

To: All Members, warehouse companies and their London agents and other interested parties

Ref: 20/080 (LME Notice Reference)  
20-012 (LME Clear Circular Reference)

Classification: Technical

Date: 27 March 2020

Subject: **DATA CENTRE SITE CHANGEOVER AND FIREWALL UPGRADE POSTPONED**

### Summary

1. This Notice advises Members and other market participants of the postponement of the planned data centre changeover for LMEmercury and LMEwire production services, as well as the firewall upgrade in the LME primary data centre (“DC 1”).

### Background

2. The London Metal Exchange (“LME”) advised Members in LME Clear Notice 20/007, issued 10 March 2020, about the changeover for LMEmercury and LMEwire production services from the LME secondary data centre (“DC 2”) to DC 1 on Saturday 04 April 2020.
3. Members were also advised, in LME Notice 20/048, issued 21 February 2020, about the planned firewall upgrade of all production services in LME DC 1 on Saturday 25 April 2020.

### Postponement

4. Given the backdrop of COVID-19 and with a view to minimise any avoidable burden on technology change capacity, the LME has decided to postpone both of the above planned works until further notice.
5. Any queries regarding this Notice should be directed to LME Technical Account Management team at [tam@lme.com](mailto:tam@lme.com).
