable Members to identify the relevant Transaction Data to be input into LMEsmart pursuant to a Contingent Agreement to Trade, in order to clear through the Clearing System Contracts representing previously executed over-the-counter contracts in Eligible Products (such services being "**OTC Backloading Services**"). Such OTC Backloading Services may include the provision of netting or compression data.

3.16 LME Clear may offer OTC Backloading Services in respect of one or more Services.

3.17 Where LME Clear makes OTC Backloading Services available:

- (a) LME Clear shall specify a form of agreement to be executed between LME Clear and each Member that participates in such the OTC Backloading Service;
- (b) the terms on which the OTC Backloading Service shall be provided, and the respective rights and obligations of LME Clear and a Member participating in the service, shall be as set out in such agreement; and
- (c) the operational processes relating to the provision of, and use of, the OTC Backloading Service shall be as specified in the DSS.

4. POSITION UPDATE AND MAINTENANCE AND SETTLEMENT TO MARKET

4.1 Upon registration of a Transaction within the Clearing System, LME Clear shall determine the Member's Positions in the Eligible Products to which the Transaction relates. Such Positions shall be reflected in the relevant Account to which the Contracts relating to such Transaction have been designated (the "**Designated Account**"). (Rule 4 (*Accounts*) specifies the Rules applicable to the establishment and operation of Accounts opened by the Member).

4.2 Positions in Designated Accounts shall be created and updated following Acceptance in accordance with the following criteria:

- (a) where the Designated Account does not currently record any other Open Contract for that Instrument a new Position shall be created within the Designated Account to reflect the Member's rights and obligations in respect of the Open Contract; and
- (b) where the Designated Account contains existing Positions in respect of multiple Open Contracts for that Instrument, then each additional Open Contract in such Instrument shall be added to the volume of such existing Positions in that Designated Account.

4.3 Positions in an Account therefore represent the consolidated rights and obligations arising from all Open Contracts within the same Instrument that have been allocated to that Account.

4.4 All new Open Contracts in each Business Day are maintained on a gross basis intra-day, such that LME Clear records to each Account the total Open Contracts with Purchase Positions and total Open Contracts with Sale Positions allocated to that Account on that Business Day.

4.5 Following the completion of LME Clear's netting and reconciliation processes at End of Day:

Clearing Procedure Part B

- (a) Positions in Gross Position Products allocated to an Account shall be maintained on a gross basis; and
- (b) Positions in Net Position Products allocated to an Account shall be maintained in accordance with Clearing Procedure B5, either:
- (i) on a net basis, such that the Purchase Positions and the Sale Positions in respect of each Open Contract for the same Instrument are netted to the smallest number of obligations; or
 - (ii) on an aggregated basis, such that the Purchase Positions and the Sale Positions in respect of each Open Contract for the same Instrument are added together to result in a single aggregated Purchase Position and a single aggregated Sale Position; and
- (c) the application of Clearing Procedure B:4.4 and B4.5 (a) and (b) above to Positions allocated to a Gross Omnibus Segregated Client Account shall be applied separately to each Allocation ID in such Account, such that each gross calculation, net calculation or aggregation calculation shall be applied separately in respect of each Allocation ID and their corresponding Positions as if such Allocation IDs represented separate Accounts.

4.6 The following table identifies those Eligible Products that are Gross Position Products and Net Position Products respectively, and the basis on which position keeping may be applied to such Eligible Products.

Type of Product	Eligible Products	Basis of Netting
Gross Position Products	Exchange Traded Forwards	Gross
	Exchange Traded Monthly Average Futures	Gross
	OTC Bullion Forwards	Gross
Net Position Products	Exchange Traded Futures	Net or Aggregate
	LMEprecious Futures	Net or Aggregate
	All Option Contracts	Net or Aggregate

4.7 Responsibilities of Members in respect of mis-allocated Contracts

4.8 In the event that a Contract is allocated to an Administrative Account due to any determination by LME Clear that the Transaction Data in respect of a Transaction has incorrectly identified the Account to which such Contract should be allocated, the Member must submit corrected instructions to LME Clear, specifying the correct Account to which the Contract should be allocated, in accordance with the requirements of the LME Rules and in any event prior to the Close of Business on the next following Business Day after the Acceptance of the Contract.

Clearing Procedure Part B

- 4.9 In the event that a Default Event arises prior to the receipt by LME Clear of the instructions specifying the correct Account, the Contract shall remain within the Administrative Account, and shall be subject to the application of the Default Rules to that Account.
- 4.10 Notwithstanding paragraph 4.9 above, LME Clear may transfer a Contract from an Administrative Account to another Account of the Member where LME Clear considers it appropriate to do so.
- 4.11 **Aggregated Contracts Close Out Netting Process**
- (a) Where a Member holds Aggregated Contracts in an Omnibus Segregated Client Account, the Member may utilise LME Clear's close-out process in order to:
- (i) identify the open interest recorded in an Aggregated Contract which represents the open interest of a single Client; and
 - (ii) net any such open interest in an Aggregated Contract with a Purchase Position against any open interest in an Aggregated Contract with a Sale Position which is identical except in respect of its direction,
- so that, following the application of such process:
- (1) the relevant Aggregated Contracts shall remain in the Account and in force between LME Clear and the Member but with an amended Purchase Position or Sale Position, as the case may be; or
 - (2) where the netting reduces a Purchase Position or Sale Position to zero, the Aggregated Contract represented by that zero Position is automatically terminated.
- (b) The time at which such netting shall take effect shall be the time at which the same is recorded in the Clearing System.
- (c) The DSS sets out the requirements to be applied in order to carry out the close-out process set out in this paragraph 4.11 (including the cancellation of such close-out process).
- (d) LME Clear may require a Member to close-out open interest in certain circumstances. Any such circumstances shall be set out in the DSS.
- 4.12 **Operational Requirements in support of gross Accounts**
- 4.13 Where a Member maintains Contracts allocated to a Gross Omnibus Segregated Client Account, the Member must provide to LME Clear a file, in such format and at such times each Business Day as shall be specified in the DSS, identifying the Allocation IDs for each such Contract.
- 4.14 Any Contracts allocated to a Gross Omnibus Segregated Client Account shall be subject to the following requirements:
- (a) during the Business Day on which such Contracts are Accepted:
 - (i) Positions in respect of such Contracts shall be maintained by LME Clear on a gross basis in accordance with Clearing Procedure B:4.4; and

Clearing Procedure Part B

- (ii) such Positions shall be subject to Margin Requirements calculated in accordance with Clearing Procedure C,

in each case until LME Clear has received the Allocation IDs in respect of such Contracts and the subsequent completion of LME Clear's netting and reconciliation processes at End of Day for such Business Day in accordance with Clearing Procedure B:4.5(c) above; and

- (b) in the event that a Member fails to provide an Allocation ID in respect of any such Contracts, LME Clear shall:

- (i) apply its End of Day netting and reconciliation process to the Positions in respect of such Contracts, in accordance with Clearing Procedure B:4.5(c) on the basis of the table set out below; and

- (ii) such Positions shall be subject to Margin Requirements calculated in accordance with Clearing Procedure C,

in each case until the End of Day on the Business Day on which LME Clear has received the Allocation IDs in respect of such Contracts and the subsequent completion of LME Clear's netting and reconciliation processes at End of Day for such Business Day in accordance with Clearing Procedure B:4.5(c) above.

Table referable to Clearing Procedure B:4.14(b)(i):

Type of Product	Eligible Products	Basis of Netting for Unallocated Contracts
Gross Position Products	Exchange Traded Forwards	Gross
	Exchange Traded Monthly Average Futures	Gross
	OTC Bullion Forwards	Gross
Net Position Products	Exchange Traded Futures	Aggregate
	LMEprecious Futures	Aggregate
	All Option Contracts	Aggregate

- 4.15 In the event that a Member identifies that any Allocation ID notified to LME Clear in respect of any Contract is incorrect, the Member must promptly submit to LME Clear an updated file specifying the correct Allocation ID, in accordance with the requirements specified in the DSS. For the avoidance of doubt, the Member must not submit to LME Clear any file or any additional Transactions, in order to correct any such mis-allocated Contract that would, or which would purport to, have the effect of creating a new Contract that has not been executed pursuant to an Approved Execution Arrangement.

Clearing Procedure Part B

- 4.16 LME Clear reserves the right not to allocate any Contract to an Allocation ID, either intra-day or in accordance with its End of Day netting and reconciliation process, where LME Clear so determines on the grounds of prudent risk management, including in the event that the Member has become a Defaulting Member.

5. SETTLEMENT TO MARKET PROCESS

5.1 Application of Netting or Aggregation

- 5.2 The netting processes set out in this Clearing Procedure B5 shall be applied as follows:

- (a) for any House Account (including any Administrative Account treated as a House Account), LME Clear shall maintain the Positions in Net Position Products in the Account on a net basis, and shall be subject to daily settlement to market in accordance with Clearing Procedure B 5.8 and 5.9 below;
- (b) for any Direct Individual Segregated Client Account or Indirect Individual Segregated Client Account LME Clear shall maintain the Positions in Net Position Products in the Account on a net basis, and shall be subject to daily settlement to market in accordance with Clearing Procedure B 5.8 and 5.9 below;
- (c) for any Direct Net Omnibus Segregated Client Account or Indirect Net Omnibus Segregated Client Account, LME Clear shall maintain Positions in Net Position Products in the Account either:
 - (i) (in relation to certain designated Administrative Accounts), on a net basis; or
 - (ii) (in relation to all other Net Position Products in a Direct Net Omnibus Segregated Client Account or an Indirect Net Omnibus Segregated Client Account) on an aggregated basis (except where LME Clear agrees with the Member that they may be held on a net basis);
- (d) for any Gross Omnibus Segregated Client Account, LME Clear shall maintain Positions in Net Position Products in the Account on a net basis per Allocation ID, except in the case of Contracts that have not been allocated to an Allocation ID, which shall be held on an aggregated basis with other unallocated Contracts,

subject that (in the case of (c) and (d) above:

- (1) the Member may not maintain Positions on a net or aggregate basis where such Positions are allocable to more than one Client (or, in respect of any Indirect Net Omnibus Segregated Client Account or Indirect Gross Omnibus Segregated Client Account, to more than one Indirect Client) unless and except to the extent that the Member has the legal authority and power to do so, in accordance with Applicable Law and the Member's contractual terms with such Clients;
- (2) Rule 6.11.4 shall apply;
- (3) the Positions to be netted shall be subject to settlement to market in accordance with Clearing Procedure B 5.8 and 5.9 below; and

Clearing Procedure Part B

- (4) the Positions to be aggregated shall be subject to settlement to market in accordance with Clearing Procedure B 5.11 and 5.12 below.

5.3 Calculations

5.4 LME Clear shall, at the End of Day, determine:

- (a) in respect of each Instrument in a Net Position Product for each Account: the Position for all Open Contracts as at the End of Day, comprising the Brought Forward Position, as adjusted by any New Contract Positions (the "**End of Day Position**") (subject that, in respect of a Gross Omnibus Segregated Client Account, references to "each Account" in this provision shall instead be construed as references to "each Allocation ID allocated to each Account"); and
- (b) in respect of each Instrument in a Net Position Product to which Realised Variation Margin applies pursuant to the Product Specifications (a "**relevant Net Position Product**"), for each Account: the Realised Variation Margin in respect of the Instrument for that Business Day.

5.5 The determination made pursuant to Clearing Procedure B 5.4 above shall be applied:

- (a) where (b) does not apply:
- (i) to those Positions in an Account that are to be netted, in accordance with Clearing Procedure B 5.8, 5.9 and 5.14 below; and
- (ii) to those Positions in an Account that are to be aggregated, in accordance with Clearing Procedure B 5.11, 5.12 and 5.14 below;
- (b) in respect of a Gross Omnibus Segregated Client Account:
- (i) to those Positions in an Allocation ID allocated to the Account that are to be netted, in accordance with Clearing Procedure B 5.8 and 5.9; and
- (ii) to those Positions in an Allocation ID allocated to an Account that are to be aggregated, in accordance with Clearing Procedure B 5.11 and 5.12; and
- (iii) Realised Variation Margin shall be calculated, in accordance with Clearing Procedure B 5.14, on a per-Account basis and not on a per-Allocation ID basis.

5.6 LME Clear's calculations of the respective Positions and Realised Variation Margin for the purpose of this Settlement to Market Process shall be definitive.

5.7 Establishment of End of Day Positions per Instrument and Account (or Allocation ID allocated to an Account): Netted Positions

5.8 For Positions that are to be netted, the End of Day Position shall represent a single net Position in respect of the Instrument at the relevant Closing Price for that Business Day, identifying:

- (a) a single Purchase Position for the Buyer under the Instrument; and
- (b) a single Sale Position for the Seller under the Instrument.

Clearing Procedure Part B

5.9 Upon the establishment by LME Clear of the End of Day Position, all Open Contracts represented by:

- (a) the Brought Forward Position; and
- (b) each New Contract Position,

shall be treated as being discharged and replaced by a single Open Contract at that Business Day's Closing Price. Such Open Contract shall be deemed to come into effect pursuant to the Rules.

5.10 Establishment of End of Day Positions per Instrument and Account (or Allocation ID allocated to an Account): Aggregated Positions

5.11 For Positions that are to be aggregated, separate End of Day Positions for Purchase Positions and Sale Positions shall be identified in respect of the Instrument at the relevant Closing Price for that Business Day, identifying:

- (a) a single Purchase Position for the Buyer under the Instrument; and
- (b) a single Sale Position for the Seller under the Instrument.

5.12 Upon the establishment by LME Clear of the End of Day Position:

- (a) all Open Contracts represented by:
 - (i) the Brought Forward Position in respect of Purchase Positions; and
 - (ii) each New Contract Position comprising Purchase Positions,

shall be treated as being discharged and replaced by a single Open Contract comprising the aggregated Purchase Positions identified in (i) and (ii) at that Business Day's Closing Price;

- (b) all Open Contracts represented by:
 - (i) the Brought Forward Position in respect of Sale Positions; and
 - (ii) each New Contract Position comprising Sale Positions,

shall be treated as being discharged and replaced by a single Open Contract comprising the aggregated Sale Positions identified in (i) and (ii) at that Business Day's Closing Price,

and such Open Contracts shall be deemed to come into effect pursuant to the Rules.

5.13 Calculation of Realised Variation Margin

5.14 For each Account, LME Clear shall determine, in respect of each Instrument in a relevant Net Position Product for which End of Day Positions have been calculated in accordance with Clearing Procedure B5.8 and 5.9 or B5.11 and 5.12 above, the Realised Variation Margin resulting as a consequence of such calculations. In order to do so, LME Clear shall calculate, separately in respect of Purchase Positions and Sale Positions for each Instrument:

- (a) the difference between:

Clearing Procedure Part B

- (i) the value of the Brought Forward Position at the previous Business Day's Closing Price; and
 - (ii) the value of the Brought Forward Position at that Business Day's Closing Price;
- (b) in respect of each New Contract Position, the difference between:
- (i) the value of such New Contract Position at the Execution Price of the Contract; and
 - (ii) the value of the Contract at that Business Day's Closing Price,
- (and for the avoidance of doubt, this calculation in (b) shall be performed in respect of each New Contract Position arising in that Business Day); and
- (c) the sum of the calculations in (a) and (b), which shall represent the Realised Variation Margin.

For the avoidance of doubt, the Realised Variation Margin may be a positive or a negative figure, representing a profit or a loss to either LME Clear or the Member.

- 5.15 The Realised Variation Margin calculated in respect of an Account pursuant to Clearing Procedure B 5.14 above shall represent a Payment Obligation to be made by the party that is at loss (whether this is LME Clear or the Member) to the party that is in profit. Such Payment Obligation shall be discharged as a Cash Settlement in accordance with Clearing Procedure E.

6. OPTION EXERCISE AND ASSIGNMENT

- 6.1 The rules applying to the exercise and assignment of rights under Option Contracts (the "**Option Exercise Rules**") are specific to each Eligible Product. 6.10 LME Clear shall exercise its options in the circumstances described in Clearing Procedure B6.9 above by selecting one or more Members who are Option Granters under Open Contracts against whom to exercise its options. LME Clear shall make such selection:

Clearing Procedure Part B

7. DELIVERY POSITIONS

7.1 The following table specifies:

- (a) those Eligible Products that are Physically Settling Products; and
- (b) the Underlying Asset that is to be delivered on settlement of Contracts for each such Physically Settling Product.

Physically Settling Product	Delivery Commodity – the Underlying Asset
LME Exchange Traded Forwards	LME Warrants
LMEprecious Futures	Unallocated Precious Metal
OTC Bullion Forwards	Unallocated [Bullion]

7.2 Contracts for Physically Settling Products are defined as Physical Delivery Contracts pursuant to Rule 1 (*Definitions and Interpretations*).

7.3 LME Clear shall determine, in respect of each Account maintained by the Member, a net Delivery Position in respect of all Positions under Instruments comprised of Physical Delivery Contracts remaining open at the time of their expiry. Such net Delivery Position shall be determined by reference to the Settlement Price for the Underlying Asset on the Prompt Date, and shall comprise:

- (a) a single Payment Obligation in respect of each Settlement Currency under which the Instruments are to be settled;
- (b) (where applicable) a single Payment Obligation comprised by the LME Premium Warrant Payment Obligations in respect of the LME Aluminium Premium Contracts under which the Member is a Buyer;
- (c) a single Delivery Obligation in respect of all obligations to deliver LME Warrants that are not LME Premium Warrants;
- (d) (where applicable) a single Delivery Obligation in respect of each Premium Warrant Jurisdiction relating to LME Aluminium Premium Contracts under which the Member is a Seller; and
- (e) a single Delivery Obligation in respect of all obligations to deliver unallocated Precious Metal in respect of LMEprecious Futures,

and such Payment Obligations and Delivery Obligations shall represent a "**Final Delivery Position**" at the Account level.

7.4 For the discharge of Delivery Obligations in respect of Contracts for which the Underlying Asset is LME Warrants, LME Clear shall determine in respect of each Member, the Warrant Movements required to settle the Final Delivery Positions between LME Clear and the Member, on the following basis:

- (a) separate net and total Warrant Movements shall be established under (b) and (c) below in respect of:

Clearing Procedure Part B

- (i) Delivery Obligations in respect of LME Premium Warrants for each Premium Warrant Jurisdiction; and
 - (ii) Delivery Obligations in respect of LME Warrants other than LME Premium Warrants;
- (b) in respect of the Member's House Account(s), the Final Delivery Positions of each account shall be netted together to produce a single net Warrant Movement;
- (c) in respect of the Member's Client Accounts:
- (i) the Final Delivery Positions for all Client Accounts where the member is the Buyer under the relevant Contracts will be summed to produce a single total "buying" Warrant Movement;
 - (ii) the Final Delivery Positions for all Client Accounts where the Member is the Seller under the relevant Contracts will be summed to produce a single total "selling" Warrant Movement.

Consequently, a Member may have a maximum of three (3) Warrant Movements (in respect of LME Warrants other than LME Premium Warrants) with LME Clear in a single Underlying Asset on a single Business Day.

7.5 For the discharge of Delivery Obligations in respect of Contracts for which the Underlying Asset is unallocated Precious Metal, LME Clear shall determine, separately in respect of Gold and Silver, in respect of each Account of each Member:

- (a) the Delivery Obligations of LME Clear as the Seller; and
- (b) the Delivery Obligations of the Member as the Seller,

in order to determine a net movement of Precious Metal between LME Clear and the Member that is required to settle the Final Delivery Positions between LME Clear and the Member for that Account.

7.6 Delivery Positions (including Warrant Movements) are settled through:

- (a) physical delivery of Underlying Assets by the Seller in discharge of the Delivery Obligation;
- (b) against the discharge of the Payment Obligation by:
 - (i) payment of cash by the Buyer; and
 - (ii) (in respect of LME Aluminium Premium Contracts) the physical delivery by the Buyer of LME Warrants.

7.7 The Settlement Price for Underlying Assets applicable to each relevant Eligible Product is set out in the Product Specifications for the Eligible Product in Annex 1 (*Eligible Products*).

7.8 The delivery process for Underlying Assets under Contracts in respect of:

- (a) LME Exchange Traded Forwards is defined by the LME Rules (including the Rules and procedures applicable to the operation of LMEsword) and is summarised in Clearing Procedure F2 (*LME Warrant Delivery Procedures*); and

Clearing Procedure Part B

- (b) LMEprecious Futures is defined by the LME Rules and is summarised in Clearing Procedure F3 (*LMEprecious Future Delivery Procedures*); and
- (c) OTC Bullion Forwards is set out in Clearing Procedure F4 (*OTC Bullion Delivery Procedures*).

Clearing Procedure Part C

PART C – VALUATION, MARGINING AND RISK MANAGEMENT**1. INTRODUCTION**

This Part C specifies the Clearing Procedures applicable to:

- (a) the composition of Margin Requirements (**Clearing Procedure C2**);
- (b) the calculation of Initial Margin Requirement (**Clearing Procedure C3**);
- (c) the calculation of the Variation Margin Requirement (**Clearing Procedure C4**);
- (d) the calculation of additional margin (**Clearing Procedure C5**); and
- (e) the calculation of Margin Requirements (**Clearing Procedure C6**).

2. COMPOSITION OF MARGIN REQUIREMENTS

2.1 When determining its End of Day Margin Requirement and its Intra-Day Margin Requirement(s) for a Member under Rule 8 (*Margin Requirements and Collateral*), LME Clear may have taken into account the Initial Margin Requirement and/or the Variation Margin Requirement then applicable to such Member (as calculated in accordance with this Clearing Procedure C).

2.2 Members shall maintain sufficient Collateral with LME Clear (including Collateral provided by Posting Affiliates and Posting Clients of the Member) at all times to cover their Margin Requirement as calculated by LME Clear.

2.3 LME Clear shall calculate Margin Requirements:

- (a) on a per-Account basis;
- (b) subject that in relation to Gross Omnibus Segregated Client Accounts, Margin Requirements shall be calculated:
 - (i) separately in respect of Positions having Allocation IDs, on per-Allocation ID basis; and
 - (ii) in respect of all Positions without Allocation IDs in each Account,

(such that each Margin Requirement for the Account shall be the aggregated sum of the corresponding Margin Requirements determined pursuant to (i) and (ii) above for such Account and any other margin requirements imposed in respect of the Account and/or Allocation IDs by LME Clear pursuant to the Rules and Procedures).

3. INITIAL MARGIN REQUIREMENT

3.1 “**Initial Margin Requirement**” is the amount of Collateral required by LME Clear in order to protect itself against potential fluctuations in the market value of a Defaulting Member's open Positions until those Positions are discharged or are closed out, fully hedged, or transferred by LME Clear under Rule 10 (*Default*) following the occurrence of a Default Event.

3.2 The calculation of the Initial Margin Requirements will be based on assumed close-out periods, confidence levels and historical look-back periods in line with the LME Clear margin policy from time to time in force.

Clearing Procedure Part C

- 3.3 The calculation of the Initial Margin Requirement will be made by reference to the most up-to-date novated Positions and LME Clear Price Sets.

Account-Level Initial Margin Requirement

- 3.4 The Initial Margin Requirement will be calculated for each Member in respect of the net Positions on each Account both intra-day and at the end of every Business Day for the following types of Account:

- (a) House Account;
- (b) Direct Individual Segregated Client Account;
- (c) Indirect Individual Segregated Client Account;
- (d) Direct Net Omnibus Segregated Client Account; and
- (e) Indirect Net Omnibus Segregated Client Account.

- 3.5 For the types of Accounts identified in Clearing Procedure C:3.4, margin limits will be set by LME Clear for all Members on all Accounts and payment of margin will be called from a Member in respect of its net Positions on its Accounts on an intra-day basis in the event that margin limits or any applicable Risk Thresholds have been exceeded. For the avoidance of doubt, a reduction in value of the Collateral provided by the Member (or its Posting Affiliate or Posting Client) to LME Clear may cause such limits or Risk Thresholds to be exceeded, resulting in a requirement for payment of additional margin by the Member.

Initial Margin Requirement for Accounts with Allocation IDs

- 3.6 For Gross Omnibus Segregated Client Accounts:
- (a) the Initial Margin Requirement will be calculated for each Member in respect of the net Positions for each Allocation ID allocated to each Account intra-day and at the end of every Business Day;
 - (b) in respect of Positions that have not been allocated to an Allocation ID, the Initial Margin Requirement will be calculated for each Member in respect of:
 - (i) the net Positions on each Account intra-day; and
 - (ii) the gross Positions on each Account at the end of every Business Day; and
 - (c) the Initial Margin Requirement for each Account, both intra-day and at the end of every Business Day, shall be the respective aggregates of the Initial Margin Requirements calculated pursuant to (a) (in respect of all Allocation IDs in the Account) and (b).
- 3.7 For the types of Accounts identified in Clearing Procedure C:3.6, margin limits will be set by LME Clear for all Members on all Accounts (at an Account-level) and, in the event that any applicable margin limits or Risk Thresholds are exceeded, payment of margin will be called from a Member. For the avoidance of doubt, a reduction in value of the Collateral provided by the Member (or its Posting Affiliate or Posting Client) to LME Clear may cause such limits or Risk Thresholds to be exceeded, resulting in a requirement for payment of additional margin by the Member.

Clearing Procedure Part C

Initial Margin Methodology

3.8 The Initial Margin Requirement will be calculated using the SPAN methodology. Details of the SPAN methodology are available on the Website.

3.9 The SPAN parameters are set by LME Clear in accordance with LME Clear's "Risk Policy", as amended by LME Clear from time to time. The level of the parameters is actively monitored and subject to regular review by LME Clear. Members will be informed of any changes to SPAN parameters by a Member circular published by LME Clear on its Website and through an email to each Member's designated email address.

4. VARIATION MARGIN REQUIREMENT

4.1 "**Variation Margin Requirement**" is the amount of Collateral required by LME Clear in order to protect itself against losses that have accumulated on any open Positions of a Member prior to a Default Notice being issued by LME Clear in relation to such Member.

4.2 The Variation Margin Requirement will be calculated by reference to each type of Contract as follows:

(a) Exchange Traded Futures and LMEprecious Futures will be margined as realised profits and losses using the "**Realised Variation Margin**" ("**RVM**") approach, which is calculated as the difference between:

- (i) the contract value of today's trades and the value of any carried forward Positions; and
- (ii) the Position value as at the time of calculation of the Variation Margin Requirement,

in accordance with the more detailed Settlement to Market Process set out in Clearing Procedure B4.

(b) Exchange Traded Forwards and Exchange Traded Monthly Average Futures are margined as liabilities or contingent credits using the "**Discounted Contingent Variation Margin**" ("**DCVM**") approach, which is calculated as the difference between:

- (i) the contract value of the original transaction; and
- (ii) the contract value as at the time of calculation of the Variation Margin Requirement.

(c) OTC derivatives are margined as a cash amount using the "**Cash Contingent Variation Margin**" ("**CCVM**") approach, which is calculated as the daily change in the difference between:

- (i) the contract value of the original transaction; and
- (ii) the contract value as at the time of calculation of the Variation Margin Requirement,

inclusive of an adjustment for Price Alignment Interest.

Clearing Procedure Part C

- (d) options are margined as liabilities or contingent credits using the "**Net Liquidation Value**" ("**NLV**") approach, which is calculated as the current value of the option Position.
- 4.3 The calculation of the Variation Margin Requirement will be based on the most up-to-date Accepted Positions and LME Clear Price Sets.
- 4.4 Variation Margin Requirements will be calculated and payment shall be called at least once every Business Day as:
- (a) part of the End of Day Margin Requirement (in respect of the DCVM and NLV); or
 - (b) a Payment Obligation (in respect of the RVM or CCVM),
- the Cash Settlements in respect of which shall be determined in accordance with the Cover Distribution Process set out in Clearing Procedure D5.
- 4.5 LME Clear reserves the right to call for payment of an Intra-Day Margin Requirement at any point during the Business Day.
- 4.6 All contingent variation margin credits may be used to offset all Margin Requirements and other contingent variation margin debits, but contingent credits may not be realised as cash. Notwithstanding the foregoing, in a Gross Omnibus Segregated Client Account, such offset shall be applied on a per-Allocation ID basis, such that no offset shall be applied between Allocation IDs.
- 4.7 All payment balances due to or from a Member pursuant to the calculation of the Member's Variation Margin Requirement shall be discharged by Cash Settlements that are determined pursuant to the Cover Distribution Process set out in Clearing Procedure D5.
5. **ADDITIONAL MARGIN**
- 5.1 LME Clear may, in accordance with Rule 8 (*Margin Requirement and Collateral*), require a Member to provide additional Collateral if it determines that further amounts of Collateral are necessary to satisfy the Member's Margin Requirement. For example (but without limitation), LME Clear may request additional Collateral where it believes that the risk of a Position is not sufficiently covered by the existing Collateral provided by the Member in respect of the Initial Margin Requirement and the Variation Margin Requirement (as included in the then current Margin Requirement for the Member). Risks that may be covered by additional Collateral include (but are not limited to):
- (a) delivery risk (that is, the risk that the Member will not fulfil a Delivery Obligation in respect of one or more Contracts);
 - (b) concentration risk (the risk that the Member's Account(s) cannot be liquidated within the close out period assumed by the Initial Margin Requirement);
 - (c) wrong-way risk (the risk that the Member or the Member's Positions has excessive negatively correlated exposure to collateral assets provided as Collateral);
 - (d) credit risk (the increased risk of a Member defaulting in the performance of its obligations to LME Clear as determined by the LME Clear internal credit ratings).

Clearing Procedure Part C

5.2 Any amounts to cover delivery risk will be payable in Cash.

6. CALCULATION OF MARGIN REQUIREMENTS

6.1 End of Day Margin Requirement

End of Day Margin Requirements are calculated net of cash settlements. Calculated risk is compared with any remaining Cash Collateral balance and non-cash Collateral, after the appropriate Haircut and any other applicable parameters or limits set by the Rules (including the applicable Collateral Limits), have been applied, and any shortfall requested in cash.

6.2 Intra-day Exposures

LME Clear reserves the right to apply an additional amount to the End of Day Margin Requirement where a Member regularly takes on proportionately larger intra-day exposure than remain at End of Day. The additional Margin Requirement shall be as determined by LME Clear, in accordance with such principles as may be specified in the "Collateral Management Framework" available on the Website.

6.3 Intra-Day Margin Requirement

(a) Intra-day risk is continuously compared with the post-Haircut valuation applicable to Collateral and the applicable Collateral Limits to ensure that sufficient Collateral is available to LME Clear. LME Clear will set risk thresholds ("**Risk Thresholds**") to determine:

- (i) when additional Collateral will be required; and/or
- (ii) whether a Transaction may become Accepted, where such Transaction is agreed via the LME Inter-Office Market.

and LME Clear shall determine any additional amount of Collateral that may be required to cover such intra-day risk and such calculation shall comprise the Intra-Day Margin Requirement.

(b) Additional Collateral will be requested from a Member whenever its Risk Threshold has been exceeded or where LME Clear believes that the value of available Collateral has been significantly eroded or otherwise as maybe required under Clearing Procedure C7 below. Members shall provide additional Collateral which is requested intra-day in the form of Eligible Cash unless LME Clear instructs otherwise. Members shall provide such additional Collateral promptly, and in any event not later than sixty (60) minutes after receipt from LME Clear of its request for such Additional Collateral.

6.4 Regular Intra-day Margin Call

Without prejudice to LME Clear's right under Rule 8 (*Margin Requirement and Collateral*) to require Members to satisfy Margin Requirements at any time during a Business Day, LME Clear may specify a regular margin call to meet an Intra-Day Margin Requirement at 14:00 hours (or at such other time as it may specify) on each Business Day.

Clearing Procedure Part C

7. MEMBER'S OBLIGATION TO ENSURE TRANSACTIONS ARE COLLATERALISED

- 7.1 It is the responsibility of each Member to monitor the Transactions it enters into, is likely to enter into, or is otherwise responsible for clearing, and to post additional Collateral if the Member anticipates that such Collateral may be required.
- 7.2 In the event that any Member fails, on multiple occasions, to post sufficient Collateral to cover the additional risk arising from Transactions entered into on LMEselect outside the opening hours of LME Clear (as specified in the Opening Hours Circular), LME Clear may require such Member to provide additional Collateral (including in advance of the Member entering into, or permitting any Client to enter into, any such Transactions).
- 7.3 All obligations of a Member to provide Collateral in respect of the Member's House Account may be met by that Member's Posting Affiliate providing Eligible Collateral in respect of that obligation. All obligations of a Member to provide Collateral in respect of a Designated Client Account may be met by the relevant Posting Client providing Eligible Collateral in respect of that obligation.

Clearing Procedure Part D

PART D – TREASURY AND COLLATERAL MANAGEMENT**1. INTRODUCTION**

This Part D of the Clearing Procedures specifies the Clearing Procedures applicable to:

- (a) the treasury management arrangements to be applied by LME Clear (**Clearing Procedure D2**);
- (b) approved forms of Collateral to be provided to LME Clear (**Clearing Procedure D3**);
- (c) LME Clear's arrangements for the management of Collateral (**Clearing Procedure D4**); and
- (d) LME Clear's process for cover distribution (**Clearing Procedure D5**).

2. LME CLEAR TREASURY ARRANGEMENTS

- 2.1 At any time, relevant details of LME Clear's investment policy in force at that time will be published on its Website.
- 2.2 LME Clear's Treasury function will on a daily basis re-invest Cash Cover, in accordance with its investment policy. Investment decisions will be taken within the context of LME Clear's Risk Appetite and any proceeds of such investment activity will be solely for the account of LME Clear.
- 2.3 LME Clear may pay interest on (or, if the rate of interest is negative, deduct interest) Cash Cover deposited by Members with LME Clear, pursuant to Rule 8.3.3 and 9.1.4. The amount of interest paid is at the discretion of LME Clear and is not required to be linked to, or dependent upon, the earnings made by LME Clear from the investments.

3. ACCEPTABLE FORMS OF COLLATERAL**3.1 Approved types of Collateral**

- 3.2 The following assets and instruments may be provided by a Member to satisfy its Margin Requirement:
 - (a) Eligible Cash;
 - (b) Eligible Securities;
 - (c) Eligible Gold;
 - (d) LME Warrant Collateral; and
 - (e) such other assets, rights, interests and instruments with such eligibility criteria as LME Clear may from time to time specify,

provided that in each case it is made available in such manner and on such terms as LME Clear considers necessary to comply with the applicable requirements of EMIR. In particular, LME Warrant Collateral shall only constitute Eligible Collateral in relation to any liabilities under one or more Open Contracts between LME Clear and the Member relating to the same metal as the Underlying Metal for such LME Warrant Collateral.

Clearing Procedure Part D

- 3.3 To manage its concentration risk, LME Clear requires that each Member maintains a minimum proportion and/or minimum amount of its Collateral in Eligible Cash. This minimum proportion and/or minimum amount is set out in the Collateral Specifications. LME Clear may alter this minimum proportion and/or minimum amount at any time. LME Clear may specify in the Collateral Specifications the Eligible Currency in which this minimum proportion and/or minimum amount must be paid to LME Clear.
- 3.4 Any Collateral or Default Fund Contributions which is not, or ceases to be, immediately accessible or otherwise available to LME Clear to use or liquidate (whether pursuant to enforcement, set-off or otherwise) shall not be eligible including the following: (a) Collateral or Default Fund Contribution which ceases to be immediately accessible by LME Clear due to the insolvency or default of any Custodian, Securities Systems Operator, central securities depository, bank (including any Approved Settlement Bank), Warehouse, the LMEsword Depository or other person holding or processing Collateral or Default Fund Contributions or any sanctions or embargo impacting any of the foregoing parties shall not be eligible for the duration of the period during which it is not immediately accessible by LME Clear; (b) the currency in which any Cash Cover is held is not, or ceases to be, fully liquid, exchangeable and transferable or is otherwise the subject to currency controls, as a result of which LME Clear determines that Cash Cover in such currency is not appropriate; and (c) in the case of LME Warrant Collateral, the relevant LME Warrants are cancelled, or the Warehouse or the relevant Member fails to perform its obligations under the related Warehouse Agreement and/or contract of storage (including, without limitation, in relation to the maintenance of insurance and the payment of rent and weight adjustments). In the event that any Collateral or Default Fund Contributions provided by a Member (or by a Posting Affiliate or Posting Client) ceases to be eligible, the Member shall immediately provide such additional Collateral or Default Fund Contributions as may be required to ensure that the Member is in compliance with the Rules (including in the case of Collateral Rule 8.1).
- 3.5 Any Collateral that does not conform to the requirements of this Clearing Procedure D will be ineligible at LME Clear. If any is received, it will be subject to a one hundred per cent (100%) Haircut and returned as soon as is practicable but subject to the provisos in Rule 8.7.2.
- 3.6 Collateral (other than LME Warrant Collateral) may be denominated in any Eligible Currency in accordance with the criteria specified in the Rules, including the Procedures and Annexes. Haircuts will be applied to Eligible Collateral on the basis determined by LME Clear from time to time (and as set out in Annex 2). In the event that Collateral (other than LME Warrant Collateral) is denominated in an Eligible Currency other than that of the liability which it collateralises a further Haircut will be applied in order to address the additional foreign exchange exposure.
- 3.6A Notwithstanding Clearing Procedure D3.6 and D3.7, where LME Clear determines it is necessary or appropriate, LME Clear may specify to a Member, to multiple Members, or to Members generally, that Collateral shall be paid in a specific Eligible Currency. In such circumstances, such Member(s) shall provide Collateral in such specified Eligible Currency.
- 3.7 **Cash Collateral**
- 3.8 The part of a Member's Cash Collateral held in a particular Eligible Currency may not at any time exceed the Collateral Limits, if any, set out in Annex 2 (*Eligible Currencies, Collateral and Haircuts*).

Clearing Procedure Part D

- 3.9 Cash Collateral will be collected through the Secure Payment System.
- 3.10 Members will be requested to satisfy all margin calls in cash in the currency required by LME Clear. Only an Eligible Currency set out in the Collateral Specifications may be used as Collateral for this purpose. Where LME Clear requires all Cash Collateral to be provided in a single Eligible Currency, it will specify the relevant currency in the Collateral Specifications.
- 3.11 LME Clear reserves the right to add or remove a currency as an Eligible Currency at any time and otherwise to amend or replace the Collateral Specifications at any time.
- 3.12 The exchange of Cash Collateral from one Eligible Currency to another Eligible Currency or from cash to non-cash Collateral (or vice versa) may be carried out only in accordance with the substitution procedure set out in Clearing Procedure D4.5 to 4.13 below.
- 3.13 **Securities Collateral**
- 3.14 All a Member's right, title and interest in and to any Securities Collateral (together with any accrued interest) provided by that Member shall be charged to LME Clear under the Security Documents.
- 3.15 Securities Collateral will be delivered by the Member either to LME Clear or to a depository institution approved by LME Clear (as listed in Annex 2 (*Eligible Currencies, Collateral and Haircuts*)) which will hold such Securities Collateral to the order of LME Clear. If such Securities Collateral consist of securities, the title to which is evidenced by entries in a register or account maintained by or on behalf of an intermediary, the Member will cause those securities to be credited to a securities account in the name of LME Clear (or the Custodian, Securities System Operator or nominee acting for LME Clear) at such intermediary and on such terms as LME Clear may require (consistent with the procedures applicable to securities accounts held with the relevant intermediary).
- 3.16 Securities Collateral will be valued, for collateral valuation purposes, on such basis and subject to such Haircuts or other adjustments, as may be determined by LME Clear from time to time. Securities Collateral may be denominated in an Eligible Currency other than that of the liability which it collateralises (in which case an appropriate Haircut will be applied).
- 3.17 Any dividend, interest or other income earned or paid on Securities Collateral which is received by LME Clear will be added to the Member's Collateral once received (and, where the Member maintains multiple accounts with LME Clear, will be allocated by LME Clear amongst the Account or Accounts in respect of which the relevant securities were delivered), unless the Member has defaulted in payment of any of its obligations to LME Clear, in which case LME Clear may first liquidate such securities and apply all or part of them, including any interest earned on them, as provided for in Rule 10 (*Default*).
- 3.18 **Gold Collateral**
- 3.19 Gold Collateral may be provided by a Member only by means of credit to an Unallocated Gold Account in the name of LME Clear with the Gold Custodian in accordance with Annex 2 (*Eligible Currencies, Collateral and Haircuts*). LME Clear may convert all or part of the credit balance on such account into allocated Gold to be held on such terms and for such period as it may direct. Only allocated Gold shall be Eligible Collateral and so unless and until LME Clear has converted such unallocated Gold into allocated Gold, and only for so long as LME Clear holds allocated Gold, shall such Gold count against the Member's

Clearing Procedure Part D

Margin Requirement. The Member shall have no proprietary interest in any Gold Collateral and any such allocated Gold, which LME Clear shall hold as sole legal and beneficial owner (free from any right, title or interest of the Member or any third party).

3.20 If and when Gold Collateral becomes returnable in whole or part to the Member, the relevant amount will be credited to the Member's Unallocated Gold Account with such member of LPMCL as the Member shall direct. The crediting of the relevant amount to such account will be a good discharge of LME Clear's obligations for the return of such amount.

3.21 LME Warrant Collateral

3.22 A Member shall create security over all LME Warrant Collateral in favour of LME Clear in accordance with the terms of the Security Documents. In the case of the Affiliate Posting Structure, the Posting Affiliate shall collateralise the performance by a Member of certain of its present and future obligations to LME Clear in respect of the Member's House Account in accordance with the terms of the relevant Affiliate Security Documents. In the case of the Client Direct Posting Structure, the Posting Client shall collateralise the performance by a Member of certain of its present and future obligations to LME Clear in respect of the relevant Designated Client Account in accordance with the terms of the relevant Posting Client Security Documents.

3.23 Eligible LME Warrants comprising LME Warrant Collateral will be transferred by the Member to the LME Clear Pledged Account in LMEsword notified to it by LME Clear from time to time.

3.24 LME Warrant Collateral will be valued, for collateral valuation purposes, on such basis and subject to such Haircuts or other adjustments as may be determined by LME Clear from time to time. LME Warrants (and, therefore, any corresponding rights or interests that would constitute LME Warrant Collateral if such LME Warrants were Eligible Warrants) may only be accepted by LME Clear as Eligible Collateral if there are no outstanding rent payments at the time of the eligibility assessment and no Rent Date will occur in relation to such LME Warrants within five (5) Business Days of the eligibility assessment.

3.25 In order to provide LME Warrant Collateral in connection with the Client Direct Posting Structure, the Posting Client shall instruct its Member to make an Ex-cleared Transfer Instruction in LMEsword to the LME Clear Pledged Account in respect of the relevant LME Warrants held by it in the relevant sub-account in LMEsword held by the Member on behalf of such Posting Client. Where any LME Warrants provided by a Posting Client are to be returned to the Posting Client, LME Clear shall make an Ex-cleared Transfer Instruction in LMEsword to the relevant sub-account in LMEsword held by the Member on behalf of such Posting Client from the LME Clear Pledged Account.

3.26 Security Documents

3.27 In order to collateralise all its obligations, liabilities and debt of any kind (present or future, actual or contingent) to LME Clear under the Rules or in relation to the operation of the Clearing System, each Applicant will, prior to its admission as a Member and where required by LME Clear, deliver to LME Clear (or as it may otherwise direct) one or more duly executed Security Documents, for each Posting Affiliate, one or more duly executed Affiliate Security Documents and for each Posting Client and one or more duly executed Posting Client Security Documents, in such terms as LME Clear may require. The Security Document(s) will, and the Affiliate Security Document(s) and the Posting Client Security Document(s) that create security will, include a perfected, first-ranking, fixed security interest (or the equivalent under the law of any jurisdiction outside England and Wales) over

Clearing Procedure Part D

all Asset Cover (other than cash) provided by it to LME Clear (or its agents, Custodians or Securities System Operator) pursuant to the Rules.

- 3.28 The Security Documents and the Affiliate Security Document(s) (where required by LME Clear) will collateralise all obligations, liabilities and debt of the Member to LME Clear whether (in LME Clear's books of account) such transactions are recorded in a Client Account or House Account of the Member or otherwise. The Posting Client Security Document(s) (where required by LME Clear) will collateralise all obligations, liabilities and debt of the Member to LME Clear in respect of transactions that are recorded in the relevant Designated Client Account.
- 3.29 Money received or realised by LME Clear on any enforcement of the Security Documents, the Affiliate Security Document(s) or the Posting Client Security Document(s) will, where LME Clear maintains in its books of account one or more Client Accounts and House Accounts for the relevant Member, be applied in the proportions and subject to the restrictions on the use of Client Collateral applicable under the Rules.
- 3.30 LME Clear may require a Member to grant a subordinated or other Security Interest (pursuant to documentation in a form specified by LME Clear) to its Clients over any rights of the Member in, and/or any rights of the Member to the return of, any Collateral provided by the Member which is recorded on a Client Account to facilitate LME Clear's observance of (i) Article 48(5) or (6) of the EMIR Level 1 Regulation and Rule 10.7 and (ii) Article 48(7) of the EMIR Level 1 Regulation and Rule 10.5.1(c).

4. COLLATERAL MANAGEMENT

4.1 General Information

Without prejudice to LME Clear's rights under Clearing Procedure C (*Valuation, Margining and Risk Management*):

- (a) LME Clear may determine what will be acceptable to it as Eligible Collateral and will also determine when any form of collateral will cease to be acceptable as Eligible Collateral;
- (b) LME Clear may determine the Haircuts to be applied to the valuations of Eligible Collateral and will also determine when such Haircuts will be subject to change (the list of Eligible Collateral and Haircuts is set out in Annex 2 (*Eligible Currencies, Collateral and Haircuts*));
- (c) LME Clear will only accept delivery of non-cash Collateral in accordance with these Clearing Procedures;
- (d) LME Clear reserves the right to change the information required on instructions received via the LMEmercury GUI whenever LME Clear considers that it would be appropriate to do so; and
- (e) LME Clear may declare that LME Warrant Collateral posted by a Posting Affiliate or Posting Client is no longer Eligible Collateral in respect of a Member's Margin Requirement at any time, in LME Clear's sole discretion, including but not limited to where there has been a material decrease in the creditworthiness of such Posting Affiliate or Posting Client. In such case, the Member shall immediately on request by LME Clear deliver additional Collateral in order that the Member's Margin Requirement is met.

Clearing Procedure Part D

4.2 Collateral Settlement

- (a) All non-cash Collateral deposited with LME Clear will be subject to the application of fees and charges levied at the discretion of LME Clear.
- (b) It will only be possible for a Member to deposit with LME Clear non-cash Collateral after its acceptability has been agreed or verified through the LMEmercury GUI.
- (c) Non-cash Collateral transfers initiated through the LMEmercury GUI generate the appropriate straight-through processing ("**STP**") messages for the relevant LME Clear collateral agents. Members will need to instruct their own agents directly to avoid unmatched transactions; alternatively, Members may provide LME Clear with a Power of Attorney to address this requirement.
- (d) All transactions to lodge or withdraw securities from LME Clear will be executed as "free of payment".
- (e) All transactions to transfer LME Warrants in LMEsword to or from the LME Clear Pledged Account will be executed via an Ex-cleared Transfer Instruction.

4.3 Additional Collateral Management Charge

- (a) Where a Member has deposited Eligible Collateral with LME Clear that exceeds the required Margin Requirement, or Excess Collateral has otherwise arisen as a consequence of changes to the Market Value of the deposited Eligible Collateral, LME Clear may request a Member to withdraw the Excess Collateral. (By way of example, but without limitation, this may occur where LME Clear may incur financial exposure or charges as a consequence of holding such Excess Collateral). If the Member is unable to comply with the request to remove the Excess Collateral, LME Clear may either:
 - (i) in the case of cash, return an appropriate amount to the Member; or
 - (ii) where it is able to do so, return the securities, Gold or LME Warrant Collateral to the Member, its Posting Affiliate or its Posting Client; or
 - (iii) levy an "Additional Collateral Management Charge" (or "**ACMC**") on the Member.

Where LME Clear attempts to return securities, Gold or LME Warrant Collateral to the Member, its Posting Affiliate or its Posting Client pursuant to this Clearing Procedure D 4.3(a), the Member, its Posting Affiliate or its Posting Client shall take any and all such actions as may be necessary to facilitate the relevant transfers including, in the case of LME Warrant Collateral, by executing any necessary Ex-Cleared Transfer Accept Instructions (as such term is defined in the LMEsword Regulations).

- (b) An ACMC will be charged from the date the Member was requested to remove the Excess Collateral until the date of its removal, and will be collected monthly in arrears by deduction from the Member's House Account.

Clearing Procedure Part D

4.4 **Insurance**

It is the responsibility of a Member to maintain adequate insurance against such risks as it deems appropriate (or as may be required by LME Clear) in respect of all non-cash assets lodged as Collateral with LME Clear.

4.5 **Collateral Substitutions and Transfers**

4.6 A substitution or transfer of Collateral is permitted only in accordance with Clearing Procedure D4.7(a) or D4.7(b) or with the prior written consent of LME Clear in each specific instance, provided that in each case the Member has given prior notice via the LMEmercury GUI (such notice being for the minimum period specified in Annex 2 (*Eligible Currencies, Collateral and Haircuts*)) to LME Clear of its request for such substitution or transfer and LME Clear is able to carry out such substitution or transfer. If a Member requests a substitution or transfer without giving such minimum prior notice, LME Clear may decline to effect such substitution or transfer until the end of the required notice period. LME Clear may impose such limits (either generally or in respect of a particular Member) as it may choose on the minimum and maximum amounts of any substitutions and transfers which may be carried out by a Member and on their frequency and may alter such limits from time to time.

4.7 A Member may from time to time request LME Clear to release Collateral provided by it, its Posting Affiliate or its Posting Client:

- (a) after payment to LME Clear of Eligible Cash in substitution for the Collateral to be released (a "**Substitution of Cash**"); or
- (b) after transfer to LME Clear of Eligible Collateral (other than cash), including the transfer of LME Warrant Collateral by a Posting Affiliate or Posting Client, in substitution for the Collateral to be released (a "**Substitution of Non-cash Assets**"); or
- (c) where the Collateral Value of such Collateral at the relevant time represents an excess in the Margin Requirement then applicable to the Member (an "**Excess Release**"),

provided that in each case the amount to be substituted or withdrawn exceeds the *de minimis* levels specified in Annex 2 (*Eligible Currencies, Collateral and Haircuts*) for such purpose.

4.8 Each request for a Substitution of Cash, Substitution of Non-cash Assets or Excess Release will be acted upon only upon LME Clear being satisfied that:

- (a) the Collateral Value of the Eligible Collateral provided by the Member, its Posting Affiliate or its Posting Client (both immediately prior to, and immediately after, giving effect to that release and applying the appropriate Haircut to the new Eligible Collateral) would be more than the Margin Requirement then applicable to the Member and such Eligible Collateral is not of a type which would breach any Collateral Limits (such as concentration limits) or any requirement for a minimum proportion and/or a minimum amount from time to time specified by LME Clear or, in the opinion of LME Clear, would create any additional risks (such as wrong way risk);
- (b) no Default Event has occurred and is continuing in relation to the Member; and

Clearing Procedure Part D

- (c) no circumstance referred to in Rule 2.4.1 or 2.4.4 has occurred and is continuing which may adversely affect the execution or pricing of such substitution.

4.9 If a Default Event has occurred and is continuing in relation to the Member, LME Clear will not release such Collateral unless and until otherwise expressly agreed by it.

4.10 In the case of a request to release Collateral in return for a Substitution of Cash, then where:

- (a) the Collateral transferred to LME Clear on that substitution is Eligible Cash;
- (b) the amount of Eligible Cash so transferred to LME Clear is such that its Market Value (less the appropriate Haircut) is not less than the Market Value (less the appropriate Haircut) of the Eligible Collateral being released on that substitution;
- (c) the requirements set out in Clearing Procedure D4.8 above are fulfilled;
- (d) LME Clear has consented to the Substitution of Cash (which may be conditional on the above requirements being fulfilled); and
- (e) the Substitution of Cash would not result in the breach of any applicable Collateral Limits,

LME Clear will promptly arrange for the release of that Eligible Collateral in accordance with its usual practice as specified in Clearing Procedure D4.16 below.

4.11 In the case of a request to release Collateral in return for a Substitution of Non-cash Assets, then where:

- (a) the Collateral transferred to LME Clear on that substitution is Eligible Collateral;
- (b) the amount of Eligible Collateral so transferred to LME Clear is such that its Market Value (less the appropriate Haircut) is not less than the Market Value (less the appropriate Haircut) of the Eligible Collateral being released on that substitution;
- (c) the requirements set out in Clearing Procedure D4.8 above are fulfilled;
- (d) LME Clear has consented to the Substitution of Non-cash Assets (which may be conditional on the above requirements being fulfilled);
- (e) the Substitution of Non-cash Assets would not result in the breach of any applicable Collateral Limits; and
- (f) in respect of a substitution of LME Warrant Collateral by a Member, its Posting Affiliate or Posting Client, the Member has provided to LME Clear prior to 11:00 a.m. on the day that such LME Warrant Collateral is to be substituted:
 - (i) the "Warrant ID" in respect of the corresponding LME Warrant; and
 - (ii) whether such LME Warrant Collateral is posted by the Member, by a Posting Affiliate in relation to the Affiliate Posting Structure, or by a Posting Client in relation to the Client Direct Posting Structure,

LME Clear will promptly arrange for the release of that Eligible Collateral in accordance with its usual practice as specified in Clearing Procedure D4.16 below.

4.12 In the case of a request to release Collateral as part of an Excess Release, then where:

Clearing Procedure Part D

- (a) the requirements set out in Clearing Procedure D4.8 above have been fulfilled;
- (b) LME Clear has consented to the release (which may be conditional on the above requirements being fulfilled); and
- (c) the release of Collateral would not result in the breach of any applicable Collateral Limits,

LME Clear shall promptly arrange for the release of that Eligible Collateral in accordance with its usual practice as specified in Clearing Procedure D4.16 below.

4.13 Notwithstanding the foregoing provisions of this Clearing Procedure D, LME Clear shall have discretion whether to give or refuse its consent under Clearing Procedure D4.10 to 4.12 and, for this purpose, will run such series of limit and availability checks as it deems appropriate before deciding whether or not to release any Collateral.

4.14 Collateral Timetable

4.15 The following Table specifies the timescales within which Members shall ensure that Collateral called by LME Clear is deposited with LME Clear. All times are London times.

- 4.16 The following Table specifies the timescales within which LME Clear will endeavour to release to a Member Collateral that the Member has requested (where LME Clear has agreed to release such Collateral in accordance with these Clearing Procedures). These timescales are indicative only and are not contractually binding on LME Clear, and are subject to the Collateral Limits specified in Annex 2 (*Eligible Currencies, Collateral and Haircuts*) (see Collateral Management / Acceptable Collateral / Documents). The withdrawal timelines also assume that sufficient Collateral is in place with LME Clear to meet the Member's Margin Requirement prior to release of the requested Collateral, and will remain sufficient following the release of the requested Collateral:

4.17 **Expiry, Payment of Rent and Withdrawals**

- (a) Members will be required to withdraw non-cash Collateral prior to its expiry date.
- (b) In the case of LME Warrants, LME Clear will notify Members of the forthcoming occurrence of a Rent Date on the day falling five Business Days prior to such Rent Date. Members may be required to withdraw LME Warrants (including any LME Warrants posted by a Posting Affiliate or Posting Client), immediately upon request from LME Clear either at any time where such LME Warrants have unpaid rent outstanding or at any time on or after the day falling five (5) Business Days before the Rent Date.
- (c) The Haircut applied to non-cash Collateral will be amended to one hundred per cent (100%) within such period prior to its expiry as is specified in Annex 2 (*Eligible Currencies, Collateral and Haircuts*) or, in the case of LME Warrant Collateral, from and including the day falling three (3) Business Days prior to the due date for payment of rent.
- (d) In the case of a request to substitute, transfer or release LME Warrant Collateral the Haircut applied to the LME Warrants which are the subject of such substitution, transfer or release will be amended to one hundred per cent (100%) from the time that such request is received by LME Clear.

4.18 **Interpretation of "take", "release" and "return" of Collateral**

4.19 Where in the Rules LME Clear is stated to "take" any Collateral it shall mean the following:

- (a) in the case of any Cash Collateral, exercising a right of set-off against or deduction from that cash;
- (b) in the case of any Gold Collateral, disposing or otherwise liquidating that Gold;
- (c) in the case of any Securities Collateral, disposing or otherwise liquidating those securities; and
- (d) in the case of any LME Warrant Collateral, disposing of or otherwise liquidating that LME Warrant Collateral,

and depending on the context, "take" shall also mean enforcing any security interest in the relevant Collateral or exercising any right or remedy provided for in any Security Document, any Affiliate Security Document or any Posting Client Security Document in relation to the relevant Collateral or otherwise permitted or provided for by law.

4.20 Where in the Rules LME Clear is stated to "return" or "release" any Collateral to the relevant Member it shall be taken to mean the following:

Clearing Procedure Part D

- (a) in the case of any Cash Collateral, paying a sum to that Member equal to that cash;
- (b) in the case of any Gold Collateral, transferring it into the name of that Member or otherwise returning it to that Member as contemplated by Clearing Procedure D 3.20;
- (c) in the case of any Securities Collateral, delivering to that Member securities equivalent to those securities; and
- (d) in the case of any LME Warrant Collateral, instructing an ex-cleared transfer from the relevant LME Clear Pledged Account to such account of the Member in LMEsword or, in the case of LME Warrant Collateral provided by a Posting Affiliate or Posting Client, to the account of such Posting Affiliate or Posting Client in LMEsword, as is notified to LME Clear by the Member for such purposes.

4.21 **Return of Renminbi Collateral**

- (a) Notwithstanding any other provision of Rule 8 (*Margin Requirement and Collateral*) or this Clearing Procedure D, LME Clear may postpone any return that is due to a Member of Cash Collateral denominated in renminbi if and to the extent that LME Clear has not received, or cannot deliver, the same into or from:
 - (i) its Settlement Account at its Approved Settlement Bank; or
 - (ii) its concentration bank account at its relevant Concentration Bank,
 due to renminbi not being, or ceasing to be, sufficiently liquid, exchangeable or transferable or otherwise being the subject of currency controls.
- (b) All payments in respect of Cash Collateral denominated in renminbi will be made solely by transfer to a renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. LME Clear cannot be required to make a payment by any other means (including in bank notes, by cheque or draft or by transfer to a bank account in the People's Republic of China).

4.22 **Renminbi Collateral Delivery**

Once a Member has notified LME Clear of its intention to lodge or withdraw renminbi Cash Collateral, the Member has an obligation to make such lodgement or withdrawal and will be liable for the reasonable costs and expenses of LME Clear in making arrangements for such lodgement or withdrawal should the Member wish to cancel, with LME Clear's agreement, such lodgement or withdrawal for any reason.

5. **COVER DISTRIBUTION**

5.1 "**Cover Distribution Process**" is the name given to the process operated by LME Clear at End of Day on each Business Day in order to calculate the amount of any net Cash Settlements between LME Clear and Members to be processed on the following Business Day. This includes both the Payment Obligations in respect of settled Contracts and the payment of Collateral in satisfaction of Margin Requirements.

5.2 The Cover Distribution Process involves the following steps, which shall be taken separately in relation to each Account:

- (a) Step 1: determine Payment Obligations and calculate Available Cash;

Clearing Procedure Part D

- (b) Step 2: calculate End of Day Margin Requirement;
- (c) Step 3: calculate Available Non-cash Collateral;
- (d) Step 4: calculate Available Cash Collateral;
- (e) Step 5: calculate Minimum Cash Requirement;
- (f) Step 6: determine Cash Settlement payable to or from Member (the Cover Distribution Process calculation).

5.3 These steps are explained in the following paragraphs below.

5.4 **Step 1: Determine Payment Obligations and calculate Available Cash**

5.5 LME Clear shall calculate:

- (a) the amount of cash it holds at End of Day;
- (b) the Payment Obligations, in each currency, and other Cash Settlements that are known to LME Clear to be due to be made on the following Business Day; and
- (c) (for payments in a Forward Dated Currency) the Payment Obligations and other Cash Settlements that are known to LME Clear to be due to be made on the Business Day following the next Business Day,

in order to determine the balance of cash remaining, in each relevant currency, net of such Payment Obligations and other known Cash Settlements (such net balance being the "**Available Cash**").

5.6 For the avoidance of doubt, Payment Obligations include any Fees and other charges payable by the Member, together with those Payment Obligations specified in the table of Cash Settlements set out in Clearing Procedure E 3.3. For the avoidance of doubt, cash held as Default Fund Contributions and any Cash Settlements relating to Default Fund Contributions shall not be included in the calculation in Clearing Procedure D 5.5 above and shall be dealt with as separate Cash Settlements.

5.7 **Separate Process: Delivery Position Settlements for Sellers**

5.8 In order to manage physical delivery risk, LME Clear will only pay Sellers for their physical delivery of any Underlying Assets after the relevant Underlying Asset has been received by LME Clear. Consequently, LME Clear shall effect a Cash Settlement in satisfaction of LME Clear's Payment Obligation separately from any other Cash Settlements calculated and settled under the Cover Distribution Process described under this Clearing Procedure D5.

5.9 **Step 2: Calculation of End of Day Margin Requirement**

5.10 LME Clear shall calculate, in respect of each Account, the following values:

- (a) the Initial Margin Requirement (IM) (*which shall always be a negative value*);
- (b) the Discounted Contingent Variation Margin (DCVM) (*which may be a positive or a negative value*);
- (c) the Net Liquidation Value (NLV) (*which may be a positive or a negative value*); and

Clearing Procedure Part D

- (d) any additional margin determined in accordance with Clearing Procedure C5 (AM) *(which shall always be a negative value)*.

For the avoidance of doubt, when making such calculations for a Gross Omnibus Segregated Client Account, the values to be applied in (a) to (d) above shall be the aggregated values for each such Account (comprising the values for all Allocation IDs, together with any values applicable to any Positions without Allocation IDs), as specified by Clearing Procedure C:2.3(b).

- 5.11 The sum of IM + DCVM + NLV + AM shall be the total End of Day Margin Requirement for the Account. Such End of Day Margin Requirement shall be determined in the Base Currency (USD), unless otherwise specified by LME Clear.
- 5.12 In the event that the End of Day Margin Requirement is a positive number, there shall be no liability to be offset and, due to the contingent nature of DCVM and NLV, the End of Day Margin Requirement to be included in the Cover Distribution Process shall be zero.
- 5.13 **Step 3: Calculation of Available Non-cash Collateral**
- 5.14 The "**Available Non-cash Collateral**" shall be calculated in respect of each Account on the basis that:
- (a) non-cash Collateral held in respect of the Account shall be valued using the End of Day Price Set in order to identify a current value (after any applicable Haircut) for each asset comprised within such Collateral;
 - (b) any non-cash Collateral that is still held by LME Clear but which has been flagged by the Member for withdrawal or substitution on the following Business Day or on the Business Day thereafter (in accordance with Clearing Procedure D4) and any expired non-cash Collateral or Collateral to be withdrawn in accordance with the Clearing Procedure D4.17 shall not be considered to be Available Non-cash Collateral and shall be excluded from the Cover Distribution Process;
 - (c) LME Clear shall treat as available only the non-cash Collateral that is within any applicable Collateral Limits;
 - (d) LME Warrant Collateral will only be considered to be Available Non-cash Collateral if, at least three (3) Business Days prior to any Rent Date in respect of the corresponding LME Warrants, all amounts in respect of rent relating to such LME Warrants (including any amounts due on the applicable Rent Date) have been unconditionally paid in full;
 - (e) LME Warrant Collateral will only be considered to be Available Non-cash Collateral in respect of liabilities under Open Contracts outstanding between a Member and LME Clear which relate to the same metal as the Underlying Metal for such LME Warrant Collateral;
 - (f) LME Warrant Collateral will only be considered to be Available Non-cash Collateral if the Member has provided to LME Clear prior to 11:00 a.m. on the day that such LME Warrant Collateral is provided by way of security to LME Clear:
 - (i) the "Warrant ID" in respect of the corresponding LME Warrant; and

Clearing Procedure Part D

- (ii) whether such LME Warrant Collateral is posted by the Member, by a Posting Affiliate in relation to the Affiliate Posting Structure, or by a Posting Client in relation to the Client Direct Posting Structure; and
 - (g) Rule 10.7.11 and Default Procedure Part D 2.12 shall apply.
- 5.15 **Step 4: Calculation of Available Cash Collateral**
- 5.16 LME Clear shall then determine what proportion and/or amount of the Available Cash can be treated as Cash Collateral.
- 5.17 When making such determination, LME Clear shall have regard to the fact that:
- (a) a Member may have specified, in respect of any Account, that Cash Collateral will only be provided in US Dollars in which case, LME Clear will exclude any other currency credit balances from the Cash Collateral calculation;
 - (b) any Cash Settlement in respect of such 'excluded' currencies shall be settled through the Secure Payment System independently of the Cover Distribution Process. For the avoidance of doubt, Members will be called for, and must settle, all Payment Obligations in the relevant currency and are not permitted to have any debit balances with LME Clear; and
 - (c) LME Clear shall treat as available only the Cash Collateral that is within any applicable Collateral Limits.
- (In the event of a currency holiday for the currency in which the debit balance occurs or which settlement in that currency on the following Business Day is not possible, LME Clear may request cover in an alternative currency.)
- 5.18 The Available Cash in each currency (as calculated under Step 1 and after any applicable Haircut) shall then be validated against the account criteria set by the Member to determine what should be included within the Cover Distribution Process calculation. Available Cash that is included in the Cover Distribution Process calculation is considered to be "**Available Cash Collateral**".
- 5.19 **Step 5: Calculate Minimum Cash Requirement**
- 5.20 For liquidity management purposes LME Clear imposes a "**Minimum Cash Requirement**" that is applicable to each Account maintained by the Member with LME Clear. This requires that for every Account a minimum proportion and/or minimum amount of the End of Day Margin Requirement shall be covered by cash.
- 5.21 The Minimum Cash Requirement is expressed as a percentage and/or an amount which is defined in Annex 2 (*Eligible Currencies, Collateral and Haircuts*).
- 5.22 **Step 6: Cover Distribution Calculation**
- 5.23 Available Cash Collateral and Available Non-cash Collateral are then applied against the End of Day Margin Requirement according to the following rules:
- (a) Subject to Clearing Procedure Part D5.24 below, Available Non-cash Collateral shall be used before Available Cash Collateral, regardless of Haircut or currency.

Clearing Procedure Part D

- (b) Within Available Non-cash Collateral, apply LME Warrant Collateral (including LME Warrant Collateral provided by a Posting Affiliate or Posting Client) in priority to other Available Non-cash Collateral in respect of liabilities under Open Contracts relating to metal of the same type as the Underlying Metal for the applicable LME Warrant Collateral, and otherwise apply assets (other than LME Warrant Collateral) with the lowest combined Haircut in priority to those with higher Haircuts. LME Warrant Collateral shall not be applied other than as set out in this paragraph (b).
- (c) Where any Gold Collateral and any instruments comprising Securities Collateral have the same Haircut, LME Clear shall use the Gold Collateral in priority to the Securities Collateral.
- (d) Where different instruments comprising Securities Collateral have the same Haircut, LME Clear shall:
 - (i) use same-currency assets before cross-currency assets; and
 - (ii) use assets with the shortest tenor first (for example, a five (5) year bond before a 10 year bond).
- (e) Within Available Cash Collateral, where the option to use other currencies in addition to the Base Currency (USD) for cover purposes has been taken, LME Clear shall apply any RMB first, then apply assets with the lowest combined Haircut in priority to those with higher Haircuts, then apply Base Currency (USD) cash.
- (f) The cash balance for each currency on the Account shall not be permitted to be in debit. The Cover Distribution Process therefore calculates three amounts in respect of each Account:
 - (i) the cash amount for each currency required to bring the cash balance on the Account back into credit or to a zero balance;
 - (ii) the cash amount required to ensure that sufficient Collateral is available and within applicable Collateral Limits (including bringing the cash balance on the Account back into credit or to a zero balance); and
 - (iii) the cash amount required to ensure that the Minimum Cash Requirement is available and within applicable Collateral Limits.
- (g) If the Cover Distribution Process calculates that a cash amount shall be payable by the Member under (f) above, for each currency, the cash call made for the Account through the Secure Payment System shall be determined as the largest of these three numbers and shall be discharged as a Cash Settlement.
- (h) If the Cover Distribution Process calculates that the Margin Requirements are covered and the cash balance on the Account is in credit and is greater than the Minimum Cash Requirement and within applicable Collateral Limits, the Member may:
 - (i) leave the excess cash with LME Clear, or
 - (ii) make an individual request for the return of any excess cash, or
 - (iii) have such excess cash, to the extent that it is in excess of any applicable balance agreed between the Member and LME Clear from time to time,

Clearing Procedure Part D

auto-repaid by LME Clear (where such option has been selected by the Member as part of the set-up profile for that Account),

subject in each case to LME Clear's rights under the Rules, including in particular but without limitation any rights to limit or delay repayment of any Excess Collateral under Rule 8 (*Margin Requirement and Collateral*) or Clearing Procedure D4, and provided that any withdrawal would not result in a breach of the Rules including in relation to Collateral Limits.

5.24 Where LME Clear imposes a Minimum Cash Requirement applicable to each Account maintained by a Member with LME Clear, then Available Cash Collateral shall be used before Available Non-Cash Collateral for the purposes of the Cover Distribution Calculation, but only up to the amount of the Minimum Cash Requirement.

5.25 **Excess Cash Auto-repay**

A Member may nominate, in respect of an Account, that any cash balance calculated as being held by LME Clear in excess of its Cash Settlement obligations and Margin Requirements, after application of the Cover Distribution Process and above a level that can be specified by the Member, should be automatically returned to the Member's Settlement Account at the relevant Approved Settlement Bank on the next Business Day or (where the cash balance on the relevant Account is in a Forward Dated Currency) on the Business Day following the next Business Day. Notwithstanding that such option may have been selected by the Member in respect of any Account, LME Clear shall still be entitled to exercise its rights under Clearing Procedure D4 to refuse, delay or impose conditions on any such Excess Release.

5.26 **De minimis Limit for Cash Movements**

LME Clear may apply a *de minimis* limit to cash movements and will not call for or make Cash Settlements for amounts that are below this limit. This limit is defined in Annex 2 (*Eligible Currencies, Collateral and Haircuts*).

5.27 **Currency Centre Opening and Bank Holidays**

- (a) Cash Settlement in any currency shall be made on those Business Days that are days on which cash payments may be facilitated in the country of issue of that currency, unless LME Clear determines that such payments can be made by alternative means on any day on which such country of issue is not capable of facilitating such payments.
- (b) In the event that a Member is due to make a Cash Settlement in a currency on a Business Day which is a bank holiday or a public holiday in the country of issue of that currency, LME Clear may require that the Cash Settlement be made in an alternative currency (in accordance with Rule 2.17 (*Currency Conversion*)) and shall apply the Cover Distribution Process on the basis that the relevant Cash Settlement is to be made in that alternative currency.
- (c) Cash Settlement in renminbi (CNH) shall be made on a US Business Day, in accordance with the timescales for settlements of Cash Collateral (CNH) set out in Clearing Procedures D4.15 and D4.16, as applicable.

Clearing Procedure Part D

5.28 Intra-Day Cover Distribution Process

An intra-day cover distribution run will also take place each Business Day at 14:00 hours which, where relevant, will follow the processes as described in Steps 1 to 6 above, with the exception that any excess cash balances will not be available for repayment. Non-cash Collateral that is held in excess of the Member's Margin Requirement subsequent to this process will be available for same day withdrawal, provided that the cut-off times set out at Clearing Procedure D 4.16 shall continue to be observed.

Clearing Procedure Part E

PART E – SECURE PAYMENT SYSTEM AND CASH SETTLEMENTS**1. INTRODUCTION**

This Part E of the Clearing Procedures specifies the Clearing Procedures applicable to:

- (a) the operation of the Secure Payment System (**Clearing Procedure E2**); and
- (b) Cash Settlements (**Clearing Procedure E3**).

2. SECURE PAYMENT SYSTEM

2.1 LME Clear operates a direct debit system for the transfer of cash to and from the Settlement Accounts of Members held at Approved Settlement Banks. This system is called the Secure Payment System.

2.2 Each Member shall establish and maintain with one or more Approved Settlement Banks one or more Settlement Accounts capable of holding and making to LME Clear Cash Settlements in:

- (a) the Eligible Currencies for any Asset Cover payable by the Member to LME Clear;
- (b) the Settlement Currencies for any Eligible Product for which the Member effects or clears Transactions; and
- (c) any other Currency in which the Member may be required to make (or receive) Cash Payments to (or from) LME Clear.

Different Approved Settlement Banks may be used for different currencies. A Member may not maintain more than one Approved Settlement Bank in respect of payments to be made in respect of any single Account in a single currency.

2.3 Members shall maintain their Settlement Accounts with institutions that are able to meet the payment deadlines determined by LME Clear from time to time. Failure of an Approved Settlement Bank to confirm a payment within the relevant payment deadlines specified by LME Clear may result in the Member being declared in Default.

2.4 LME Clear may issue Settlement Instructions in respect of Cash Settlements or in respect of a Member to the Member's Approved Settlement Bank in accordance with the operation of the Secure Payment System. Each Member shall ensure that its Approved Settlement Bank shall act on:

- (a) Settlement Instructions calling for payment to LME Clear by debiting from the Member's Settlement Account the required cash amount and irrevocably crediting such cash amount to LME Clear's Settlement Account at the Approved Settlement Bank; or

 - (ii) LME Clear may elect, in its absolute discretion, not to transfer to its account at a Concentration Bank any amount of cash payment received pursuant to a Cash Settlement of a Member and to, instead, designate any other account under its control (whether at an Approved Settlement Bank or other financial institution) as the account representing the place of discharge of the Member's obligation to make such Cash Settlement. In the event that LME Clear makes such election, the Member's obligation to make the relevant Cash Settlement shall (in respect of such designated amount of cash payment) be discharged at the time that the credit confirmation is received by LME Clear from the destination account via the SWIFT Messaging Gateway to debit the funds, or the payment instruction is otherwise communicated by LME Clear to the relevant Approved Settlement Bank.

 - (iii) Where agreed with the Member, LME Clear may retain any amount due to be paid to the Member pursuant to a Cash Settlement, in which case such amount shall, from the time that such Cash Settlement would otherwise have been due, be treated as an Excess Member Payment and Cash Cover.
- 2.6 LME Clear shall be responsible for issuing instructions to each Approved Settlement Bank to transfer cash amounts in the discharge of Cash Settlements from LME Clear's Settlement Account at the Approved Settlement Bank. Notwithstanding the foregoing, LME Clear shall have no liability to any member for any failure by an Approved Settlement Bank to act on LME Clear's instructions.
- 2.7 In the event that one or more Members do not receive a payment due to it as a consequence of the insolvency of its Approved Settlement Bank, LME Clear shall, if LME Clear makes a recovery from the estate of the Approved Settlement Bank, credit such recovery, net of LME Clear's costs, to the Members affected by such insolvency, in proportion to the respective amounts of the payments that such Members did not receive.

2. LME WARRANT DELIVERY PROCEDURES**2.1 Interaction with LME Rules for LMEsword**

- (a) LMEsword is the Approved Delivery Facility for Contracts in LME Warrants.
- (b) A Member may not submit to LME Clear any Transaction in respect of LME Warrants unless it has first set-up the appropriate number and type of "Member Accounts" in LMEsword (referred to in this Clearing Procedure F2 as the "**Member LMEsword Clearing Account**"). This shall include establishing such number of Member LMEsword Clearing Accounts designated as "house" or "client" as shall be necessary to ensure that the LME Warrants can be delivered appropriately. As a minimum, each Member must establish a Member House LMEsword Clearing Account. Each Member that is a General Clearing Member must establish a Member Client LMEsword Clearing Account.
- (c) LME Clear maintains one or more accounts for the collection and delivery of LME Warrants at LMEsword (referred to in this Clearing Procedure F2 as the "**LME Clear LMEsword Clearing Account**").
- (d) LME Warrant deliveries are effected through LMEsword in accordance with the LME Rules. The LME Rules contain specific procedures applicable to the operation of LMEsword.
- (e) For the purpose of this Clearing Procedure F:
 - (i) "**LMEsword**" means the system defined under the LME Rules as the "LMEsword System";
 - (ii) "**LMEsword Regulations**" and "**LMEsword Operating Procedures**" shall have the definitions set out in the LME Rules;
 - (iii) "**LME Warrants**" are "Warrants" within the meaning of the LME Rules; and

- (f) Consequently, this Clearing Procedure F2 shall be read in conjunction with the LME Rules and the LMEsword Regulations and Operating Procedures. LME Clear and the Member shall therefore comply with the LME Rules and the LMEsword

Clearing Procedure Part F

Regulations and Operating Procedures in relation to the performance of their respective Delivery Obligations under Contracts in LME Warrants.

For the avoidance of doubt, LME Clear and the Member shall also be subject to additional obligations to deliver LME Warrants pursuant to LME Premium Warrant Payment Obligations in respect of any LME Aluminium Premium Contracts for which they are, respectively, the Buyer.

For the further avoidance of doubt, Delivery Positions, Final Delivery Positions and Warrant Movements in respect of Gross Omnibus Segregated Client Accounts shall be determined on an Account-level basis, and shall not be determined separately for each Allocation ID. 2.12 Invoice and Account Sales Calculation

LME Clear calculates the amounts due to the Member (as Seller) or payable by the Member (as Buyer) against the net Open Contracts in the relevant Eligible Product and Settlement Currency. The calculation is as follows:

$$\text{Amount} = \text{Contract weight} \times \text{Settlement Price} \times \text{lots.}$$

where:

- (i) the Settlement Price is in the Settlement Currency of the open Position (JPY, EUR, USD, GBP) and is set in accordance with LME Rules (specifically the "Trading Regulations");
- (ii) the Contract weight is determined in accordance with the LME Rules (specifically the "Special Contract Rules for Metals").

Invoice and Account Sales Calculation – Example:

Using the above formula where:

Contract weight	=	25 Tonnes
Settlement Price	=	USD 1,500.00
Delivery Position in Lots	=	10
Total Invoice/Account Sale	=	25 x 1,500 x 10
Value	=	USD 375,000.00

The total invoicing amount is shown on relevant Reports made available by LME Clear each of which may be accessed via the Website.

2.13 Payment of Invoice and Account Sales

- (a) The Payments Obligations of each Member (as Buyer) on each Business Day are posted to the debit of the relevant Account of the Member as part of the previous Business Day's End of Day Cover Distribution process (in accordance with Clearing Procedure D5). Notwithstanding the foregoing, Payment Obligations that are to be discharged by payments in Japanese Yen shall be posted to the debit of the relevant Account in accordance with the End of Day Cover Distribution process applicable to Japanese Yen.
- (b) Following the receipt of LME Warrants from Members (as Sellers) and unless otherwise agreed with the Seller, LME Clear makes the Settlement Payment to the Member's Settlement Account at an Approved Settlement Bank, via the Secure Payment System (or by any other method specified by LME Clear).

Clearing Procedure Part F

(c) Japanese Yen

- (i) Payments are made to, or called from, LME Clear's Settlement Account at the Approved Settlement Bank.
- (ii) Where the Member has the Payment Obligation, the invoice value is a debit posted to the Member's Settlement Account at the Approved Settlement Bank and called by 09:00 hours on the morning of the Business Day prior to the day on which delivery is due, but for value on the delivery day.
- (iii) Where LME Clear has the Payment Obligation, the Settlement Payment value is a credit posted to the LME Clear's Settlement Account at the Approved Settlement Bank prior to the delivery day. Payment will be made against the delivery of LME Warrants, on the delivery day, for same day value to the Members' Settlement Account via the Secure Payment System (by approximately 12:30 hours).
- (iv) Members may access the "Member Japanese Yen Settlement Advice Listing Report" via the Website.

(d) US Dollar/Sterling and Euro

- (i) Payments are made to or called from LME Clear's Settlement Account at the Approved Settlement Bank.

- (iv) Where LME Clear has the Payment Obligation, the Settlement Payment value is a credit posted to the Members' Settlement Account via the Secure Payment System after the delivery of LME Warrants (by approximately 12:30 hours).
- (v) On the Settlement Date, sold lots, for the same Underlying Asset, in USD, GBP or EUR are netted against bought lots in other Settlement Currencies. The Settlement Payment for the netted lots shall be credited or debited to the appropriate LME Clear Settlement Account for the Settlement Currency. Remaining sold lots are delivered under normal procedures.

Example:

				Invoice Value	Account Sale	Confirmation
Currency	Metal	Bought	Sold	DR	Value CR	Time

Clearing Procedure Part F

USD	AHD		25		USD 1,250,000.0 0	12:30hrs
EUR	AHE	20		EUR1,300,000.0 0		09:00hrs

In the above example, the "Account Sale" value of USD 1,250,000 (that is, the Settlement Payment value due from LME Clear) in respect of the remaining sold five (5) lots will be credited to the Member's Settlement Account at its Approved Settlement Bank at approximately 12:30 hours following delivery by the Member of the appropriate LME Warrants.

Note: for the purpose of this example approximate Invoice and Account Sale values are used.

- (c) The rent and weight values in respect of each Warrant Movement and LME Premium Warrant Payment Obligation settling on any Business Day, calculated in the Base Currency (USD), are netted against each other to create an overall debit or credit amount in respect of all Delivery Positions and LME Premium Warrant Payment Obligations settling with the Member on that Business Day. This overall debit or credit amount shall be the "**Rent and Weight Debit or Credit**".
- (d) This Rent and Weight Debit or Credit is posted to the Member's USD Settlement Account at the Approved Settlement Bank on the Business Day on which delivery of the LME Warrant takes place, for value and settlement on the next Business Day.
- (e) The rent and weight accounting entries are posted separately to the Member's primary House Account in respect of each type of Underlying Asset (metal) and can be reconciled against either the Warrant Collection Adjustment Invoice or the Warrant Allocation Adjustment Invoice.
- (f) In the event that a Member allocates any LME Warrant delivered by LME Clear to a Client, it is the sole responsibility of the Member to ensure that any right or obligation of the Member in respect of Rent and Weight Adjustments associated with that LME Warrant are recorded in an appropriate Account, in order to enable the Member to satisfy any obligations it has under Applicable Law to segregate client monies from monies due to or from the Member for its own account. In the event that the Member requires any Rent and Weight Debit or Credit to be allocated to a Client Account, it must promptly notify LME Clear and in any event must make such notification prior to the Close of Business on the day on which the relevant LME Warrant was delivered by LME Clear to the Member.

Clearing Procedure Part F

Default Procedure Part A

PART A – INTRODUCTION

1. INTERPRETATION AND INTRODUCTION

- 1.1 These Default Procedures form part of, and shall be read in conjunction with, the Rules and are legally binding on each Member. Terms defined in the Rules have the same meaning in these Default Procedures. In the event of any conflict or inconsistency between the Rules and these Default Procedures, the Rules shall prevail.
- 1.2 These Default Procedures are arranged into the following Parts:

Default Procedure Part B

PART B – DEFAULT FUND**1. CALCULATION OF DEFAULT FUND CONTRIBUTIONS****1.1 General**

- (a) Rule 9 (*Default Fund*) sets out the basis on which LME Clear will establish and maintain each Default Fund.
- (b) Without prejudice to LME Clear's rights under Rule 9 (*Default Fund*), the following provisions summarise how LME Clear shall calculate Default Fund Contributions of each Member and collect them from Members.
- (c) LME Clear shall maintain separate Default Funds in respect of each Service.
 - (i) The Default Fund Contributions in respect of the LME Base Service shall be calculated in accordance with the principles set out in Default Procedure B1.2 below;
 - (ii) The Default Fund Contributions in respect of the LMEprecious Service shall be calculated in accordance with the principles set out in Default Procedure B1.3 below; and
 - (iii) Default Procedures B2 to B4 shall apply separately and equally in respect of each Default Fund and the terms "**Default Fund**" and "**Default Fund Contributions**" shall be construed accordingly.

1.2 Principles for calculating Default Fund Contributions for LME Base Service

- (a) With respect to Positions in LME Base Products, LME Clear shall calculate potential stress losses (to the extent not covered by existing Collateral provided to satisfy the End of Day Margin Requirement) in respect of each Account of each Member, using such historical and theoretical scenarios as LME Clear may choose in accordance with LME Clear's default fund policy. LME Clear will calculate the potential stress losses arising in respect of LME Base Products across all Accounts of each Member (including House Accounts and Client Accounts).
- (b) The amount of the Default Fund shall then be determined as:
 - (i) the sum of the two largest Member losses determined pursuant to (a) above, where such losses are assessed over a historic period ~~comprising the previous six (6) months~~, as further described in the default fund overview document published by LME Clear on the Website;
 - plus
 - (ii) the amount resulting from the application by LME Clear of an additional ten per cent (10%) multiplier to provide for future increases in stress testing losses in between Default Fund calculations.
- (c) Notwithstanding the calculation specified in (b) above, the Default Fund in respect of the ~~LME Base Service~~ shall not be permitted:

- (i) to fall below US\$ a minimum value as further described in the default fund overview document published by LME Clear on the Website, except where and to the extent that any amount of the Default Fund is applied towards

Default Procedure Part B

any Default Loss in accordance with Rule 10 (*Default*). This minimum level will be subject to periodic review by LME Clear. ~~Any amendment to this methodology will be notified to Members by Circular; or~~

(ii) to rise above the “Default Fund Mutualisation Limit” calculated in accordance with the methodology described in the default fund overview document published by LME Clear on the Website,

— This minimum level specified in (i) above and the Default Fund Mutualisation Limit will be subject to periodic review by LME Clear. Any amendment to these limits or the methodologies to determine these limits will be notified to Members by Circular.

- (d) Each Member’s Default Fund Contribution will be calculated as a pro-rata allocation based on that Member’s average Initial Margin Requirement (including their End of Day Margin Requirement and their Intra-Day Margin Requirement calculations) over a preceding one-month period, as a percentage of the total average Initial Margin Requirement of all Members over the preceding one-month period, as further described in the default fund policy published by LME Clear on the Website.
- (e) The minimum amount of a Default Fund Contribution for a Member will be US\$1,000,000, or such other amount as LME Clear may determine on assessment of the stress test results in accordance with LME Clear’s default fund policy.

1.3 Principles for calculating Default Fund Contributions for LMEprecious Service

- (a) With respect to Positions in LMEprecious Products, LME Clear shall calculate potential stress losses (to the extent not covered by existing Collateral provided to satisfy the End of Day Margin Requirement) in respect of each Account of each Member, using such historical and theoretical scenarios as LME Clear may choose in accordance with LME Clear’s default fund policy. LMEC will calculate the potential stress losses arising in respect of LMEprecious Products across all Accounts of each LMEprecious Clearing Member (including House Accounts and Client Accounts).
- (b) The amount of the Default Fund shall then be determined as:
 - (i) the sum of the two largest Member losses determined pursuant to (a) above, where such losses are assessed over a historic period comprising the previous six (6) months, as further described in the default fund policy published by LME Clear on the Website;
 - plus
 - (ii) the amount resulting from the application by LME Clear of an additional ten per cent (10%) multiplier to provide for future increases in stress testing losses in between Default Fund calculations.
- (c) Notwithstanding the calculation specified in (b) above, the Default Fund in respect of the LMEprecious Service shall not be permitted to fall below the product of:

- (d) From the date of commencement of the LMEprecious Service (the "**LMEprecious Commencement Date**") and for a period of six (6) months thereafter (the "**Initial LMEprecious Period**"):
- (i) the calculation specified in (a) above may be based on projected volumes as determined by LME Clear in its sole discretion; and
 - (ii) each LMEprecious Clearing Member's Default Fund Contribution will be calculated as follows:
 - (1) each LMEprecious Clearing Member that has been admitted to participate in the Service at the LMEprecious Commencement Date (each an "**Initial LMEprecious Member**") shall contribute an amount notified by LME Clear to each such Initial LMEprecious Member in advance of the LMEprecious Commencement Date (and the sum of such Default Fund Contributions on the Commencement Date shall constitute the "**Initial DF**") and shall maintain with LME Clear such amount, or any re-calculated amount of Default Fund Contribution that may be notified by LME Clear from time to time, on an ongoing basis;
 - (2) any new LMEprecious Clearing Member accepted to participate in the LMEprecious Service during the Initial LMEprecious Period, will contribute the greater of:

 - ii. the sum of the Minimum DF Contribution and its share, based on its Initial Margin Requirement, of any incremental increase in the Default Fund over and above the Initial DF; and
 - (3) where LME Clear decides, based on its Initial Margin Requirement, that the additional risk represented by the positions of a Member are material in the context of the LMEprecious Service (such that the Member shall be designated as a "**Significant LMEprecious Member**") the Significant LMEprecious Member shall be required to contribute an amount notified by LME Clear to such Significant LMEprecious Member and shall maintain with LME Clear such amount, or any re-calculated amount of Default Fund Contribution that may be notified by LME Clear from time to time, on an ongoing basis.
- (e) Following the Initial LMEprecious Period and subject to (g) below, each Member's Default Fund Contribution will be calculated as a pro-rata allocation based on that Member's average Initial Margin Requirement (including their End of Day Margin Requirement and their Intra-Day Margin Requirement calculations) over a preceding one-month period, as a percentage of the total average Initial Margin Requirement of all Members over the preceding one-month period, as further described in the default fund policy published by LME Clear on the Website.

Default Procedure Part B

- (f) The minimum amount of a Default Fund Contribution for each LMEprecious Clearing Member will be US\$1,000,000 (the "**Minimum DF Contribution**"), or such other amount as LME Clear may determine on assessment of the stress test results in accordance with LME Clear's default fund policy.
- (g) Prior to the expiry of the Initial LMEprecious Period, LME Clear shall review the methodology for calculating the Default Fund in respect of the LMEprecious Service, and may decide, in its sole discretion to continue to operate the methodology for the Initial LMEprecious Period described in (d) above or to cease operating in accordance with such methodology subject to, if relevant, the specification of a change to the LMEprecious DF Floor. LME Clear shall notify LMEprecious Clearing Members of such decision prior to the expiry of the Initial LMEprecious Period.

2. FREQUENCY AND REPORTING

2.1 Daily Review

- (a) At the end of each Business Day and at such other times during each Business Day as LME Clear may determine, LME Clear shall review the size of the Default Fund relative to each Member's potential stress positions (in excess of the existing Collateral provided by the Member to satisfy the End of Day Margin Requirement).
- (b) In the event that any Member's stress positions (in excess of the existing Collateral provided by the Member, its Posting Affiliate or Posting Client to satisfy the End of Day Margin Requirement) are at any time in excess of the percentage of the Default Fund specified by LME Clear on its website from time to time (the "**Default Fund Additional Margin Threshold**"), LME Clear may require that Member immediately to provide additional Collateral in order to reduce its stress positions to a level below the Default Fund Additional Margin Threshold. The Default Fund Additional Margin Threshold shall not be changed without 30 days' prior notice to Members.

2.2 Monthly Review

- (a) The Default Fund will be recalculated and reset on a monthly basis or at or following the ending of a Default Period (provided that LME Clear shall exercise its discretion as to the timing of such recalculation where LME Clear considers it necessary to protect the integrity of the Clearing System or the orderliness of the markets supported by LME Clear).
- (b) LME Clear may also increase the size of the Default Fund within the period between each monthly recalculation in circumstances where the DF Inter-Monthly Resizing Threshold has been breached. The "**DF Inter-Monthly Resizing Threshold**" means the quantitative and qualitative criteria to be applied by LME Clear to determine whether and when to increase the size of the Default Fund within any period between each scheduled monthly review, as such criteria are set out in LME Clear's default fund methodology.
- (c) In order to ensure that LME Clear will always have sufficient financial resources to cover a default by its two largest Members, no Member will be permitted to have at any time stress positions (in excess of the existing Collateral provided by the Member to satisfy the End of Day Margin Requirement) in excess of the Default Fund Additional Margin Threshold.

Default Procedure Part B

- (d) In the event that any Member's stress positions (in excess of the existing Collateral provided by the Member to satisfy the End of Day Margin Requirement) are at any time in excess of the Default Fund Additional Margin Threshold, LME Clear may require that Member immediately to provide additional Collateral in order to reduce its stress positions to a level below the Default Fund Additional Margin Threshold.
- (e) The monthly review and recalculation of the Default Fund will include a review of the relevant markets over the previous three (3) months in order to identify and consider possible new stress scenarios.

3.2 Monthly Process

A report specific to each Member (a "**Default Fund Report**") will be issued after the last Business Day of each calendar month and will be made available to the relevant Member on the Website. The Default Fund Report will show the Default Fund Contribution required from the relevant Member.

3.3 Interim Payments

- (a) In the event that the daily review of the Default Fund shows that:
 - (i) the amount of the Default Fund is insufficient, having regard to the principles and thresholds specified in Default Procedure B1; and
 - (ii) an individual Member's Default Fund Contribution is insufficient, having regard to Default Procedure B2.1(b) or B2.2(d), as applicable,

then LME Clear will request the Member to provide additional Collateral in order to ensure both that LME Clear has sufficient Collateral in respect of the Member's positions, and that the Member's stress positions are reduced to a level below the Default Fund Additional Margin Threshold.
- (b) For the avoidance of doubt, LME Clear may also call for additional Collateral under Default Procedure B2.1(b) or B2.2(d), where such provisions are applicable.

As soon as practicable after issuing the Default Notice (unless the Default Event has already been discharged), LME Clear will provide to the appropriate Regulator(s) a summary of the Member's open Positions, Margin Requirements, cash and Collateral balances in respect of that Member's Accounts (including, for the avoidance of doubt, Client Accounts).

4. ACTIVATION OF DEFAULT MANAGEMENT PROCESS

- 4.1 Following the occurrence of a Default Event, there will be many activities that need to be conducted. These include activities that are procedural, operational, communications and systems-based. The majority of the activities outlined below will be conducted in parallel.

Default Procedure Part C

4.2 **Initiation of Communication tree**

4.3 During a Default Period, LME Clear will communicate with internal stakeholders (in order to initiate its internal default management procedures) and relevant external stakeholders to inform them that LME Clear's default management process is being invoked.

4.4 **Prevention of Defaulting Member Clearing Activity**

4.5 LME Clear may exercise such of its powers under the Rules that arise on the occurrence of a Default Event as it thinks fit. This may include taking action to deactivate the Defaulting Member within the Clearing System, which will involve (without limitation):

- (a) curtailing the Defaulting Member's ability to submit Transactions, whether on House Account or Client Account, to the Clearing System;
- (b) instructing the LME (and any other Approved Transaction Platform) to deactivate the Defaulting Member's trading accounts;
- (c) preventing any payments from being made via SPS from LME Clear's accounts at any Approved Settlement Banks for payment to the Defaulting Member;
- (d) preventing any Asset Cover being paid or returned to the Defaulting Member, its Posting Affiliate or its Posting Client (except if and to the extent expressly permitted by Rule 10 (*Default*) or these Default Procedures); and
- (e) suspending the performance of any delivery or payment obligations otherwise owing by LME Clear to the Defaulting Member.

4.6 The Defaulting Member (and Clients of the Defaulting Member) may not effect any further Transactions through the Defaulting Member or submit to the Clearing System any further Transactions for which the Defaulting Member would otherwise be responsible.

5. **DEFAULT MANAGEMENT GOVERNANCE**

5.1 The Board will delegate to a committee (the "**Default Management Committee**" or "**DMC**") responsibility for the oversight of the implementation of the default management process and all related strategic decision-making involved in the risk reduction/neutralisation strategy and the subsequent auction(s) employed by LME Clear. The DMC will consist of the following members of LME Clear's management team:

- (a) the Chief Executive Officer (CEO);
- (b) the Chief Risk Officer (CRO);
- (c) the Head of Risk;
- (d) the Chief Operating Officer (COO);
- (e) Head of Legal, LME Clear;
- (f) the Chief Compliance Officer; and
- (g) the Chief Financial Officer (CFO).

5.2 LME Clear may also seek to involve the DMC representative(s) from the Approved Transaction Platform(s) in an advisory capacity.

Default Procedure Part C

5.3 LME Clear will consult with the Board Risk Committee and / or obtain the approval of the Board, in relation to actions that it proposes to take in relation to the management of a default, where required pursuant to any Rule or otherwise where LME Clear considers such consultation or approval to be necessary or appropriate.

6. RISK REDUCTION OF DEFAULTING MEMBER'S POSITIONS

6.1 Following the issue of a Default Notice, the Accounts of the Defaulting Member will be risk managed on the following basis:

- (a) all House Accounts of the Defaulting Member will be managed in the manner stated below; and
- (b) Omnibus Segregated Client Accounts and Individual Segregated Client Accounts will be managed in the manner stated below if they cannot be ported in accordance with Part D of these Default Procedures and Rule 10.7, save that LME Clear may take the steps contemplated in Default Procedure C6.2(e) below notwithstanding that the relevant Porting Period has not expired.

6.2 Hedging and Liquidity Management

- (a) LME Clear will assess the portfolio of the Defaulting Member and any Positions and Collateral maintained in Client Accounts in respect of Clients or Indirect Clients that are not to be transferred to another non-defaulting Member and shall take such steps as LME Clear considers are necessary or appropriate to reduce the exposure of the portfolio to minimise the risk that LME Clear may need to utilise any Member's Default Funds or LME Clear's Dedicated Own Resources.
- (b) LME Clear will utilise default brokers and collateral execution agents in order to facilitate:
 - (i) the execution of any hedge trades with non-defaulting Members or other third party counterparties; and
 - (ii) the liquidation of Collateral, if required.
- (c) LME Clear will reduce the risk associated with the Defaulting Member's Positions as far as reasonably practicable by hedging LME Clear's exposure under the Contracts to which the Defaulting Member is a party. Such hedging will be undertaken by LME Clear with non-defaulting Members and other counterparties on the basis of separate agreements between LME Clear and each such Member or other counterparty. LME Clear will consider all Accounts together for hedging purposes. Any proceeds, losses or costs resulting from the hedging process will be allocated to the relevant Defaulting Member's Account (depending on the Positions being hedged) at the discretion of LME Clear.
- (d) LME Clear may also seek to reduce the risk associated with the Defaulting Member's Positions by hedging LME Clear's exposure under the Contracts to which the Defaulting Member is a party against the Contracts of any other Member that is also, at the relevant time, a Defaulting Member.
- (e) As part of the default management process, LME Clear may, wherever reasonably practicable: (i) aim to prevent Positions of a Defaulting Member on any Account going to physical delivery during the Default Period; or (ii) take such actions as LME Clear considers necessary to avoid any circumstance under which LME Clear is

Default Procedure Part C

unable to perform any Delivery Obligation under any Contract. LME Clear may take such actions as it considers appropriate to facilitate the foregoing. LME Clear shall take such actions in accordance with Rule 10.4.2. The effect of such action would be to limit any immediate liquidity demands for delivery of LME Warrants and/or unallocated Precious Metal. In the event that LME Clear takes steps to prevent such Positions going to physical delivery, LME Clear shall notify the Members via the publication of a Circular on the Website. For the avoidance of doubt, any Transfer made pursuant to Rule 10.7 (*Portability of Client Accounts*) that takes effect in relation to a Client Account containing Positions to which the powers in this Default Procedure C6.2(e) have been applied shall apply to the Positions as created or adjusted pursuant to the exercise of such powers.

- (f) LME Clear may apply the hedging process separately in respect of LME Base Products and LMEprecious Products in a Member's Accounts.

6.3A Allocation of Default Fund Contribution

- (a) Prior to allocating losses under Rule 10.10.1(d), LME Clear shall allocate all Open Contracts (including any hedging agreements made by LME Clear under Default Procedure C6.2) to one or more Portfolios.
- (b) LME Clear shall determine the composition of each Portfolio, provided that an individual Portfolio shall not contain Open Contracts relating to both the LME Base Service and the LMEprecious Service.
- (c) LME Clear shall determine the proportion of each Member's Default Fund Contribution for the relevant Service ("**DFC**") that shall be attributable to each Portfolio for the purposes of applying the loss allocation principles specified in Default Procedure Part C6.6(b) (the "**Allocated DFC Amount**").
- (d) The Allocated DFC Amount shall be calculated in accordance with a methodology that takes into account the proportion of the Member's total activity in the relevant Service which is represented by Open Contracts with the same Underlying Assets as the Open Contracts being auctioned in the relevant Portfolio (using the Member's average Initial Margin Requirement over the previous month as a proxy for the level of activity).

6.3 Auction

- (a) The following auction process shall apply in respect of Open Contracts in LME Base Products and LMEprecious Products where LME Clear exercises its power under Rule 10.4.1(l) to hold an auction. However, the auction process shall be conducted separately in respect of the LME Base Service and the LMEprecious Service (and references to "**Default Fund Contribution**", "**non-defaulting Members**" and "**Open Contracts**" shall be construed accordingly). This auction process shall apply on a per-Defaulting Member basis, so that in the event that a Default Notice is issued in respect of more than one Defaulting Member during a Default Period, the auction process shall be applied separately in respect of the Default Losses of each such Defaulting Member.
- (b) After completion of the hedging and liquidity management process, LME Clear may carry out an auction process in respect of the remaining Open Contracts (which may include Collateral, if appropriate) amongst non-defaulting Members and prescribe such procedures for the conduct of the auctions as it considers

Default Procedure Part C

reasonably appropriate in the circumstances. For the avoidance of doubt, LME Clear may exercise its power in Rule 10.4.1(l) to conduct an auction in respect of: (i) all Portfolios; or (ii) such Portfolios as it so determines.

- (c) Any Portfolio that is to be the subject of an auction shall be an Auction Portfolio.
- (d) Any auctions will occur at a time judged by the DMC to be optimal to minimise the risk to the Clearing System, to achieve the best possible price, and to ensure maximum competitive participation by non-defaulting Members.

6.4 Participation in an auction

- (a) Subject to (c) below, non-defaulting Members that satisfy the entry criteria specified in (b) below will be required to:
 - (i) evaluate the relevant Auction Portfolio(s) in accordance with Annex 8 – Auction Process; and
 - (ii) submit bids following the process described in Annex 8 – Auction Process.
- (b) A non-defaulting Member will be required to participate in the auction of an Auction Portfolio where:
 - (i) it meets LME Clear’s assessment of creditworthiness against a minimum credit rating for participation in the auction specified by LME Clear in Annex 8 – Auction Process;
 - (ii) it is a participant in the individual Service to which the Open Contracts in the relevant Auction Portfolio relate; and
 - (iii) (where LME Clear considers that it has sufficient information regarding the trading history of the non-defaulting Members) it meets such criteria as LME Clear may specify in Annex 8 – Auction Process regarding the non-defaulting Member’s history of Positions in the types of Open Contract included in the relevant Auction Portfolio;

(such Members being “**Mandatory Bidders**”).
- (c) A non-defaulting Member may request, prior to any Default Period, that LME Clear exclude it from being required to participate in any future auction on the grounds that it does not have the operational capability or expertise to participate in an auction. Any such non-defaulting Member shall provide a detailed explanation and, where appropriate, evidence to support its request and will inform LME Clear if its circumstances change in any way which is relevant to such explanation or evidence. Any agreement to such request shall be at LME Clear’s discretion and will be reviewed annually. LME Clear has provided guidance on the circumstances where this paragraph may apply in Annex 8 – Auction Process.
- (d) LME Clear reserves the right, at any point and in its sole discretion, to exclude a Member from the requirement to participate in an auction if it appears to LME Clear, in its reasonable opinion, that such exclusion is desirable for any reason.
- (e) A non-defaulting Member which is not a Mandatory Bidder may request that LME Clear includes it in an auction. If LME Clear agrees to such request then such non-

Default Procedure Part C

defaulting Member will become subject to the obligations in 6.4(a) above (such Members being “**Voluntary Bidders**”).

- (f) The contents of an Auction Portfolio shall be disclosed only to non-defaulting Members participating in the auction of that Auction Portfolio. Subject to compliance with the requirements of Rule 2.6.5, a Member may disclose the Auction Portfolio to any Client (or Clients) that intends to assist that Member to formulate its bid.
- (g) Members are solely responsible for their bids and will be bound by the consequences of the bid, or failure to bid. Clients may not submit bids to LME Clear directly.

6.5 Bidding

- (a) LME Clear shall not specify a minimum bid price for an Auction Portfolio.
- (b) LME Clear shall assess the bids received from non-defaulting Members and the winning bid for each Auction Portfolio shall be selected by the DMC. The decision of LME Clear to accept or reject a particular bid will be conclusive and binding on all Members.
- (c) LME Clear may accept the best price for an Auction Portfolio that it believes accurately reflects the risk of that Auction Portfolio. LME Clear shall have in place an appropriate process for determining an “acceptable auction price” which will consider the risks of the portfolios set out in Annex 8 – Auction Process. For the avoidance of doubt and without affecting the generality of 6.5(c) above, LME Clear reserves the right to reject a bid if it considers that that such bid is not consistent with the acceptable auction price determined by LME Clear.
- (d) In addition, LME Clear reserves the right to reject an auction bid from a Member if it deems the overall risk presented by that Member, following the transfer of any Auction Portfolio, to be in excess of LME Clear's risk tolerance for that Member.
- (e) If two or more Members submit a bid of the same value, LME Clear may, subject to its discretion to reject certain bids, accept the bid which LME Clear considers represents the most favourable risk management solution. If LME Clear determines that bids should not be differentiated on this basis then the winning bid will be the bid which was received by LME Clear first in time. Two or more Members from the same Group may submit identical bids in accordance with Annex 8 – Auction Process.
- (f) Each auction shall have a single winner and the Open Contracts and hedging agreements contained in the relevant Auction Portfolio will then be recorded in the Account of such winner.

6.6 Allocation of Excess Loss

- (a) Where LME Clear incurs an Excess Loss in relation to a Service, and LME Clear has not conducted an auction in respect of a Portfolio the non-defaulting Members of such Service shall contribute towards such Excess Loss pursuant to Rule 10.10.1(d) by applying each Members' Allocated DFC Amount in relation to a particular Portfolio on a *pro rata* basis (such that each such Member's Allocated DFC Amount shall be applied towards the remaining Excess Loss in the same proportions as such Member's Default Fund Contributions represent of the total amount of Default Fund Contributions of all Members falling within this (a)).

Default Procedure Part C

- (b) Where LME Clear incurs an Excess Loss in relation to a Service, and LME Clear has conducted an auction in respect of a Portfolio the non-defaulting Members of such Service shall contribute towards such Excess Loss on the basis that each Members' Allocated DFC Amount in relation to a particular Auction Portfolio shall be applied pursuant to Rule 10.10.1(d) in the following order of priority:
- (i) **first**, by the Allocated DFC Amounts of the non-successful Mandatory Bidders in the auction of that Auction Portfolio on the basis of the methodology set out below;
 - (ii) **second**, if the Allocated DFC Amounts applied under 6.6(b)(i) above are not sufficient to discharge the balance of the Default Loss, by the Allocated DFC Amounts of any non-successful Voluntary Bidders in the auction of that Auction Portfolio on the basis of the methodology set out below:

Non-Successful Bidder Methodology (for 6.6(b)(i) and (ii)):

Default Losses shall be applied against the Allocated DFC Amounts referred to in (i) and (ii) above in accordance with the following methodology (which shall be applied only in respect of the Members falling within this (i) or (ii), as applicable):

Step 1 - Determination of Ranking: Each Member's ranking in the auction shall be determined at the discretion of LME Clear in accordance with the principles set out below. For these purposes:

- the ranking will begin at zero (being the ranking of the successful bidder);
- Mandatory Bidders and Voluntary Bidders shall be ranked separately amongst themselves, in each case in an ascending numerical ranking starting with that of the non-successful bidder that was closest to the successful bid, (having a ranking of 1) and ending with the non-successful bidder that was furthest from the successful bid;
- any Mandatory Bidders or Voluntary Bidders (as applicable) who did not submit a bid will be placed joint last behind the non-successful bidder furthest from the successful bid.

Step 2 - Calculation of Member DFC at risk: LME Clear shall calculate the amount of each Member's Allocated DFC Amount that is initially available to LME Clear to be applied against any remaining Default Loss (such amount being the "**Member DFC at risk**"), on the following basis:

$$\frac{R}{N} \times A = \text{Member DFC at risk}$$

Where:

"R" means the non-defaulting Member's ranking in the auction;

"N" means the number of non-successful bidders in the auction;

"A" means the Allocated DFC Amount.

Default Procedure Part C

Step 3 - Contribution towards Default Loss: The amount of each Member's DFC at risk applied against any remaining Default Loss (the "**Amount Applied**") will be calculated as follows:

$$\frac{TRDL}{TDFCR} \times MDFCR = \text{Amount Applied}$$

Where:

"**TRDL**" means the total remaining Default Loss (up to a maximum of all Member DFCs at risk);

"**TDFCR**" means the total of all Member DFCs at risk;

"**MDFCR**" means the Member DFC at risk.

Step 4 – Allocation of remaining loss: Any remaining Default Loss after the application of Member DFCs above shall be covered by each Member's remaining Allocated DFC Amount ("**Remaining DFC**"), on a *pro rata* basis (such that each such Member's Remaining DFC shall be applied towards the remaining Default Loss in the same proportions as such Member's Remaining DFC represents of the total amount of Remaining DFCs of all Members falling within this (i) or (ii), as applicable).

- (iii) **third**, if the Allocated DFC Amounts applied under 6.6(b)(ii) above are not sufficient to discharge the balance of the Default Loss, by the Allocated DFC Amounts of any bidders in the auction of that Auction Portfolio whose bids were rejected, on a *pro rata* basis (such that each such Member's Default Fund Contributions shall be applied towards the remaining Default Loss in the same proportions as such Member's Default Fund Contributions represent of the total amount of Default Fund Contributions of all Members falling within this (iii));
- (iv) **fourth**, if the Allocated DFC Amounts applied under 6.6(b)(iii) above are not sufficient to discharge the balance of the Default Loss, by the Allocated DFC Amounts of the non-defaulting Members that did not participate in the auction of that Auction Portfolio, and were not required to participate in the auction by reason of 6.4(b), (c) or (d) above, on a *pro rata* basis (such that each such Member's Default Fund Contributions shall be applied towards the Default Loss in the same proportions as such Member's Default Fund Contributions represent of the total amount of Default Contributions of all Members falling within this (iv));
- (v) **fifth**, if the Allocated DFC Amounts applied under 6.6(b)(iv) above are not sufficient to discharge the balance of the Default Loss, by the Allocated DFC Amount of the successful bidder in the auction of that Auction Portfolio;
- (vi) **sixth**, if the Allocated DFC Amounts applied under 6.6(b)(v) above are not sufficient to discharge the balance of the Default Loss, by any Default Fund Contributions of the bidders in the auctions of other Auction Portfolios relating to the same Service that are remaining after the satisfaction of any Default Losses in respect of those Auction Portfolios, on the basis of the following methodology (which shall be applied only in respect of the Members falling within this (vi)):

Default Procedure Part C

Other Auction Bidder Methodology (for 6.6(vi)):

Step 1 – Determination of Ranking: In order to establish each Member's ranking across all other Auction Portfolios, each Member's ranking in each other Auction Portfolio shall be aggregated. The Members will then be ranked so that the first ranked Member will be the one with the lowest aggregate ranking and the last ranked Member will be the one with the highest aggregate ranking. Mandatory Bidders and Voluntary Bidders shall be ranked together and not separately provided that any Voluntary Bidders in an auction shall automatically be given a ranking of zero in respect of such auction. In addition, any bidders falling under (iii) or (iv) above shall be given a ranking of zero.

Step 2 – Calculate Member Additional DFC at risk: The total amount of each Member's DFC allocated to such other Auction Portfolios that is initially available to LME Clear to be applied against any remaining Default Loss (such amount being the "**Member Additional DFC at risk**") will be calculated as follows:

$$\frac{RO}{NO} \times AO = \text{Member Additional DFC at risk}$$

Where:

"**RO**" means the Member's ranking across all other Auction Portfolios;

"**NO**" means the number of bidders across all other Auction Portfolios;

"**AO**" means the sum of the Member's remaining Allocated DFC Amounts for all other Auction Portfolios.

Step 3 – Contribution towards Default Loss: The amount of each Member's Additional DFC at risk to be applied against any remaining Default Loss (the "**Additional Amount Applied**") will be calculated as follows:

$$\frac{TRDL}{TADFCR} \times ADFCR = \text{Additional Amount Applied}$$

Where:

"**TRDL**" means the total remaining Default Loss (up to a maximum of all Member Additional DFC's at risk);

"**TADFCR**" means the total of all Member Additional DFC's at risk;

"**ADFCR**" means the Member Additional DFC at risk.

~~(e)~~(d) If the Allocated DFC Amounts applied for each Portfolio under Default Procedure C6.6(a) and (b) above are not sufficient to discharge the balance of the Default Loss (being the remaining Excess Loss), any remaining Default Fund Contributions of the non-defaulting Members shall be applied against the Excess Loss on a *pro rata* basis (such that each such Member's Default Fund Contributions shall be applied towards the Excess Loss (aggregated across all Portfolios) in the same proportions as such Member's Default Fund Contributions represent of the total amount of

Default Procedure Part C

Default Fund Contributions or all such non-defaulting Members). Accordingly, at this stage, the total Excess Loss shall be determined across all Portfolios, and any remaining Default Fund Contributions of the non-defaulting Members (taking into account all remaining Allocated DFC Amounts across all Portfolios and, if applicable, any DFC that has not been allocated to any Portfolio) shall be applied against such Excess Loss.

- (d) For the avoidance of doubt: (i) the order or priority in paragraph 6.6(a), (b) and (c) above shall apply only to applications of Members' Default Fund Contributions pursuant to Rule 10.10.1(d) and shall not apply to Rule 10.10.1(e) or to any Stabilisation Replenishment Notice under Rule 10.10.5; and (ii) a Member that has not been admitted to participate in a Service shall have no liability to contribute towards any Default Loss arising in respect of that Service.

6.7 Payments and Auction Costs

- (a) Payments resulting from the auction process shall be made via the Secure Payment System. LME Clear shall transfer the purchased Positions (and, where relevant, Collateral) at the appropriate price to the successful bidding Member and such successful bidder shall pay the amount due to LME Clear in advance of, or simultaneously with, the transfer. Such transfer may take place by way of close out and termination of the relevant Open Contracts and their re-establishment in the Account of the successful bidder or by way of novation of the relevant Open Contracts to the Account of the successful bidder. Where any amount is payable by LME Clear to the successful bidder, LME Clear will not be obliged to make such payment until after the Open Contracts (and, where relevant, Collateral) have been transferred to the successful bidder and any such payment shall be made by the end of the Business Day following such transfer.
- (b) The costs arising out the auction process will be allocated amongst the Defaulting Member's Accounts at the discretion of LME Clear.

6.8 Failed Auction and Close Out

- (a) Where LME Clear determines that either there is insufficient participation in an auction for Open Contracts or where the bid(s) received are not deemed by LME Clear to be reflective of the risks in the Auction Portfolio, LME Clear will deem an auction to be a **"Failed Auction"**.
- (b) In the event of a Failed Auction, LME Clear may undertake one or more further auctions. LME Clear may adjust the parameters of the new auction in order to increase the likelihood of achieving successful bids (for example, by adjusting the risk profile of the Auction Portfolios (by hedging), or their size (by splitting the portfolios by contract/maturity)).
- (c) LME Clear may conduct such further auctions with or without undertaking any of the actions specified in (b). There is no limit to the number of auctions that LME Clear may conduct.
- (d) In the event that LME Clear does not consider that a further auction would be successful, it may seek to close-out the remaining Open Contracts of the Defaulting Member, on a per-metal basis (the Unclosed Metals, as defined in Rule 10.10.2(d)(ii)), through mandatory cash settlement with non-defaulting Members

Default Procedure Part C

and realise any potential profit or loss. In the event that LME Clear applies cash settlement, LME Clear shall obtain the approval of the Board and:

- (i) consult with the Board Risk Committee on its proposals to do so, which shall include providing an explanation of the steps LME Clear proposes to take in relation to such cash settlement and its rationale for taking such steps; and
 - (ii) effect such cash settlement at the then prevailing market price for the Underlying Assets or, if such market price is not available, at such price as LME Clear determines is reasonably appropriate in the circumstances in consultation with the Board Risk Committee.
- (e) Where LME Clear takes the steps described in paragraphs (b) to (d) above in respect of an Auction Portfolio that has become a Failed Auction pursuant to paragraph 6.4(a) above and, following the completion of such steps, LME Clear incurs a Default Loss in respect of that Auction Portfolio, the non-defaulting Members shall contribute towards such Default Loss on the basis that each Members' Default Fund Contributions allocated to the Auction Portfolio pursuant to Default Procedure Part C:6.3(s), together with such Default Fund Contributions as are allocated to the Auction Portfolio pursuant to Default Procedure Part C:6.3(u), shall be applied to the Default Loss pursuant to Rule 10.10.1(d) on a pro rata basis. For the purposes of this paragraph (e), the expression "*pro rata*" means in, in respect of the Default Fund Contributions allocated by LME Clear to the Auction Portfolio, the proportion which the amount of the Default Fund Contributions provided to LME Clear by each individual non-defaulting Member bears to the aggregate amount of the Default Fund Contributions provided by all non-defaulting Member, immediately prior to the commencement of the Default Period.

6.9 Allocation of surpluses between Portfolios

- (a) The processes described in Default Procedure Part C6.3 and C6.4 shall apply on a per-Auction Portfolio basis. In the event that, for the auctions conducted in respect of a Service, the auction for any Auction Portfolio results in a profit to LME Clear, LME Clear may apply such profit against any Default Losses attributable to any other Auction Portfolio as LME Clear, in its sole discretion, deems appropriate in the interests of risk management.
- (b) For the avoidance of doubt, Allocated DFC Contributions for one Portfolio may be applied to meet Default Losses attributable to one or more other Portfolios in the accordance with Default Procedure Part C6.6.(b)(iv) and/or C6.6(c), as applicable.

6.10 Liquidating Collateral

LME Clear may liquidate (sell) or otherwise generate cash liquidity or other financing from non-cash Collateral provided by the Defaulting Member if and when it thinks fit. The choice of Collateral to use for this purpose will be decided by LME Clear and LME Clear may take into account market conditions at the time.

7. LOSSES IN EXCESS OF DEFAULT FUND

- 7.1 In the event that, following the application of the amounts provided pursuant to the replenishments required under Rule 10.10.1(e), there remains an Excess Loss, LME Clear

Default Procedure Part C

will seek to discharge such Excess Loss through an equitable allocation of such Excess Losses to non-defaulting Members, in accordance with Rule 10.10.2.

- 7.2 This allocation of Excess Losses will be carried out through a pre-defined mechanism that has been previously notified to the Members. The methodologies available to LME Clear are as follows:
- (a) the application of a variation margin haircut mechanism, as specified in Rule 10.10.2 (b) and (c);
 - (b) in the event that the process in (a) does not result in the discharge in full of the Excess Loss, LME Clear may effect a cash settlement of all Open Contracts, as specified in Rule 10.10.2(d).

8. **BUSINESS VIABILITY REVIEW**

In the event that LME Clear has utilised any unfunded Default Fund Contributions in the management of a default, a business viability review will be conducted immediately following the conclusion of the related default management process. The Board will, in conjunction with LME Clear's Parent Undertakings, seek to determine the most appropriate way forward for the business taking into consideration of the views of non-defaulting Members.

Default Procedure Part D

PART D – PORTING PROCEDURE

This Porting Procedure contains:

1. (in Section 1) the documentary requirements for the establishment of arrangements in support of the Automatic Porting Process; and
2. (in Section 2) the Porting Process that applies in respect of:
 - (a) Client Accounts to which the Automatic Porting Process applies; or
 - (b) any other Client Account.

Default Procedure Part D

SECTION 1: MAINTENANCE DOCUMENTATION IN SUPPORT OF AUTOMATIC PORTING PROCESS**1. AUTOMATIC PORTING DESIGNATION DOCUMENTS**

1.1 In order for any Client Account to be eligible under the Rules for the application of the Automatic Porting Process LME Clear must, at the time of issue of a Default Notice in respect of the Member responsible for such Account, be in receipt of such documents and forms as LME Clear shall prescribe from time to time ("**Automatic Porting Designation Documents**") that:

- (a) identify the Client Account(s) to which the Automatic Porting Process is to apply;
- (b) record the agreement of the Clients allocated to such Client Account(s) to participate in the Automatic Porting Process;
- (c) identify:
 - (i) the potential Member Transferee to which all Clients allocated to an Omnibus Segregated Client Account shall agree (subject to the agreement of that Member) to have their assets and positions transferred pursuant to the Porting Process; and
 - (ii) the potential Member Transferee to which a Client allocated to an Individual Segregated Client Account shall agree (subject to the agreement of that Member) to have its assets and positions transferred (including in the case of a Posting Client, any LME Warrant Collateral provided by such Posting Client) pursuant to the Porting Process;

(in each case, the "**Designated Member Transferee**"); and
- (d) record the agreement of such Member(s) identified as Designated Member Transferee(s) to be treated as such.

1.2 LME Clear shall only treat any Automatic Porting Designation Document, or any amendment to it, as representing the accurate wishes of the signatories to it, from the time that it is formally accepted by LME Clear. LME Clear may refuse to accept any Automatic Porting Designation Document or any amendment to any Automatic Porting Designation Document provided by any Client, or by a Member on behalf of its Client(s), where:

- (a) the Automatic Porting Designation Document is not complete in all respects;
- (b) the Automatic Porting Designation Document has not been properly executed, to LME Clear's satisfaction, by all relevant parties;
- (c) less than one Business Day has elapsed since such Automatic Porting Designation Document, or amendment to it, was received by LME Clear; or
- (d) any Member specified in the Automatic Porting Designation Document has become subject to a Default Event prior to the expiry of the period set out in (c) above.

Notwithstanding the foregoing, LME Clear may agree to accept an Automatic Porting Designation Document notwithstanding that some or all of the circumstances described in (a), (b) or (d) has arisen, or otherwise prior to the expiry of the period set out in (c) above.

1.3 For the avoidance of doubt, in the event that LME Clear receives an Automatic Porting Designation Document less than one Business Day prior to the Member becoming a

Default Procedure Part D

Defaulting Member, LME Clear may treat such Automatic Porting Designation Document as constituting a valid request by the Client(s) specified in the Automatic Porting Designation Document to effect a Transfer to the Designated Member Transferee in accordance with Rule 10.7.

1.4 For the avoidance of doubt:

- (a) the latest Automatic Porting Designation Document received by LME Clear in respect of any Client Account shall represent an instruction by the Client or Clients allocated to that Client Account to implement the Automatic Porting Process in the event that the Member responsible for that Client Account becomes a Defaulting Member;
- (b) it shall be the responsibility of the Client or Clients allocated to a Client Account to ensure that LME Clear is at all times in receipt of accurate, complete and up-to-date Automatic Porting Designation Documents reflecting the wishes and instructions of all the Clients that are allocated to that Account; and
- (c) LME Clear shall have no liability whatsoever to any Member or to any Client or Indirect Client in the event that LME Clear implements the Automatic Porting Process in respect of a Client Account, in reliance upon the information contained in the latest Automatic Porting Designation Documents received by LME Clear in respect of such Client Account.

Default Procedure Part D

SECTION 2: PORTING PROCESS**2. TRANSFER OF A CLIENT ACCOUNT PURSUANT TO RULE 10.7**

2.1 Where a Client has:

- (a) pursuant to its agreement to the lodgement of Automatic Porting Designation Documents, given advance consent to LME Clear under Rule 10.7 to transfer assets and positions from its Client Account with a Member Transferor to a Client Account with a Member Transferee; or

then LME Clear may choose as it considers most appropriate in its sole opinion, either:

- (c) to exercise its powers under Rule 10.4.1(f), to close out and terminate the Open Contracts on such Client Account of the Member Transferor and re-establish them on a Client Account with the Member Transferee; or
- (d) to transfer the assets and positions on the Client Account of the Member Transferor by way of novation to a Client Account of the Member Transferee in accordance with the procedure set out in D2.2 to D2.11 below.

Automatic Porting Process

2.2 LME Clear will effect such a transfer of assets and positions on a Client Account in respect of which Automatic Porting Designation Documents have been filed in accordance with Rule 5 where:

- (a) the Automatic Porting Designation Documents, completed and signed by the Client(s) allocated to the Client Account and the Designated Member Transferee have been delivered to LME Clear in accordance with Section 1 of this Default Procedure D at least one (1) clear Business Day before the date on which a Default Notice is issued in respect of the Defaulting Member;
- (b) a Designated Member Transferee has provided LME Clear with its written consent to its acceptance of all the assets and positions recorded to the Client Account within the Porting Election Period;

Notwithstanding the foregoing, LME Clear may, if it chooses, agree to vary or waive one or more of the above requirements if it thinks fit.

Standard Porting Process

2.3 LME Clear will effect such a transfer of assets and positions on a Client Account to which the Automatic Porting Process does not apply where:

With regards to any Individual Segregated Client Account in relation to which the Client Direct Posting Structure has been implemented, the Member Transferee must establish contractual arrangements to set up an Individual Segregated Client Account for the relevant Posting Client (noting that, until such Individual Segregated Client Account has been established, such Posting Client's assets and Positions, including LME Warrant Collateral provided by it, may be temporarily transferred to an Omnibus Segregated Client Account held by the Member Transferee. The Member Transferee must have transferred the Posting Client's assets and Positions, including the LME Warrant Collateral provided to it, to the Individual Segregated Client Account within ten (10) business days of the relevant Default Event. Nothing in this part shall prevent LME Clear from requiring the Member Transferee to replace the LME Warrant Collateral with other Eligible Collateral at any time).

Notwithstanding the foregoing, LME Clear may, if it chooses, agree to vary or waive one or more of the above requirements if it thinks fit.

Default Procedure Part D

 - (e) the Partial Transfer relates to all the Open Contracts of the Requesting Client recorded to the Relevant Account; and
 - (f) the Member Transferee provides to LME Clear written representations that it has established appropriate contractual arrangements with such Clients (in compliance with Rule 5.2) to enable the Member Transferee to perform clearing services for such Clients from the time of the Partial Transfer and, where requested by LME Clear, provides to LME Clear evidence satisfactory to LME Clear that it has established such contractual arrangements.

Notwithstanding the foregoing, LME Clear may, if it chooses, agree to vary or waive one or more of the above requirements if it thinks fit.

The content of this Annex shall be as set out on the Website.

Annex 8

ANNEX 8 – AUCTION PROCESS**1. INTRODUCTION**

- 1.1 This Annex is supplementary to the auction process requirements specified in Default Procedure C:6.3 (*Auction for LME Base Products and LME Precious Products*) and forms part of the procedures referred to in Default Procedure C:6.3(b).
- 1.2 Members must comply with the requirements specified in this Annex where LME Clear conducts an auction in accordance with Default Procedure C:6.3.

2. TIMESCALES FOR EVALUATION OF AUCTION PORTFOLIO AND SUBMISSION OF BIDS

- 2.1 Prior to the auction of an Auction Portfolio, LME Clear shall Notify non-defaulting Members of:
- (a) the timescales within which non-defaulting Members should evaluate the Auction Portfolio; and
 - (b) the deadline(s) by which any bids should be submitted to LME Clear.

LME Clear will aim to provide such Notification on the Business Day prior to the auction, but reserves the right to provide such Notification at a different time where LME Clear determines such timing to be appropriate or necessary to increase the likelihood of achieving a successful auction.

- 2.2 LME Clear may, at any time prior to expiry of the relevant timescales or deadlines specified pursuant to paragraph 2.1 above, extend such timescales or deadlines, by issuing a Notice specifying the details of such extension.

3. ACCEPTABLE AUCTION PRICE

- 3.1 When determining the acceptable auction price for the purposes of Default Procedure Part C:6.5(c), LME Clear may consider the following factors:
- (a) the size of the Auction Portfolio relative to the market;
 - (b) the current mark-to-market; and
 - (c) the likely risk premium required by an auction participant.

4. STATUS OF SUBMITTED BIDS

Any bid submitted to LME Clear by a non-defaulting Member shall be binding on the Member until the winner of the auction is declared by LME Clear, such that:

- (a) the final bid submitted within the time period specified in the Notice referred to in paragraph 2.1 above shall be binding on the Member and cannot be revoked; and
- (b) in the event that the bid is the successful and is accepted by LME Clear, the Member must pay to LME Clear the price specified in the bid, in exchange for receipt of the Auction Portfolio (and, where appropriate, any associated Collateral in accordance with Default Procedure C:6.3(b)).

Annex 8

5. PROCESS FOR SUBMITTING BIDS

All bids in respect of an Auction Portfolio must be submitted in accordance with the process specified in the Notice relating to the Auction Portfolio (being the Notice issued pursuant to paragraph 2.1 above). In the ordinary course of events, non-defaulting Members will be required to submit bids via the LMEmercury GUI.

6. BIDS THAT ARE NOT RECEIVED

In the event that LME Clear does not receive a bid from a non-defaulting Member, including where a non-defaulting Member has attempted to submit a bid but such bid is either not received by, or accessible by, LME Clear personnel (whether due to any technological error, outage or incapacity, or otherwise):

- (a) LME Clear shall have no responsibility for, shall not be treated as having received, and shall have no obligation to subsequently receive, any such bid; and
- (b) the non-defaulting Member shall be treated as not having submitted a bid (including, where applicable, for the purposes of the application of the juniorisation principles in Default Procedure C:6.6).

7. AUTHORISATION FOR BIDS

7.1 Any bid submitted by a non-defaulting Member must be submitted to LME Clear by:

- (a) an Authorised Representative of such Member, using that Authorised Member's own user login to the LMEmercury GUI; or
- (b) any other representative of the Member who is authorised to submit bids on behalf of the Member, using that individual's own user login to the LMEmercury GUI.

7.2 Following any bid submitted pursuant to paragraph 7.1 above LME Clear will liaise with an Authorised Representative of the Member in respect of any bid submitted via the LMEmercury GUI, unless LME Clear has been notified by an Authorised Representative of the name and contact details of any other persons that the Member has authorised to liaise with LME Clear in respect of such bid.

7.3 LME Clear shall be entitled to assume that any person who enters a bid via LMEmercury pursuant to paragraph 7.1 above, or who is notified to LME pursuant to paragraph 7.2 above shall be fully authorised by the Member to take represent the Member in respect of any matter relevant to the bid and the auction of the Auction Portfolio, including by taking binding decisions on behalf of the Member.

7.4 LME Clear shall be under no obligation to accept or treat as valid any bid that is purported to be submitted by a Member that does not comply with paragraph 7.1 above.

8. COMMUNICATIONS IN RESPECT OF SUBMITTED BIDS

8.1 LME Clear shall communicate with Members in respect of the auction of an Auction Portfolio by issuing Notices (which can include, for the avoidance of doubt, bilateral email communication where LME Clear considers appropriate).

8.2 In the event that LME Clear wishes to seek clarification from a Member of any matter relating to a bid submitted by such Member, LME Clear may contact an Authorised Representative of the Member or an alternative authorised individual using such contact details as the Member shall have specified in advance pursuant to paragraph 7.2.

Annex 8

8.3 Notwithstanding paragraphs 8.2 above, LME Clear shall have no obligation to contact any Member to seek clarification of any matter relating to a bid submitted by such Member.

9. **SPECIFICATION OF ENTRY CRITERIA**

When assessing a non-defaulting Member's satisfaction of the entry criteria for an auction, pursuant to Default Procedure C:6.4(b):

9.1 LME Clear shall assess a non-defaulting Member's creditworthiness for the purposes of Default Procedure C:6.4(b)(i) by reference to the minimum credit rating that LME Clear would require an applicant for Membership to satisfy in order to conduct the same types of business and to participate in the same Services as are conducted by, and participated in, by the non-defaulting Member;

9.2 In respect of the LMEprecious Service, LME Clear does not currently apply any criteria regarding the non-defaulting Member's history of Positions, for the purposes of Default Procedure C:6.4(b)(iii) and, accordingly, no such criteria will be applied so as to justify any exclusion from participation in an auction pursuant to Default Procedure C:6.4(c); and

9.3 In respect of the LME Base Service, the criteria for the purposes of Default Procedure C:6.4(b)(iii) is that the relevant non-defaulting Member has held a Position in respect of all Underlying Assets represented in the relevant Auction Portfolio within the 6 months immediately preceding the commencement of the relevant Default Period.

10. **BIDDERS FROM THE SAME GROUP**

10.1 In the event that two or more non-defaulting Members:

(a) are each required to submit a bid in accordance with Default Procedure C:6.4(da); and

(b) are members of the same Group,

then such Members must submit identical bids and, in the event that such bids are successful:

(i) such Members must have determined among themselves which such Member shall be treated as the successful bidder that shall be required to pay for, and accept the Auction Portfolio;

(ii) (where there are two such Members within the same Group), the other Member shall be treated as the non-successful bidder that was closest to the successful bid for the purposes of the application of the juniorisation principles in Default Procedure C:6.6(b);

(iii) such Members must notify LME Clear of their agreed determination of the basis on which a successful bid should be allocated in accordance with paragraphs (i) and (ii) above;

(iv) where such Members fail to provide the notification required pursuant to paragraph (iii) above, LME Clear may determine how the successful bid should be allocated between such Members.

10.2 Where paragraph 10.1(a) and (b) apply, such non-defaulting Members may agree that one such Member shall submit a single bid to LME Clear through the LMEmercury GUI and that

Annex 8

such bid will represent identical bids on behalf of all such non-defaulting Members. Where such Members so agree:

- (a) in order for a single bid to represent identical bids on behalf of all such non-defaulting Members, an Authorised Representative of each such Member must have notified LME Clear prior to closure of the auction of their intention to be represented by a single bid and indicating:
 - (i) which Member's bid should be taken to represent identical bids on behalf of all such non-defaulting Members' bids; and
 - (ii) the name and contact details of the authorised individual (in accordance with paragraph 7.2 above) to which communications may be sent by LME Clear in respect of such bid; and
 - (iii) the information specified in paragraph 10.1(iii)
- (b) any such bid made by one such Member will be deemed to be effective to communicate the identical bids of all such Members, and shall be deemed to constitute a fully authorised and binding bid on behalf of each such Member;
- (c) LME Clear shall be entitled to treat any communications in respect of such bid, between LME Clear and the individual specified in (a)(ii) above, as being effective to communicate with the duly authorised representative of each such Member, including for the purposes of paragraph 7 above; and
- (d) for the avoidance of doubt, the notice provided to LME Clear pursuant to paragraph 10.2(a) must include the information specified in paragraph 10.1(iii) above (failing which LME Clear may apply paragraph 10.1(iv) above).

11. EXCLUSION FROM PARTICIPATION

11.1 Without limitation to LME Clear's discretion pursuant to Default Procedure C:6.4(c), LME Clear may determine that a non-defaulting Member should be excluded from being required to participate in an auction on the grounds that it does not have the operational capability or expertise to participate in the auction where such Member is able to demonstrate, to the satisfaction of LME Clear that:

- (a) such Member or a related entity does not have the capability to manage its own Positions, as may be evidenced by the fact that it does not meet any of the following criteria:
 - (i) such Member regularly holds Positions in its House Account overnight in Eligible Products with the same Underlying Asset as the Eligible Products included in the Auction Portfolio;
 - (ii) such Member has, as a Client, a member of its Group which regularly holds open ~~P~~Positions overnight in Eligible Products with the same Underlying Asset as the Eligible Products included in the Auction Portfolio; or
 - (iii) such Member regularly holds Positions in any Client Account overnight in Eligible Products with the same Underlying Asset as the Eligible Products included in the Auction Portfolio which, in the event of the default of a Client allocated to such Client Account, would result in the Member needing to liquidate such Positions; or

Annex 8

- (b) such Member is prevented by any Applicable Law binding on the Member from either participating in the auction or accepting the Auction Portfolio, or such participation or acceptance would constitute a breach by the Member of any Applicable Law binding on the Member (including for the avoidance of doubt, where a Member does not have the regulatory status which would permit it to participate or accept an Auction Portfolio under Applicable Law).
- 11.2 Any request by a Member for an exclusion from participation from an auction pursuant to Default Procedure C:6.4(c) must:
- (a) clearly articulate in writing the grounds on which the Member considers that it should be excluded from the auction, which grounds must be based on one or more of the criteria specified in paragraph 11.1 above;
 - (b) be signed by an Authorised Representative of the Member;
 - (c) include supporting evidence to demonstrate that to LME Clear's satisfaction that the grounds for granting the exclusion are justified; and
 - (d) (where such request is based on the grounds specified in paragraph 11.1(b) above), be accompanied by a reasoned legal opinion demonstrating, to LME Clear's satisfaction, the basis on which such grounds are justified. LME Clear reserves the right to require that such legal opinion be provided by a reputable law firm with demonstrable expertise in the relevant field of law or regulation for the jurisdiction in which the legal or regulatory grounds are alleged to pertain. LME Clear may refuse to accept a legal opinion provided pursuant to this paragraph (d) in the event that LME Clear, in its absolute discretion, is not satisfied that the lawyer or law firm that has prepared the opinion has appropriate expertise in the relevant jurisdiction and/or field of law or regulation, or where LME Clear, in its absolute discretion, disagrees with the conclusions set out in the legal opinion.
- 11.3 LME Clear will exercise its discretion in Default Procedure Part C 6.4(d) to exclude a Member from the requirement to bid during a Default Period taking into account the following factors:
- (a) the size of the Auction Portfolio; and/or
 - (b) whether the transfer of any Auction Portfolio to that Member would be in excess of LME Clear's risk tolerance for that Member.
- 11.4 LME Clear shall notify any Members excluded during the Default Period that they are no longer Mandatory Bidders prior to the disclosure of the Auction Portfolio. Such Members may still elect to become Voluntary Bidders in accordance with Default Procedure Part C 6.4(e) and the contents of the Auction Portfolio will then be disclosed to them in accordance with Default Procedure Part C 6.4(f) (however, Members should bear in mind that LME Clear may then exercise its discretion under Default Procedure Part C 6.4(d)).

ANNEX 9 – ACCOUNT TRANSFER PROCESS**1. TYPES OF ACCOUNT TRANSFER****1.1 Inter-Member Transfer**

A request for an Inter-Member Transfer may, without limitation, include a request in circumstances where the Requesting Member Transferor is:

- (a) transferring its responsibilities for the clearing of Positions for one or more Clients to a Requesting Member Transferee; and/or
- (b) withdrawing from Membership or terminating its participation in a Service and becoming a Client of a Requesting Member Transferee.

1.2 Inter-Account Transfer

A request for an Inter-Account Transfer may, without limitation, include a request in circumstances where the Origination Account is a Client Account and:

- (a) a Client's Positions are to be transferred to another Client Account maintained by the Requesting Member in respect of such Client; or
- (b) an Indirect Client intends to transfer its Indirect Clearing Arrangement from one Clearing Client of the Requesting Member to another Clearing Client of the Member, such that the Indirect Client's Positions are to be transferred:
 - (i) from a Client Account of the Member allocated to the transferor Clearing Client;
 - (ii) to a Client Account of the Member allocated to the transferee Clearing Client; or
- (c) a Client intends to become an Indirect Client of another Client of the Requesting Member, such that the first Client's Positions are to be transferred:
 - (i) from the Client Account of the Member allocated to the first Client;
 - (ii) to a Client Account of the Member allocated to the transferee Client that is allocable to one or more Indirect Clients, including the first Client); or
- (d) an Indirect Client intends to become a Client of the Member, such that the Indirect Client's Positions are to be transferred:
 - (i) from the Client Account of the Requesting Member allocated to a Client that is allocable to one or more Indirect Clients, including the transferring Indirect Client;
 - (ii) to a Client Account of the Requesting Member allocated to the transferring Indirect Client, as a Client of the Member.

Annex 9

1.3 Other Types of Transfer

For the avoidance of doubt, paragraphs 1.1 and 1.2 are examples of the types of Account Transfer that a Member may request. Nothing in Rule 6.13 or this Annex 9 shall prevent LME Clear from considering and/or giving effect to a request for an Account Transfer in circumstances other than those described in paragraphs 1.1 and 1.2 above.

2. PROCEDURAL REQUIREMENTS FOR ACCOUNT TRANSFERS**2.1** In respect of any Account Transfer:

- (a) the Requesting Member(s) shall, upon submission to LME Clear of the Transfer Request Notice, be deemed to have made the statements and representations, and provided such confirmations, as are set out in Rule 6.13 and this Annex 9;
- (c) the transfer will occur at the time and on the date agreed between LME Clear and the Requesting Member(s) and notified by LME Clear to the Requesting Member(s);
- (d) only those Open Contracts and, where applicable, Collateral which are allocated to the Origination Account(s), detailed in the Transfer Request Notice, at such time will be capable of being transferred by LME Clear to the Destination Account(s);
- (e) the transfer of the Open Contracts and, where applicable, Collateral and (where relevant) Default Fund Contribution shall be deemed to occur simultaneously and the transfer of each shall be conditioned on the transfer of the others; and
- (g) the Requesting Member(s) hereby agree to sign any document and take any step which LME Clear may require at any time to give effect to any provision of Rule 6.13 and/or this Annex 9.

2.2 In respect of any Inter-Member Transfer, in addition to the requirements in paragraph 2.1 above:

- (a) where a Default Fund Contribution is being transferred, and notwithstanding Rule 3.6.5, the effective date of termination of the Requesting Member Transferor's Membership will be as agreed between LME Clear and the Requesting Member Transferor in order to facilitate the transfer of the Default Fund Contribution to the Member transferee. Such date shall be the Termination Date for the purposes of the Rules. This provision shall constitute a waiver for the purposes of Rule 2.11.1 of any rights LME Clear would otherwise have had to insist that the Termination Date shall be determined in accordance with Rule 3.6.5; and
- (b) if the transfer of the Open Contracts and, where applicable, Collateral and Default Fund Contribution by LME Clear is not fully effective or completed for any reason, LME Clear may give a notice to the Requesting Member Transferor and Requesting Member Transferee, whereupon (i) any transferring rights and obligations that have transferred shall be deemed not to have transferred (and if necessary be deemed to have been novated back to the Requesting Member Transferor) and (ii) non-cash Collateral shall be returned by a deemed application of the provisions (including the Release Clause, the Conveyance Clause and the Re-Pledge Clause) which relate to non-cash Collateral (with the identity of the Requesting Member Transferor and the Requesting Member Transferee being switched for the purposes of those provisions).

Annex 9

3. CONFIRMATIONS BY REQUESTING MEMBERS FOR ALL ACCOUNT TRANSFERS

Where a Requesting Member signs and submits (or, in the case of the Requesting Member Transferee for an Inter-Member Transfer permits the Requesting Member Transferor to submit) to LME Clear a Transfer Request Notice for an Account Transfer, such Requesting Member shall hereby be deemed, for the benefit of LME Clear, to:

- (a) acknowledge and agree that the transfer is subject to the Rules including, but not limited to, the provisions of Rules 2.3, Rule 6.13 and this Annex 9 and to comply with such provisions;

- (c) represent and warrant to LME Clear that:
 - (i) it has taken or will take all necessary steps (in relation to itself or as between itself and any other Requesting Member) to ensure that the transfer is effective under Applicable Law;
 - (ii) all conditions applicable to such Account Transfer in Rule 6.13 and this Annex 9 shall be satisfied;
 - (iii) (where the transfer relates to Client Business) it has complied with, and shall continue to comply, with the requirements of Rule 6.13.8 (*Requesting Member Responsibility for Clients and Indirect Clients*);
- (d) acknowledge and agree that the transfer (and any associated assignment and conveyance) will be effected by LME Clear in accordance with the Transfer Request Notice, Rule 6.13 and this Annex 9 (notwithstanding, in the case of an Inter-Member Transfer, the terms of any other agreement between the Requesting Members); and
- (e) authorise and instruct LME Clear to make and, where necessary, to cause any securities intermediary or other person to make, all appropriate entries and registrations and to take all other actions to effect the transfers contemplated by such Transfer Request Notice.

4. ADDITIONAL REQUIREMENTS FOR INTER-MEMBER TRANSFERS**4.1 Additional Conditions**

The Transfer-Specific Conditions for an Inter-Member Transfer are that:

 - (c) in relation to any such Collateral, the Requesting Member Transferor shall hereby be deemed to confirm and represent to LME Clear that:

Annex 9

- (i) with effect on LME Clear recording the transfer in its records, assigns by way of sale, transfers and conveys all right, title and interest of the Member Transferor in and to such Collateral (including, but not limited to, any beneficial interest and/or equity/right of redemption in respect thereof) (the “**non-cash Collateral rights**”) to the Requesting Member Transferee free of any security, encumbrances, liens, security interests or other claims of any kind held by any person;
- (ii) acknowledges and agrees that such Collateral shall immediately upon such assignment, transfer and conveyance be held by LME Clear solely on behalf of or in respect of (as applicable) the Requesting Member Transferee; and
- (iii) for the avoidance of doubt, acknowledges and agrees that immediately upon such assignment, transfer and conveyance it shall have no right or entitlement to assert any claim over, or right, title or interest in or to, such Collateral,

Appendix 2 Default Fund and Stress Testing Overview

Default Fund and Stress Testing

Default Fund and Stress Testing

Default Fund

Regulatory requirements outline the framework and governance for the Default Fund; the need to cover ‘*extreme but plausible*’ market conditions.

Stress Testing

Regulatory requirements outline the need for stress testing to ‘*...reflect the risk profile of the CCP...’* and identify ‘*...the market risks to which the CCP would be exposed following the default of one or more clearing members, including unfavourable movements in the market price...reduced market liquidity...and declines in the liquidation value of collateral’*

Regulatory requirements detail the CCP should ‘*...specify extreme but plausible market conditions based on at least: (a) a range of historical scenarios, including periods of extreme market movements observed over the past 30 years...(b) a range of potential future scenarios...’*

Regulatory requirements also include the need to conduct reverse stress testing into ‘*...extreme market conditions that go beyond what are considered plausible market conditions...’*

Default Fund and Stress Testing

Stress Testing Approach – Historic

LMEClear have taken at least 30 years of historic price data

- Key stressed periods identified, e.g. Lehmans, New Orleans zinc, Sumitomo, Euro crisis, Tin Crisis, US Sanctions 2018, Nickel 2022
- Days that show extreme move for any metal within stress periods used as a basis for stress test scenarios that cover the worst case of 1 and 2 day price moves. Price history covering all metals on that day captured including option volatilities.
- Over 350 scenarios captured.
- Key largest shifts;

Contract	Contract Code	Max Stress Shift up	Max Stress Shift down
Aluminium HG	AH	15.87%	-14.43%
Copper	CA	18.80%	-15.90%
Nickel	NI	78.75%	-26.03%
Lead	PB	22.90%	-17.70%
Tin	SN	25.40%	-19.67%
Zinc	ZS	19.05%	-17.20%

Default Fund and Stress Testing

Stress Testing Approach – Hypothetical

- Covers potential extreme outright and spread returns based on historic observations
- Scenarios which cover all metals moving up or down
- De-correlation scenarios
- Stress inter-commodity spreads and inter contract correlations
- Event scenarios such as pandemic, sanctions, low stocks

Quantitative Approach for hypothetical scenarios

- The approach looks for the extreme and plausible scenarios from a given portfolios P&L at a set confidence interval that is “extreme” enough while still being “plausible” by basing the calculation on historically observed volatility and interdependencies.
- **Extreme**: 99.95% confidence interval is selected which is much higher than LMEC’s Initial Margin confidence interval at the portfolio level (99.5%).
- **Plausible**: The approach incorporates the most up-to-date market volatility, correlation behaviour (based on 10y+ historical data) and member portfolios into the scenario creation on a monthly calibration cycle.

Default Fund and Stress Testing

Stress Testing Approach – Collateral

- All collateral positions are stressed using historically and hypothetically created scenarios based on data from the same dates as for historic cleared position stresses.
- Additional stresses for collateral specific events are also added with relevant cleared product data.

Stress Testing Approach – Frequency

- The historical and hypothetical stress testing are undertaken on a daily basis across all scenarios and Member portfolios.
- There is also a monthly review of scenarios and recent market data to consider the creation of new scenarios.

Default Fund and Stress Testing

Default Fund Sizing

- The LME Base Default Fund will be sized based upon the two largest Clearing Member groups and their stress testing losses across hypothetical and historical scenarios.
- The calculations will use stress testing results over the previous three months.
- A minimum default fund size is set, based on a percentage of total Initial Margin over the previous six months, currently set to 10%.
- All clients are assumed to fail to port.
- A buffer of 10% of the fund value will be added to ensure the fund remains regulatory compliant between recalculation points.
- The default fund size has a limit, based on a percentage of total Initial Margin over the previous six months, currently set to 14%.
- There is also a limit by which the Default Fund size can decrease on the monthly re-set, currently set to 10%.
- Recalculation is performed as a standard on a monthly basis, on the first business day of each month. Intra-month re-sets may be performed in the event that internal triggers are breached and Clearing Members would be informed in advance if a re-set was required.

Default Fund and Stress Testing

Member Contribution Process

- Contributions are allocated based upon relative member total initial margins (across all accounts) for end-of-day and 2pm intra day from the previous month, subject to a minimum contribution of \$1m.
- Contributions are payable in USD cash only.
- Payment changes are collected/redeemed via SPS on the following business day.
